The Kangchenjunga Adventure:

The Kangchenjunga Adventure Frank Smythe, 2013-11-15 We went to Kangchenjunga in response not to the dictates of science but in obedience to that indefinable urge men call adventure In 1930 an expedition set out to climb the world's third highest mountain Kangchenjunga As yet unclimbed a number of attempts had been made on the peak including two in the previous year The Kangchenjunga Adventure records Frank Smythe's attempts as part of an international team to reach the summit how a deadly avalanche which killed one of the sherpas brought an end to their climb and how they turned their attentions instead to Jonsong Peak which offered a more appealing alternative to risky assaults on the greatest peaks Smythe's books from this period give compelling reads for anyone with an interest in mountaineering riveting adventures on the highest peaks in the world keen observations of the mountain landscape and a fascinating window into early mountaineering colonial attitudes and Himalayan exploration Smythe was one of the leading mountaineers of the twentieth century an outstanding climber who in his short life he died aged forty nine was at the centre of high altitude mountaineering development in its early years He climbed extensively in the Alps gained the summit of Kamet the highest peak then climbed in 1931 and on the 1933 Everest Expedition reached a point higher than ever before achieved Author of twenty seven immensely popular books he was an early example of the climber as celebrity **The Kangchenjunga Adventure, Etc.**

(Prospectus). Francis Sydney Smythe, 1930 **The Kangchenjunga adventure** Francis Sydney Smythe, 1931 **The Great Himalayan Ascents** Frank S Smythe, 2025-03-10 Frank S Smythe 1900-1949 was one of the greatest mountaineers of the twentieth century and a celebrated memoirist and adventure writer This collection brings together three accounts of Smythe's most thrilling ascents in the Himalayas The Kangchenjunga Adventure Kamet Conquered and Camp Six The Kangchenjunga Adventure narrates in detail the 1930 expedition to climb the third highest mountain in the world how Smythe as part of an international team of mountaineers attempts to reach the summit of Kangchenjunga before a deadly avalanche which kills one of the Sherpas forces them to change course and scale the Jonsong Peak instead In Kamet Conquered Smythe makes a successful bid at ascending Mount Kamet in 1931 which was at that time still unscaled On their way back Smythe and his team chance upon the spectacular and colourful Bhyundar Valley which they christen the Valley of Flowers and which is now a National Park Camp Six recounts a gripping adventure on the world's highest mountain the 1933 Everest Expedition in which Smythe climbing alone ascends to a point higher than any human had reached before Made without ropes or oxygen to support him and in terrible snow conditions the climb is regarded as one of the greatest endeavours in the history of mountaineering This majestic omnibus edition offers a fascinating window into early mountain climbing and Himalayan exploration It is also a rare treat for every lover of fine entertaining writing My Father, Frank Tony Smythe, 2015-02-05 Biography of a seminal but often unheralded figure in high altitude climbing Written by his son Tony Frank Smythe was himself a prolific author Important addition to Mountaineer Books Legends and Lore series Frank

Smythe like Eric Shipton is associated with early Everest explorations and was a member of three expeditions to the mountain. At a time when it was ungentlemanly to make a living by climbing, Smythe wrote more than a dozen popular books based upon his travels to high places, one of them being the first ascent of Kamet 25 447 feet in 1931, which was the first time any climber had gone beyond 25 000 feet. Two years later he reached the highest point climbed on Everest 28 200 feet. He also climbed in Britain, the Alps, Canada, and Alaska. He and Graham Brown established two new routes on the Brevenna face of Mont Blanc. In short, he has serious climbing credentials. As the title hints, this is a biography by Frank's son Tony, but it isn't based solely on personal memories. Frank was away from home for long periods and died when Tony was only fourteen. Instead, this book is based on thirteen years of research: Frank's parents, meeting and marriage, Frank's early school years, his first climbs, his training for various jobs, his gradual rise to fame and fortune, his friendships, his war years, and his sudden death are all covered. Like his father, Tony has a strong understanding of how to tell a story that appeals to both climbers and general lovers of nonfiction adventures.

