The Jacobite Relics Of Scotland Second Series:

The Jacobite Relics of Scotland Murray Pittock, 2003 James Hogg's Jacobite Relics originally commissioned by the Highland Society of London in 1817 is an important addition to The Collected Works of James Hogg. It created a canon for the Jacobite song which had an enormous influence on subsequent collections and was of great importance in defining the relationship between the Scottish song tradition and its Romantic editors and collectors. From the first publication of the Relics in 1819 there has been speculation about how many of them were authored or at least substantially altered by Hogg. Professor Murray Pittock has conducted extensive research in this area since 1987 and has identified several previously unknown sources from which Hogg would have worked as he developed his collection. The introduction to volume two deals with the genesis of the text and Hogg's relationship with the Highland Society and there is also considerable annotation to accurately communicate the context of the songs and Hogg's relationship to the textuality of Jacobite culture. **The**

Jacobite Relics of Scotland: Second series, 2002 *The Collected Works of James Hogg: The Jacobite relics of Scotland second series* James Hogg, 1995 Hogg left a written record of three of his many journeys to the Highlands: those of 1802, 1803 and 1804. In *Highland Journeys* he offers a thoughtful and deeply felt response to the Highland Clearances. He gives vivid pictures of his experiences, including a narrow escape from a Navy press gang and a Sacrament day with one minister preaching in English and another in Gaelic. Hogg also explains aspects of Gaelic culture such as the waulking songs and he describes the trade in kelp, lucrative to the landowners but back-breaking and ill-paid for the workers. *Highland Journeys* makes a refreshing contribution to our understanding of early nineteenth-century travel writing.
