Sistema Político Español:

SISTEMA POLÍTICO ESPAÑOL FERNÁNDEZ-MIRANDA ALONSO Faustino ,DE BLAS GUERRERO Andrés ,SÁNCHEZ-ROCA RUIZ María ,DE ANDRÉS SANZ Jesús ,2016-07-22 Las transformaciones experimentadas por el sistema político español en las últimas décadas han sido acicate para la modernización del Estado y de la sociedad española en general. La transición democrática iniciada tras la muerte del general Franco acabó con la dictadura de este y culminó en la aprobación de una Constitución la de 1978 la cual según reza su artículo primero estableció en España un Estado social y democrático de Derecho que propugna como valores superiores de su ordenamiento jurídico la libertad la justicia la igualdad y el pluralismo político. El estudio del actual sistema político español de sus orígenes fundamentos e instituciones es requisito previo para entender el entorno político y social que nos rodea imprescindible por tanto para cualquier alumno de Ciencias Sociales.

Sistema político español Andrés de Blas Guerrero, Faustino Fernández-Miranda Alonso, Jesús de Andrés, María Sánchez-Roca Ruiz, 2014 Sistema político español Paloma Román Marugán, 2001 El objetivo de este libro es ofrecer una visión amplia y conjunta aunque desde muy distintos puntos de vista académicos de los fenómenos políticos en España. En esta edición se ofrece un nuevo diseño en el que prima la evolución de la dinámica política interna así como la incidencia que han tenido otros factores entre los que destaca sin ninguna duda la pertenencia a Europa. El libro sigue una estructura que combina una primera parte imprescindible de antecedentes históricos e inmediatos con la explicación de los elementos políticos más claramente vinculados con el quehacer social y de las instituciones. Asimismo la obra arranca con un capítulo sobre el modelo parlamentario en España que sirve como introducción general y de establecimiento del escenario. Luego cada capítulo aborda el tema prescrito a través de la combinación entre la fisonomía formal y real así como la explicación correspondiente. La inexorable conexión entre unos capítulos y otros queda patente no sólo por el sentido general de la obra sino porque además quedan expresados explícitamente dichos vínculos. **La democracia española: realidades y desafíos** Mikel Barreda, Rosa Borge Bravo, 2006 El libro comienza con la evolución histórica del sistema político español para después analizar el entramado institucional de la democracia actual: forma de gobierno sistema electoral y organización territorial. Los capítulos siguientes abordan el ámbito de los actores políticos tanto colectivos (partidos y sistemas de partidos sindicatos movimientos como individuales) ciudadanos cultura política capital social resultados electorales. Finalmente la obra concluye con un balance de la democracia en España se analizan sus fortalezas y los aspectos problemáticos. Diccionario del sistema político español José Juan González Encinar, 1984 Se ofrece un resumen del estado de la cuestión en cada uno de los temas tratados y se da noticia de los trabajos más importantes intentando poner al alcance del lector el tratamiento científico de diferentes aspectos del universo político cotidiano. Se ha querido ofrecer una visión amplia de valores conceptos instituciones fuerzas y praxis política de nuestro sistema. **Sistema Político Español e Galego** Álvaro Xosé López Mira, 2018-02-25

European Union Enlargement
 Jurgen Elvert, Wolfram Kaiser, 2004-08-02 European Union Enlargement provides a comparative analysis of the post war European policies of those states that joined the European Union between 1973 and 1995 The volume draws upon new empirical research in order to investigate the policies that these newcomer states have had towards Europe since 1945 with an emphasis on their experience of membership and its possible Europeanising effect A final comparative chapter draws the national European policies of the newcomers together and outlines what they have brought to the EU The book also tests integration theories against the available evidence demonstrating their limited explanatory value and the economic political and cultural specificity of different national paths towards EU integration

The Europeanization of Domestic Legislatures
 Sylvain Brouard, Olivier Costa, Thomas König, 2011-12-10 In ten years 80 per cent of the legislation related to economics maybe also to taxes and social affairs will be of Community origin This declaration has been largely quoted paraphrased and deformed by different authors creating a persistent myth according to which 80% of the legislative activity of the national legislatures would soon be reduced to the simple transposition of European norms This book addresses the topic of the scope and impact of Europeanization on national legislation as a part of the Europeanization debate which raises normative concerns linked to the democratic deficit debate The state of the art shows that there are many assumptions and claims on how European integration may affect national legislation and more generally domestic governance but that there is a lack of solid and comparative data to test them The aim of the book is to give a solid and comparative insight into Europeanization focusing on effective outcomes in a systematic way This book analyzes the period 1986-2008 and includes an introduction a global overview of European legislative activities which set the background for Europeanization of national legislatures 9 country contributions 8 EU member states Switzerland including systematic comparative and standardized data tables and figures and a conclusion with a comparative analysis of the European and domestic reasons for Europeanization All national contributions conclude that Europeanization of national legislation is much more limited than assumed in the literature and public debate It is limited to 10 to 30% of laws depending on the country far less than the 80% predicted by Jacques Delors and mentioned daily by medias and public opinion leaders to demonstrate EU domination on member states Beside that general statement the various chapters propose a deep insight on EU constraint over national legislation providing much information on the kind of laws and policies that are Europeanized the evolution of this process through time the impact of Europeanization on the balance of powers and the relations between majority and opposition at national level the strategies developed by national institutions in that context and many other issues making the book of interest to academics and policy makers concerned with Europeanization and national legislation
