Breastfeeding and the Pursuit of Happiness Phyllis L.F. Rippey,2021-10-15 Breastfeeding is a human bodily function that differs in practice across cultural and historical boundaries yet is framed as natural and morally virtuous Breastfeeding and the Pursuit of Happiness rejects the dichotomy of right versus wrong exploring the historical political and symbolic roots of this sacrosanct belief in breast is best from allusions to biblical milk and honey to contemporary claims of parenting and wellness experts Within disparate contexts such as medieval Europe eighteenth century France contemporary Indonesia and the mommy blogosphere Phyllis Rippey finds that infant feeding prescriptions often serve the interests of the powerful rather than meeting the needs of women infants and families Upending some of our most cherished beliefs about the maternal breast Rippey reveals the ways historical and contemporary debates over breast versus bottle feeding distract from the underlying issues of poverty environmental destruction and violence against women Rippey balances science based and historical analysis with the stories of lesbian mothers and trans fathers Black and White breastfeeding advocates and Indonesian mothers among other mothers who express feelings of empowerment pleasure pain and moral failure At turns witty heartbreaking and intellectually compelling Breastfeeding and the Pursuit of Happiness draws on Hannah Arendt Black feminist thought affect theory the ethics of care and theories of political humility to offer a new framework for valuing and affirming the human power of giving and receiving care including through the breast **On the Breast Handbook.**

My God Is Bigger Than the Lump in My Breast Brenda J. Bartelme, 2019-08-02 This journey was a continual walk of faith I had believed in God Jesus and the Holy Spirit even as a child I had always prayed to God asking to know him in a greater measure However trust in man had always been an issue for me after years of being hurt Because of that distrust and insecurity my heart had become hardened I thought I did not need anyone except God My own life seemed to always be inferior and my last priority when compared to others When I

first discovered the lump it was small However a few months later it was massive It was then I knew I could not fight this battle alone During this journey I would fight many battles with an enemy who was fighting to destroy me There was a war within myself trying to figure things out and spiritually what I believed the Bible said I found out I was not alone For when the enemy sought to destroy me God had a better plan

The breast-plate of faith and love. [2 pt. The title-page of the 'Treatise of effectuall faith' is dated 1637]. John Preston,1651 What Remains: Breast Cancer, Mastectomy and Getting on with Life Beth R. Minear,2015-06-20 During the Derecho weather event of June 2012 I was blind sided with the diagnosis of breast cancer I had faithfully gotten mammograms every year and had no family history on either side so the shock of the diagnosis shook my equilibrium As an attorney by profession and Type A from birth controlling what little I could control and at least managing what I couldnt control got me through I am also the mother of a child with special needs My son has Aspergers and although brilliant will always need me to help him navigate the neuro typical world I must outlive him My choices reflect that acute realization Although only diagnosed in the right breast and with options other than mastectomy for that one I elected for a double mastectomy When my hair started falling out from chemotherapy I went to the salon and had it all shaved off When I found out that my cancer was estrogen fed I had an elective oophorectomy Removing my ovaries both helps prevent recurrence and ensures that I wont get ovarian cancer What remains after a life changing diagnosis and the grueling path to Survival is a new normal that can be both heart breaking on a daily basis and sweeter than the life you had before The book is my unvarnished truth of the ugly and the blessings of receiving such a diagnosis often indelicate in detail and irreverently funny Through this experience I learned that you can actually feel prayer Its the most profound feeling I have ever experienced Not miring the readers in gloom and doom What Remains is intended to give hope peace and courage to everyone regardless of circumstances The famous quote from Confucius rings true We have two lives and the second begins when we realize we only have one Im living my second life and finding joy and laughter in the most generic experiences Even almost three years later I wake up every morning with breast cancer as my first thought I give thanks to God for each day that no one is promised then get up and get on with my life
