The Iron Age Cultic Structure Tell Taannek 1963-1968 IV/2:

Tell Taannek 1963-1968, IV/2 Frank S. Frick, 2000 , A Wayside Shrine in Northern Moab: Excavations in the Wadi ath-Thamad P. M. Michele Daviau, Margreet L. Steiner, 2017-08-31 Major recent excavations have shed much light on the complexity of Iron Age society and religion in southern Palestine a region where both Judeans and Edomites lived However it is not clear whether the religious practices attested at these sites were a reflection of localised customs or were common rituals for peoples of Cisjordan and we do not know their extent An isolated shrine site at Wadi ath Thamad Site WT 13 in northern Moab which contained numerous finds of Iron Age figurines and statues has been the subject of detailed excavation The rich harvest of figurines ceramic statues beads miniature ceramic vessels architectural models faunal remains and shells and fossils constitutes the evidence for repeated cultic activities Although dating to the Iron Age at the time of the consolidation of the kingdom of Moab there is insufficient evidence at present to determine the full range of cultic practices and deities venerated by the peoples of the lands within ancient Moab and by those visitors to the shrine The links between WT 13 and the surrounding town sites is only now coming to light with excavation at Atarus and Khirbat al Mudayna as well as at the Ammonite site of Tall Damiyah in the Jordan Valley where a comparable shrine has recently been uncovered WT 13 clearly serves as a link between the Jordan Valley and the Negev adding to our knowledge of local and foreign influences in the region during the Iron Age

Household Archaeology in Ancient Israel and Beyond Assaf Yasur-Landau, Jennie R. Ebeling, Laura B. Mazow, 2013-02-06 Despite the large number of well preserved domestic contexts in Bronze and Iron Age sites household archaeology has not been a common approach to studying the material culture of Ancient Israel Until recently the dictates of Biblical Archaeology led to a narrow set of questions that ignored issues such as gender status and production within the household The present volume which grew out of a session at the 2008 Annual Meeting of the American Schools of Oriental Research attempts to redress this issue The seventeen papers herein reflect innovative viewpoints on the theory and praxis of household archaeology in this region The next step in household research is presented here with the use of tailor made data collection strategies designed to answer specific questions posed by household archaeology The neglect of households and the archaeology of the activities of its members are ambitiously attended to in this volume Its exceptional breadth of various modes of inquiry coupled with the application thereof justifies the household as a topic of discussion I would highly recommend this book for institutions libraries scholars and students interested in any aspect of daily life in the southern Levant and I very much look forward to the future research projects it will inspire Cynthia Shafer Elliot William Jessup University as a whole the work is impressive and most contributions are commendable for their sophistication in engaging interdisciplinary research in order to understand the nature and function of households in ancient Israel and surrounding areas Carol Meyers Duke University

Tell Taannek 1963-1968 Khaled Nashif, 2000 From Conquest to Coexistence K. Van Bekkum, 2011-01-11 This meticulous study of Joshua 9 1 13 7 and archaeology offers a new

historical picture of the Late Bronze Iron Age transition in the Southern Levant and defines the ideology and antiquarian intent of the Israelite historiographers reworking this episode

Phoenician Aniconism in Its Mediterranean and Ancient Near Eastern Contexts Brian R. Doak, 2015-11-05 A close look at Phoenician religion The Hebrew Bible contains a prohibition against divine images Exod 20 2 5a Explanations for this command are legion usually focusing on the unique status of Israel's deity within the context of the broader Near Eastern and Mediterranean worlds Doak explores whether or not Israel was truly alone in its severe stance against idols This book focuses on one particular aspect of this iconographic context in Israel's Iron Age world that of the Phoenicians The question of whether Phoenicians employed aniconic as opposed to iconic representational techniques has significance not only for the many poorly understood aspects of Phoenician religion generally but also for the question of whether aniconism can be considered a broader trend among the Semitic populations of the ancient Near East Features More than fifty images and illustrations Examination of textual and archaeological evidence Application of art historical methods

Late Bronze and Iron Age Chalices in Canaan and Ancient Israel Robert Grutz, 2007 This study arranges in chronological order approximately 450 ceramic artefacts known as chalices found in more than 50 excavations in Late Bronze and Iron Age strata within Canaan and Ancient Israel The study also proposes a typology for these chalices

Judges 1 Mark S. Smith, Elizabeth Bloch-Smith, 2021 This groundbreaking volume presents a new translation of the text and detailed interpretation of almost every word or phrase in the book of Judges drawing from archaeology and iconography textual versions biblical parallels and extrabiblical texts many never noted before Archaeology also serves to show how a story of the Iron II period employed visible ruins to narrate supposedly early events from the so called period of the Judges The synchronic analysis for each unit sketches its characters and main themes as well as other literary dynamics The diachronic redactional analysis shows the shifting settings of units as well as their development commonly due to their inner textual reception and reinterpretation The result is a remarkably fresh historical critical treatment of 1 1 10 5

Gass, 2005 Alttestamentliche Texte werden meist ohne Rücksicht auf die topographischen Gegebenheiten ausgelegt Fragen nach der Lokalisierung biblischer Orte werden derzeit kaum von Bibelwissenschaftlern und Archäologen gestellt Vielmehr beschränkt man sich auf die Beschreibung des textlichen oder archäologischen Befundes ohne beide Bereiche in einen fruchtbaren Dialog zu bringen Die Studie von Erasmus Gass behandelt alle Ortsnamen die im Richterbuch vorkommen und versteht sich damit als Nachschlagewerk zu weit über 100 biblischen Ortsnamen Zunächst wird die etymologische Ableitung des betreffenden Toponyms erörtert Danach werden biblische sowie ausserbiblische Belege aufgeführt und Folgerungen für die topographische Verortung gezogen Anschliessend werden verschiedene Identifizierungsvorschläge hinsichtlich ihres

archaologischen Befundes besprochen Die erzielten Ergebnisse werden in einem zweiten Schritt synchron und dia chron ausgewertet Im synchronen Arbeitsschritt geht es um das topographische Verstandnis des Endredaktors das freilich auch Verhältnisse einer späteren Zeit widerspiegeln kann Im diachronen Arbeitsschritt wird nach kleinsten Einheiten gesucht die ursprüngliche Verhältnisse bewahrt haben konnten **Internationale Bibliographie der Rezensionen**
