## **The Irish Round Tower:**

**The Irish Round Tower** Brian Lalor, 1999 The remains of over 70 Christian early medieval Round Towers survive in Ireland with the bulk of them located north of the Dingle Peninsula and south of Lough Neagh Many of those that remain are in association with surviving monastic settlements and are sited in some of the most beautiful and historic areas of the country *Ireland's Round Towers* Tadhg O'Keeffe, 2004 The round tower is Ireland's most distinctive medieval monument This book explores the towers' qualities as works of architecture as well as examining their relationships with other buildings at the sites on which they stand The author suggests how the towers were employed in ceremonies and other ritualised activities of the Viking Age church in Ireland They prove to be crucial evidence in a new history of Irish Christianity between the Viking raids and the late 12th century invasion **Ireland's Round Towers** Brian Lalor, 2016 A guide to Ireland's unique form of architecture the round tower Fully illustrated this book examines the architectural design setting and function of these towers **Irish Round Towers** Roger Stalley, 2000 From Glendalough in Wicklow to Kilmacduagh in Galway and from Tory Island off the Donegal coast to Ardmore in Waterford so called round towers punctuate the Irish landscape in a memorable and often dramatic way We know of the existence of over eighty examples though it is likely that there were once many more perhaps over a hundred in the country as a whole While some have been restored many survive as ruins and a few are only known from historical sources Most scholars believe that the Irish round tower must have been based on prototypes abroad and there are depictions of round towers in ivories and manuscript illuminations both European and Byzantine from the sixth century onwards But a century or more ago the purpose of the towers was the focus of much speculation and eccentric theorising For some they were fire temples designed for sun worship others saw them as primitive astronomical observatories In *Irish Round Towers* Professor Roger Stalley looks into this and the other questions that surround these unique monuments to a lost time Establishing the historical context of the towers he asks when were the towers built who built them and how were they built **The Round Towers of Ireland** William James Doherty, 1881 **An Essay on the Druids, the Ancient Churches, and the Round Towers of Ireland** Richard Smiddy, 1873 **The Round Tower at Roscrea and Its Environs** George Cunningham, 2014 *An Essay on the Druids, the ancient Churches and the Round Towers of Ireland, etc* Richard SMIDDY, 1871 *The Round Towers of Ireland, Or, The History of the Tuath-De-Danaans* Henry O'Brien, 1898 *The Aryan Origin of the Gaelic Race and Language the Round Towers, the Brehon Law, Truth of the Pentateuch* by Very Rev.
