Davidson, 2003-05-20 Winner of the the Deutscher Memorial Prize 2003 This book is a reassessment of Scottish politics and society in the late seventeenth and early eighteenth century Neil Davidson argues that Scotland experienced a revolution during this period that has rarely been recognised in the existing historiography Davidson explores the political and economic changes of these years revealing how social and economic power was transferred from one class to another He describes how Scotland was transformed from a backward and feudal economy to a new centre of emergent capitalism He traces the economic and social crisis that led to Scotland s incorporation into the Union in 1707 but argues that the Union did not lead to the transformation of Scottish society The decisive period was instead the aftermath of the last Jacobite revolt in 1746 whose failure was integral to the survival and consolidation of British and ultimately global capitalism **Familia**

History of Photography in Canada, Volume 1 Martha Langford, 2025-09-22 From early reports of the invention to its wide application during World War I the idea of photography created anticipation and participation in the modern world The first volume of A History of Photography in Canada captures this phenomenon by looking at hundreds of photographs generated in and about Canada in the making and by listening to the chords they struck in the collective imagination Emphasizing technological readiness and cultural eagerness for the medium Martha Langford shows how photography served ideals of progress and improvement as Canada s settler society looked to master the world by seizing its visible traces The imposition

of these programs on Indigenous Peoples and indentured labourers is confronted throughout this volume which offers both narratives and counternarratives of subjectification Reproducing images of people places events and objects from the unceded territories of the First Nations Inuit and Métis from British North America and from the Dominion of Canada and the Dominion of Newfoundland Langford asks where and when photographs were taken why and by whom How did the making and preservation of a photograph alter the circumstances in which it was produced and how did this affect individual and collective consciousness Alongside accomplished portraits landscapes still lifes and their vernacular counterparts the book draws glimmers of photographic experience from treatises and doggerel official reports and personal diaries newspapers magazines letters and travelogues Anticipation to Participation chronicles eight decades of reinvention and repurposing from a wondrous discovery to the wide adoption of a basic tool for knowledge gathering artmaking and journaling Langford's sweeping narrative rewrites the history of photography from the bottom up vividly expanding the definition of photographic experience

1820: Scottish Rebellion Gerard Carruthers,Kevin Thomas Gallagher,Craig Lamont,George Smith,2022-11-03 The 1820 Scottish Rising has been increasingly studied in recent decades This collection of essays looks especially at local players on the ground across multiple regional centres in the west of Scotland as well as the wider political circumstances within government and civil society that provide the rising s context It examines insurrectionist preparation by radicals the progress of the events of 1820 contemporary accounts and legacy memorialisation of 1820 including newspaper and literary testimony and the monumental afterlife of the rising As well as the famous march of radicals led by John Baird and Andrew Hardie so often seen as the centre of the 1820 moment this volume casts light on other more neglected insurrectionary activity within the rising and a wide set of cultural circumstances that make 1820 more complex than many would like to believe 1820 Scottish Rebellion demonstrates that the legacy of 1820 may be approached in numerous ways that cross disciplinary boundaries and cause us to question conventional historical interpretations

Building a Multiethnic Military in Post-Yugoslav Bosnia and Herzegovina Elliot Short,2022-02-24 On 1 January 2006 soldiers from across Bosnia and Herzegovina gathered to mark the official formation of a unified army and yet little over a decade before these men had been each other s adversaries during the vicious conflict which left the Balkan state divided and impoverished Building a Multi Ethnic Military in Post Yugoslav Bosnia and Herzegovina offers the first analysis of the armed forces during times of peace building in Bosnia and Herzegovina This sophisticated study assesses Yugoslav efforts to build a multi ethnic military during the socialist period charts the developments of the armies that fought

in the war and offers a detailed account of the post war international initiatives that led to the creation of the Armed Forces of Bosnia and Herzegovina. At this point the military became the largest multi ethnic institution in the country and was regarded as a model for the rest of Bosnian society to follow. As such as Elliot Short adroitly contends this multi ethnic army became the most significant act in stabilising the country since the end of the Bosnian War. Drawing upon a wealth of primary sources including interviews with leading diplomats and archival documents made available in English for the first time this book explores the social and political role of the Bosnian military and in doing so provides fresh insight into the Yugoslav Wars, statehood and national identity and peace building in modern European history. *The Routledge International Handbook of Criminal Responsibility* Thomas Crofts, Louise Kennefick, Arlie Loughnan, 2024-12-23. Presenting cutting edge research and scholarship this extensive volume covers everything from abstract theorising about the meanings of responsibility and how we blame to analysing criminal law and justice responses and factors that impact individual responsibility. Inviting exchanges across a burgeoning critical scholarship on criminal responsibility this Handbook showcases the diverse range of methodologies applied to the field including socio political approaches, critical historical methods, criminological and sociological perspectives and interdisciplinary studies bridging law and the mind sciences. Spanning global networks of established and emerging scholars of responsibility for crime this book explores how we relate to one another as human beings under the spotlight of the criminal law. In doing so it is hoped that the collection not only does justice to the vibrant landscape of criminal responsibility studies but inspires new directions and future synergies in this compelling field. *The Routledge International Handbook of Criminal Responsibility* will appeal to scholars and students of criminal law, criminal justice, criminology, sociology, psychology, neuroscience, philosophy and socio legal studies as well as practitioners and policymakers working in related fields. *Redefining Irishness in a Coastal Maine City, 1770-1870* Kay Retzlaff, 2021-11-18. *Redefining Irishness in a Coastal Maine City 1770-1870* Bridget s Belfast examines how Irish immigrants shaped and reshaped their identity in a rural New England community. Forty percent of Irish immigrants to the United States settled in rural areas. Achieving success beyond large urban centers required distinctive ways of performing Irishness. Class status and gender were more significant than ethnicity. Close reading of diaries, newspapers, local histories and public papers allows for nuanced understanding of immigrant lives amid stereotype and the nineteenth century evolution of a Scotch Irish identity. **The Pedagogy of Protest** Brendan Walsh, 2007. This book provides the first complete account of Patrick Pearse s educational work at St Enda s and St Ita s schools Dublin. Extensive use of first hand accounts reveals Pearse as a humane, energetic teacher and a forward looking and innovative educational thinker. Between 1903 and 1916 Pearse developed a new concept of schooling as an agency of radical pedagogical and social reform, later echoed by school founders such as Bertrand Russell. This placed him firmly within the tradition of radical educational thought as articulated by Paulo Freire and Henry Giroux. The book examines the tension between Pearse s work and his increasingly public profile as an advocate of physical

