## **The Irish Labour Party In Transition 1957 81:**

**The Irish Labour Party in Transition, 1957-82** Michael Gallagher, 1982 Ireland, 1912-1985 Joseph Lee, 1989 About the history of Ireland from 1912 to 1985 focusing on political social and revolutionary events Party Policy and Government Coalitions Ian Budge, M.J. Laver, 2016-07-27 Coalitions are the commonest kind of democratic government occurring frequently in most countries of western Europe It is usually assumed that political parties came together in a government coalition because they agree already or can reach an agreement on the policy it should pursue This book examines this idea using evidence from party election programmes and government programmes It demonstrates that party policies do influence government programmes but not to the extent they would if policy agreement were the sole basis of coalition *Politics and the Irish Working Class, 1830-1945* Donal Ó Drisceoil, F. Lane, 2005-09-30 This book is the first ever collection of scholarly essays on the history of the Irish working class It provides a comprehensive introduction to the involvement of Irish workers in political life and movements between 1830 and 1945 Fourteen leading Irish and international historians and political scientists trace the politicization of Irish workers during a period of considerable social and political turmoil The contributions include both surveys covering the entire period and case studies that provide new perspectives on crucial historical movements and moments This volume is a milestone in Irish labour and political historiography and an important contribution to the international literature on politics and the working class **Multiparty Government** Michael Laver, Norman Schofield, 1998 The seminal text for understanding European coalition politics The Development of the Irish Labour Party's European Policy Michael Holmes, 2006 This book explores the complex relationship between Ireland and the European Union as the country moves from being outside the EU to one of its strongest supporters to surprisingly rejecting the Treaty of Nice It examines the links between social democracy and European integration as the Labour Party's transition mirrors the path taken by many other European social democratic parties *Labour History Review*, 1982

**Irish Books in Print & Leabhair Gaeilge i GCló**, 1984 *Sixties Ireland* Mary E. Daly, 2016-03-24 A radical new perspective revealing the truth behind the making of modern Ireland from economic rebirth to entering the EEC **Ireland at the Polls, 1981, 1982, and 1987** Howard Rae Penniman, Brian Farrell, 1987 Ireland at the Polls 1981 1982 and 1987 A Study of four General Elections is another in the series of national election studies prepared by the American Enterprise Institute for Public Policy Research AEI Books in the series include volumes on some thirty national democratic elections around the world Distinguished foreign and American scholars have contributed to the studies *Political Parties and Electoral Change* Peter Mair, Wolfgang C Müller, Fritz Plasser, 2004-06-09 This book provides a comparative overview and account of how the parties in Western Europe have perceived contemporary challenges of electoral dealignment and how they have responded whether organizationally programmatically or institutionally **Making the Difference?** Paul Rouse, Paul Daly, Ronan O'Brien, 2012-04-30 In 2011 on the cusp of its centenary year the Labour Party recorded its greatest

ever electoral success with 37 TDs elected and a President In doing so the party has succeeded temporarily at least in breaking free from the old two and a half party system But why for its first century did Labour struggle to match its ambition This series of essays to mark the party s centenary assesses the challenges facing Labour in a deeply conservative country where echoes of civil war and Catholic Church hegemony have dominated the political landscape Leading writers from the fields of journalism history and social reform examine the failings splits and contradictions of Ireland s oldest political party alongside the social and economic achievements to which the Labour Party lays claim Contributors Ivana Bacik Michael Laffan Ronan O'Brien Stephen Collins David McCullagh Eunan O Halpin Paul Daly Ciara Meehan Niamh Puirseil Diarmaid Ferriter William Mulligan Kevin Rafter Eamon Gilmore William Murphy Jane Suiter All royalties to Barnardos

Independents in Irish party democracy Liam Weeks, 2017-05-15 This book examines the phenomenon of the independent politician believed to be extinct in most political systems It is very much alive and well in Ireland and has experienced a considerable resurgence in recent years Independents won a record number of seats in 2016 and had three ministers appointed to cabinet This presence is very unusual from a comparative perspective and there are more independents in the Irish parliament than the combined total in all other industrial democracies The aim of this book is to explain this anomaly how and why independents can endure in a democracy that is one of the oldest surviving in Europe and has historically had one of the most stable party systems **Parties and Party Systems in Liberal Democracies** Steven B

