Sinking Atlantis Spirituality Meets The Real World:

Sinking Atlantis Julia Day, 2000-04 Nowt to do with Atlantis the diary of 6 months in the hectic life of a modern Pagan publisher housewife very funny loaded with common sense and down to earth wisdom The Cauldron Intentional or otherwise Julia gives a light hearted jab to those countless self help books that if we had time to read them might provide an answer but only when it was too late to deal with the problem the moment having passed This is a healthy common sense book rich in colour and experience that does not preach but just tells it as it is A charming book delightfully illustrated It is a book that makes one feel that the author is a friend and confidant Michael Hoadley Is it possible to save the planet reach enlightenment merge with the Higher Self write books run a publishing business feed the children water the plants and still have the washing up and dusting completed before the world order changes for ever Who needs tidal waves earthquakes food scares and genetic changes to worry about when the washing machine is playing up again the mice are in the chicken bin the bathroom is full of spiders and your guide refuses to join in the Meet Your Guide tapes which you are listening to You are told it will all flow as it should when you follow the path of your Highest Good but no one bothers to tell you what that is Or they all tell you and not only do they disagree but much of it is downright dangerous and impossible Stay calm and still and centred they say HOW The author would like to point out that almost everything in this diary is true That is what makes it unbelievable and so very funny

Atlantis and the Maya World Riddick Dawson, 2025-10-07 Across millennia the name Atlantis has echoed through human imagination a vanished civilization of divine wisdom and cataclysmic ruin But what if its memory survived not in Greek philosophy but in the sacred texts and temples of the ancient Maya In Atlantis and the Maya the reader embarks on a sweeping journey across oceans centuries and civilizations From Plato s dialogues to the Popol Vuh from the stone cities of Tikal Palenque Cop n and Chich n Itz to the flood myths of Mesoamerica this book explores one of the most enduring mysteries of all time the possibility that two great civilizations separated by an ocean shared a common cosmic memory of creation destruction and rebirth Drawing on archaeology mythology and the visionary writings of Brasseur de Bourbourg Ignatius Donnelly and modern scholarship this work examines how the legend of Atlantis became entwined with the rise of the New World s greatest civilization It traces the parallel philosophies of the Greeks and the Maya both warning of hubris imbalance and the fall of empires and asks why even in an age of satellites and seafloor maps the myth of a sunken world still resonates so deeply Blending history with symbolism Atlantis and the Maya reveals that the lost continent is not merely a place to be found beneath the sea but a mirror of humanity s own forgotten

origins It is an exploration of memory morality and the eternal cycles that shape both myth and civilization a bridge between Plato s philosopher kings and the Maya priest astronomers who watched the stars and remembered the floods of creation

Clark, 2019-07-01 Between Earth and Empire focuses on the crucial position of humanity at the present moment in Earth history We are now in the midst of the Necrocene an epoch of death and mass extinction Nearing the end of the long history of Empire and domination we are faced with the choice of either continuing the path of social and ecological disintegration or initiating a new era of social and ecological regeneration The book shows that conventional approaches to global crisis on both the right and the left have succumbed to processes of denial and disavowal either rejecting the reality of crisis entirely or substituting ineffectual but comforting gestures and images for deep systemic social transformation It is argued that a large scale social and ecological regeneration must be rooted in communities of liberation and solidarity fostering personal and group transformation so that a culture of awakening and care can emerge Between Earth and Empire explores examples of significant progress in this direction including the Zapatista movement in Chiapas the Democratic Autonomy Movement in Rojava indigenous movements in defense of the commons the solidarity economy movement and efforts to create liberated base communities and affinity

groups within anarchism and other radical social movements In the end the book presents a vision of hope for social and ecological regeneration through the rebirth of a libertarian and communitarian social imaginary and the flourishing of a free cooperative community globally