force separatism and by employing previously unknown accounts questions the perception that he influenced his students to become active supporters of militant separatism The book describes the later history of St Enda s revealing the ambivalence of post independence administrations and shows how Pearse s work which has long been neglected by historians has had a direct influence on a later generation of school founders up to the present **Writing Indian Nations** Maureen Konkle,2005-11-16 In the early years of the republic the United States government negotiated with Indian nations because it could not afford protracted wars politically militarily or economically Maureen Konkle argues that by depending on treaties which rest on the equal standing of all signatories Europeans in North America institutionalized a paradox the very documents through which they sought to dispossess Native peoples in fact conceded Native autonomy As the United States used coerced treaties to remove Native peoples from their lands a group of Cherokee Pequot Ojibwe Tuscarora and Seneca writers spoke out With history polemic and personal narrative these writers countered widespread misrepresentations about Native peoples supposedly primitive nature their inherent inability to form governments and their impending disappearance Furthermore they contended that arguments about racial difference merely justified oppression and dispossession deriding these arguments as willful attempts to evade the true meanings and implications of the treaties the writers insisted on recognition of Native peoples political autonomy and human equality Konkle demonstrates that these struggles over the meaning of U S Native treaties in the early nineteenth century led to the emergence of the first substantial body of Native writing in English and as she shows the effects of the struggle over the political status of Native peoples remain embedded in contemporary scholarship *Emigrant Players* Paul Darby,David Hassan,2013-10-18 Ireland and its inhabitants have often been described as being sports mad As a relatively small geographical entity Ireland north and south has produced a disproportionately high number of world class sports men and women who have excelled at the highest levels of their chosen sport The significance of sport in Ireland though extends far beyond the achievements of such individuals Sport has historically assumed a centrality in the lives of the island s inhabitants a fact that can be measured by the numbers and commitment of participants as well as the emotional and financial investment of fans This book seeks to address the ways in which Irish aptitude and ebullience for sport has manifested itself in those parts of the world that have or have had relatively large Irish communities The first part of the book explores the diffusion of Gaelic games to a number of centres of Irish immigration and examines the social economic political and psychological impact that these games had in helping the Diaspora adjust to life in what were often inhospitable environs The second part of the book extends the analysis by examining the contribution of Irish sports men and women to the sports culture that they encountered in their new homes and assessing the ways in which their involvement in these sports allowed them to come to terms with and make their way in their new locales This book was previously published as a special issue of the journal *Sport in Society* *Before the Raj* James Mulholland,2021-04-27 Anglo India s regional literature was both a practical and imaginative response to a pivotal

period in the early colonialism of South Asia Awarded as Honorable Mention of the Louis Gottschalk Prize by the American Society for Eighteenth Century Studies ASECS Shortlisted for the Kenshur Prize by the Center for Eighteenth Century Studies Indiana University John Ben Snow Prize by the North American Conference on British Studies Marilyn Gaull Book Award by the Wordsworth Coleridge Association During the later decades of the eighteenth century a rapid influx of English speaking Europeans arrived in India with an interest in expanding the creation and distribution of anglophone literature At the same time a series of military political and economic successes for the British in Asia created the first global crisis to shepherd in an international system of national ideologies In this study of colonial literary production James Mulholland proposes that the East India Company was a central actor in the institutionalization of anglophone literary culture in India The EIC drew its employees from around the British Isles bringing together people with a wide variety of ethnic and national origins Its cultural infrastructure expanded from presses and newspapers to poetry collections letters paper making and selling circulating libraries and amateur theaters Recovering this rich archive of documents and activities Mulholland shows how regional reading and writing reflected the knotty geopolitical situation and the comingling of Anglo and Indian cultures at a moment when the subcontinent's colonial future was not yet clear He shows why Anglo Indian literary publics cohered during this period reexamining the relationship between writing in English and imperial power in a way that moves beyond the easy correspondence of literature as an instrument of empire Tracing regional and translocal links among Madras Calcutta Bombay and settlements surrounding the Bay of Bengal Before the Raj recovers a network of authors reading publics and corporate agents to demonstrate that anglophone literature adapted itself to geographical politics and social circumstances rather than being simply imitative of the works produced in the English metropole Mulholland introduces readers to figures like the Calcutta born Eyles Irwin the first man to sustain a literary career from India We also meet James Romney an army officer who wrote poems and plays including a stage adaptation of Tristram Shandy Alongside these men were anonymous female poets hailed as the harbingers of an anglo asiatic taste and captive adolescent Europeans who caught up in the conflict with southern India's last independent ruler Tipu Sultan were forcibly converted to Islam castrated and made to cross dress as dancing boys for Tipu's entertainment Revealing the vibrant literary culture that existed long before the characters of Rudyard Kipling's best known works Before the Raj reveals how these writers operated within a web of colonial cities and trading outposts that borrowed from one another and produced vital interlinked aesthetics