Wolinetz, 2023-07-14 First published in 1988 Parties and Party Systems in Liberal Democracies considers the extent and ways in which Western European and North American parties and party systems changed in the 1970s and 1980s after decades of relative stability It examines changes in the nature and organisation of parties and relates this to changes in electoral behaviour and to wider social and economic change It concentrates on political parties as actors and the ways in which they maintain themselves and respond to the moves and gambits of both established and newer parties and to the increasingly numerous and vociferous single interest pressure groups One important argument put forward is that many social and economic changes have had a minimal impact because established parties have been able to adapt by redefining issues in their favour and have also been able to rely on residual support and access to patronage This engaging volume will have strong appeal for courses in political science government political behaviour and history **The Act of Voting** Johan A.

Elkink, David M. Farrell, 2015-10-14 Electoral behaviour is one of the most dynamic areas of study in the field of comparative politics today A strongly emerging theme in recent years has been the need to set the study of voting behaviour in its wider context that is to understand how the behaviour of the individual non voter is conditioned by the environment in which the election is occurring The main motivation for this book is to respond to this need The Act of Voting examines voting both the question of whether to vote ie electoral turnout and who to vote for in context from a range of interdisciplinary perspectives In addition to other topics and themes chapters explore the national or social identities of individuals and how these

contribute to complex social dynamics discuss the institutions that determine who is able to vote and over what and analyse the impact of the locale on the voting act Offering chapters by up and coming scholars in the field of electoral behaviour as well as reflections on how the act of voting should be viewed in the broadest context normatively institutionally and socially this book will be of interest to students and scholars researching political behaviour public opinion and politics more generally

Northern Ireland and the Politics of Reconciliation Dermot Keogh, Michael H. Haltzel, 1993 This collection adds to the extensive literature on Northern Ireland and Ireland by bringing together the leading academic and political figures working in the field and offering a comprehensive multidisciplinary overview of the historical process The topics discussed include the remote and proximate causes of the conflict fresh developments within the two states on the island the role of the Roman Catholic Church the rise of the ecumenical movement and the impact of the 1985 Anglo Irish Agreement on the triangular relationship between Dublin Belfast and London The volume concludes with an evaluation of likely impact of membership of the European Community on the conflict in Northern Ireland The contributors to this book do not offer any easy solutions but provide a context in which the problem may be better understood by the international scholarly community and by the interested general reader

**The Bookseller**, 1982

A Labour History of Ireland, 1824-1960 Emmet O'Connor, 1992 This overview of Irish labour history serves both as an introduction for the general reader and as a synopsis for the specialist Its basic concern is to outline the course of labour history to illustrate the different phases of its chronology and to determine the forces behind its development It also investigates some of the most persistent questions surrounding the history of labour in Ireland including why labour marginalized in disaffected 19th century Ireland and why nationalism presented such a problem in the 20th century

*Books Ireland*, 1981

*The Logic of Pre-electoral Coalition Formation* Sona Nadenichek Golder, 2006 Why do some parties coordinate their electoral strategies as part of a pre electoral coalition while others choose to compete independently at election time Scholars have long ignored pre electoral coalitions in favor of focusing on the government coalitions that form after parliamentary elections Yet electoral coalitions are common they affect electoral outcomes and they have important implications for democratic policy making itself The Logic of Pre Electoral Coalition Formation by Sona Nadenichek Golder includes a combination of methodological approaches game theoretic statistical and historical to explain why pre electoral coalitions form in some instances but not in others The results indicate that pre electoral coalitions are more likely to form between ideologically compatible parties They are also more likely to form when the expected coalition size is large but not too large and when the potential coalition partners are similar in size Ideologically polarized party systems and disproportional electoral rules in combination also increase the likelihood of electoral coalition formation Golder links the analysis of pre electoral coalition formation to the larger government coalition literature by showing that pre electoral agreements increase a the likelihood that a party will enter government b the ideological compatibility of governments and c the speed with which governments take office In addition pre electoral

coalitions provide an opportunity for combining the best elements of the majoritarian vision of democracy with the best elements of the proportional vision of democracy
