The Making of an Indian Metropolis Prashant Kidambi, 2016-12-05 This book explores the social history of colonial Bombay in the late Victorian and Edwardian eras a pivotal time in its emergence as a modern metropolis Drawing together strands that hitherto have been treated in a piecemeal fashion and based on a variety of archival sources the book offers a systematic analytical account of historical change in a premier colonial city In particular it considers the ways in which the turbulent changes unleashed by European modernity were negotiated appropriated or resisted by the colonised in one of the major cities of the Indian Ocean region A series of crises in the 1890s triggered far reaching changes in the relationship between state and society in Bombay The city's colonial rulers responded to the upheavals of this decade by adopting a more interventionist approach to urban governance The book shows how these new strategies and mechanisms of rule ensnared colonial authorities in contradictions that they were unable to resolve easily and rendered their relationship with local society increasingly fractious The study also explores important developments within an emergent Indian civil society It charts the density and diversity of the city's expanding associational culture and shows how educated Indians embraced a new ethic of social service that sought to improve and uplift the urban poor In conclusion the book reflects on the historical legacy of these developments for urban society and politics in postcolonial Bombay This wide ranging work will be essential reading for specialists in British imperial history postcolonial studies and urban social history It will also be of interest to all those concerned with the comparative history of governance and public culture in the modern city

Foster, 2003-12 Using evidence from disciplines as diverse as history geography biochemistry and genetics the author demonstrates that schizophrenia is caused by the hallucinogen adrenochrome and its derivatives Effective treatment involves orthomolecular substances that reduce adrenochrome production or mitigate its impact

Peter Morrall,2023-11-22 This book focuses on the paradoxical effect of social crises on mental health When crises occur there s an upsurge of mental suffering due to an intensification of such social insanities as violence inequality and insecurity Paradoxically there are positive consequences due to acts of kindness cooperation and the ability to cope and hope Two interconnected categories of social crises are covered in the book These are as follows contagions for example the COVID 19 pandemic numerous outbreaks of plague and smallpox since medieval times and the 1918 influenza pandemic conflicts including the Russian invasion of Ukraine and aspects of world war such as the Holocaust the use of nuclear bombs in the Second World War and the climate emergency What is also explored in the book is whether there is an amplification of everyday difficulties whereby having a mental health problem has become normalised The idea of mental healthism is introduced to explain the cultural shift towards this apparent normalisation of ordinary psychological suffering The book will be of interest to students practitioners and researchers from sociology psychology nursing social work and psychiatry among others *Penny Cyclopaedia of the Society for the Diffusion of Useful Knowledge* ,1841 V 1 20 are like missing vols 21 26 also freely available online at the the China America Digital Academic Library CADAL can be accessed with the following individual urls [http lookup lib hku hk lookup bib B3144507Xv1](#) Note Click to view v 1 via CADAL [http lookup lib hku hk lookup bib B3144507Xv2](#) Note Click to view v 2 via CADAL [http lookup lib hku hk lookup bib B3144507Xv3](#) Note Click to view v 3 via CADAL [http lookup lib hku hk lookup bib B3144507Xv4](#) Note Click to view v 4 via CADAL [http lookup lib hku hk lookup bib B3144507Xv5](#) Note Click to view v 5 via CADAL [http lookup lib hku hk lookup bib B3144507Xv6](#) Note Click to view v 6 via CADAL [http lookup lib hku hk lookup bib B3144507Xv7](#) Note Click to view v 7 via CADAL [http lookup lib hku hk lookup bib B3144507Xv8](#) Note Click to view v 8 via CADAL [http lookup lib hku hk lookup bib B3144507Xv9](#) Note Click to view v 9 via CADAL [http lookup lib hku hk lookup bib B3144507Xv10](#) Note Click to view v 10 via CADAL [http lookup lib hku hk lookup bib B3144507Xv11](#) Note Click to view v 11 via CADAL [http lookup lib hku hk lookup bib B3144507Xv12](#) Note Click to view v 12 via CADAL [http lookup lib hku hk lookup bib B3144507Xv13](#) Note Click to view v 13 via CADAL [http lookup lib hku hk lookup bib B3144507Xv14](#) Note Click to view v 14 via CADAL [http lookup lib hku hk lookup bib B3144507Xv15](#) Note Click to view v 15 via CADAL [http lookup lib hku hk lookup bib B3144507Xv16](#) Note Click to view v 16 via CADAL [http lookup lib hku hk lookup bib B3144507Xv17](#) Note Click to view v 17 via CADAL [http lookup lib hku hk lookup bib B3144507Xv18](#) Note Click to view v 18 via CADAL [http lookup lib hku hk lookup bib B3144507Xv19](#) Note Click to view v 19 via CADAL [http lookup lib hku hk lookup bib B3144507Xv20](#) Note Click to view v 20 via CADAL *Joseph Shepherd* John F. Interiors in the Era of Covid-19 Penny Sparke, Ersi Ioannidou, Pat Kirkham, Stephen Knott, Jana Scholze, 2023-01-26. The Covid 19 lockdowns caused people worldwide to be confined to their homes for longer and on a greater scale than ever before. This forced many unprecedented changes to the way we treat domestic space as relationships shifted between the public and the private worlds and homes were rapidly adapted to accommodate the additional roles of schools, offices, gyms, restaurants, making spaces and more. Above all, our understanding of the home as a site to support and enhance the well-being of its inhabitants changed in a variety of novel ways. *Interiors in the Era of Covid* is a collection of essays which explore the complex ways in which our inside spaces, contemporary and historical, have responded to Covid 19 and other human crises. With case studies ranging from US and Europe to Japan, China, Colombia, and Bangladesh, this is a truly global work which examines wide-ranging subjects from home working and home technologies to the impact of lockdown on people's identities, gender roles in the home, and the realities of domestic living with Covid in refugee camps. Exploring the roles played by designers, both amateur and professional, in accommodating changing requirements and anticipating future ones, whether Covid or beyond, this book is a must-read for students and researchers in interior design, architecture, architectural and design history, and anyone interested in the home and the relationships between health and design. **Death's Whisper**