Fallen Giants Maurice Isserman, Stewart Angus Weaver, Dee Molenaar, 2010-01-01

In the first comprehensive history of Himalayan mountaineering in 50 years, the authors offer detailed original accounts of the most significant climbs since the 1890s and they compellingly evoke the social and cultural worlds that gave rise to those expeditions.

Mountains and Men Leonard H. Robbins, 2019-11-22

Mountains and Men, first published in 1931, provides a detailed look at some of the first ascents and attempted ascents on the world's highest peaks: Mount Everest, K2, Denali, Aconcagua, Mount Erebus, The Matterhorn, Ruwenzori, and others. Descriptions of the climbers and their routes and equipment are given, as well as the dangers facing each expedition in their attempt to be the first to scale these treacherous mountains. Included are 25 pages of maps and photographs.

Tigers of the Snow Jonathan Neale, 2002-06-29

Tigers of the Snow is the true story of the tragedy and survival on one of the world's most dangerous mountains. In 1922, Himalayan climbers were British gentlemen, and their Sherpa and Tibetan porters were coolies, unskilled and inexperienced casual laborers. By 1953, Sherpa Tenzing Norgay stood on the summit of Everest, and the coolies had become the Tigers of the Snow. Jonathan Neale's absorbing book is both a compelling history of the oft-forgotten heroes of mountaineering and a gripping account of the expedition that transformed the Sherpas into climbing legends. In 1934, a German-led team set off to climb the Himalayan peak of Nanga Parbat, the ninth highest mountain on earth. After a disastrous assault in 1895, no attempt had been made to conquer the mountain for thirty-nine years. The new Nazi government was determined to prove German physical superiority to the rest of the world. A heavily funded expedition was under pressure to deliver results. Like all climbers of the time, they did not really understand what altitude did to the human body. When a hurricane hit, the leading party, just short of the summit, the strongest German climbers headed down, and left the weaker Germans and the Sherpas to die on the ridge. What happened in the next few days of death and fear changed forever how the Sherpa climbers thought of themselves. From that point on, they knew they were the decent and responsible people of the mountain. Jonathan Neale interviewed many old

Sherpa men and women including Ang Tsering the last man off Nanga Parbat alive in 1934 Impeccably researched and superbly written *Tigers of the Snow* is the compelling narrative of a climb gone wrong set against the mountaineering history of the early twentieth century the haunting background of German politics in the 1930s and the hardship and passion of life in the Sherpa valleys **Trübner's Bibliographical Catalogues** Kegan Paul, Trench, Trubner & Co,1925 **Manlike Monsters on Trial** Marjorie M. Unjustifiable Risk? Simon Thompson, 2012-03-06 To the impartial observer Britain does not appear to have any mountains Yet the British invented the sport of mountain climbing and for two periods in history British climbers led the world in the pursuit of this beautiful and dangerous obsession Unjustifiable Risk is the story of the social economic and cultural conditions that gave rise to the sport and the achievements and motives of the scientists and poets parsons and anarchists villains and judges ascetics and drunks that have shaped its development over the past two hundred years The history of climbing inevitably reflects the wider changes that have occurred in British society including class gender nationalism and war but the sport has also contributed to changing social attitudes to nature and beauty heroism and death Over the years increasing wealth leisure and mobility have gradually transformed climbing from an activity undertaken by an eccentric and privileged minority into a sub division of the leisure and tourist industry while competition improved technology and information and increasing specialisation have helped to create climbs of unimaginable difficulty at the leading edge of the sport But while much has changed even more has remained the same Today s climbers would be instantly recognisable to their Victorian predecessors with their desire to escape from the crowded complexity of urban society and willingness to take unjustifiable risk in pursuit of beauty adventure and self fulfilment Unjustifiable Risk was shortlisted for the Boardman Tasker prize in 2011
