1670-1870 Warren Swain, 2015-02-12 The foundations for modern contract law were laid between 1670 and 1870 Rather than advancing a purely chronological account this examination of the development of contract law doctrine in England during that time explores key themes in order to better understand the drivers of legal change These themes include the relationship between lawyers and merchants the role of equity the place of statute and the part played by legal literature Developments are considered in the context of the legal system of the time and through those who were involved in litigation as lawyers judges jurors or litigants It concludes that the way in which contract law developed was complex Legal change was often uneven and slow and some of the apparent changes had deep roots in the past Clashes between conservative and more reformist tendencies were not uncommon **The Greek Experience of India** Richard Stoneman, 2021-06-08 An

exploration of how the Greeks reacted to and interacted with India from the third to first centuries BCE When the Greeks and Macedonians in Alexander's army reached India in 326 BCE they entered a new and strange world They knew a few legends and travelers tales but their categories of thought were inadequate to encompass what they witnessed The plants were unrecognizable their properties unknown The customs of the people were various and puzzling While Alexander's conquest was brief ending with his death in 323 BCE the Greeks would settle in the Indian region for the next two centuries forging an era of productive interactions between the two cultures The Greek Experience of India explores the various ways that the Greeks reacted to and constructed life in India during this fruitful period From observations about botany and mythology to social customs Richard Stoneman examines the surviving evidence of those who traveled to India Most particularly he offers a full and valuable look at Megasthenes ambassador of the Seleucid king Seleucus to Chandragupta Maurya and provides a detailed discussion of Megasthenes's now fragmentary book Indica Stoneman considers the art literature and philosophy of the Indo Greek kingdom and how cultural influences crossed in both directions with the Greeks introducing their writing coinage and sculptural and architectural forms while Greek craftsmen learned to work with new materials such as ivory and stucco and to probe the ideas of Buddhists and other ascetics *Making Legal History* Anthony Musson, Chantal

John Clare Simon Kövesi,2017-08-02 This book investigates what it is that makes John Clare s poetic vision so unique and asks how we use Clare for contemporary ends It explores much of the criticism that has appeared in response to his life and work and asks hard questions about the

modes and motivations of critics and editors Clare is increasingly regarded as having been an environmentalist long before the word appeared this book investigates whether this green rush to place him as a radical proto ecologist does any disservice to his complex positions in relation to social class work agriculture poverty and women This book attempts to unlock Clare s own theorisations and practices of what we might now call an ecological consciousness and works out how his ecocentric mode might relate to that of other Romantic poets Finally this book asks how we might treat Clare as our contemporary while still being attentive to the peculiarities of his unique historical circumstances *Sir William Jones, Orientalist* Garland H.