Ryan Sturrock, 2020-09-04. The dying bird brings the plague; the plague brings the dust; and the dust brings death. Plagued by dusk, dust by dawn. The world will crumble; the dead will rise; and everyone will sing. 1645. The plague has swept across the planet, claiming the lives of millions of people. In Edinburgh, doctor Ian Campbell hides a swarm of plague victims in his underground plague hospital, locking them away from society. Present Day. A new aggressive and highly infectious strain of the ancient plague emerges, threatening to wipe the human race from the face of the planet. Hidden beneath the streets of Edinburgh, a primitive race of people have been patiently biding their time, dreaming of the day they will roam the streets once more.

Dutiful Love Elizabeth L. Hinson-Hasty, 2021-08-17. Elizabeth L. Hinson Hasty pursues places where care for people with serious mental illness and their families is unraveled in the United States. She picks up threads of empowerment from the Christian tradition to address the distinctive circumstances of individuals and families affected by mental illness and draws upon her own experiences as the sibling of someone with serious mental illness (SMI). As a scholar of theology and Christian ethics, the author challenges the traditional theological explanations of disability and madness and the public policies that try to fit people with SMI into boxes and checklists made for those with minds and bodies society values as ideal. *Dutiful Love* explores the distinctive relationship between self-sacrificial love and caregiving when that duty to care extends

over the course of an entire lifetime because of social limitations placed upon people with mental illness Hinson Hasty investigates how the Christian theological tradition shapes our Western understanding of normal and abnormal minds and bodies This approach to mental and physical impairment associates healing with curing but neglects the empowerment thread that is part of the gospel narrative The author encourages caregivers whether professionals friends or families to think about the concept of self giving as an alternative to self sacrifice In the context of families impacted by mental illness or degenerative disease healing is more synonymous with presence Intentional presence involves self giving listening contemplation prophetic truth telling and walking with another so that isolation stigma and shame no longer define the social realities of people with mental illness their siblings or their larger families The book includes discussion questions making it an ideal resource for individual reflection church study groups and college seminary and university classrooms

Human Extinction and the Pandemic Imaginary Christos Lynteris, 2019-09-19 This book develops an examination and critique of human extinction as a result of the next pandemic and turns attention towards the role of pandemic catastrophe in the renegotiation of what it means to be human Nested in debates in anthropology philosophy social theory and global health the book argues that fear of and fascination with the next pandemic stem not so much from an anticipation of a biological extinction of the human species as from an expectation of the loss of mastery over human non human relations Christos Lynteris employs the notion of the pandemic imaginary in order to understand the way in which pandemic borne human extinction refashions our understanding of humanity and its place in the world The book challenges us to think how cosmological aesthetic ontological and political aspects of pandemic catastrophe are intertwined The chapters examine the vital entanglement of epidemiological studies popular culture modes of scientific visualisation and pandemic preparedness campaigns This volume will be relevant for scholars and advanced students of anthropology as well as global health and for many others interested in catastrophe the end of the world and the post apocalyptic
