## **Sisters And Wives The Past And Future Of Sexual Equality:**

*Sisters and Wives* Karen Brodtkin, 1979 A lively and well researched analysis of women's roles in the kinship systems of precapitalist African societies turns out to be pertinent to women's struggle for equality everywhere. For any theorist of social organization this is an important book. American Anthropologist For anthropologists historians social theorists and

**Sisters and Wives** Karen Sacks, 1982      **Companion Encyclopedia of Anthropology** Tim Ingold, 2002-09-11 Provides a comprehensive survey of contemporary thinking in biological social and cultural anthropology and establishes the interconnections between these three fields. Useful cross references within the text with full biographical references and suggestions for further reading. Carefully illustrated with line drawings and photographs. The Companion Encyclopedia of Anthropology is a welcome addition to the reference literature. Bringing together authoritative incisive and scrupulously edited contributions from some three dozen authors. The book achieves an impressive breadth of coverage of specialist areas. Times Higher Educational Supplement Recommended for all anthropology collections especially those in academic libraries. Library Journal This is a marvellous book and I am very happy to recommend it. Reference Reviews      *From Eve to Dawn: A History of Women in the World Volume II* Marilyn French, 2008-04-01 Filled with fascinating detail this second volume of French's massive and valuable work is an example of scholarship and clear vision. Publishers Weekly This volume of New York Times bestselling author Marilyn French's monumental history analyzes and evaluates the lives of women in societies around the world between feudal times and the French Revolution. Drawing upon fifteen years of collaboration with a team of researchers and prominent historians the volume opens with fascinating chapters comparing medieval Europe and Japan disparate cultures which nevertheless shared traditions of male dominated aggression and competitiveness. French then shows how in Europe this tradition led to colonialism and imperialism and the horrific subjugation of indigenous societies just as women were subjugated in the conquerors home countries. As French makes clear in this impassioned women's history only with the French Revolution did the political force women exerted powerfully change the course of history. French gives us grand theory at its best wading through copious amounts of scholarly data on the histories of civilizations and offering up in readable prose an important synthesis. Library Journal      **Emergentist Marxism** Sean Creaven, 2013-04-15 In tackling emergentist Marxism in depth this well written volume demonstrates that critical realism and materialist dialectics are indispensable to theorizing the functioning of complex social and physical systems. Author Sean Creaven investigates Marx's dialectics of being and consciousness forces and relations of production base and superstructure class structure and class conflict and demonstrates how they allow the social analyst to conceptualize geo history as embodying a tendential evolutionary directionality rather than as simply random or indeterminate in terms of its outcomes. For those interested in social and political theory Marxism and communism and contemporary social theory this outstanding volume is an important read and a valuable resource      Marriage by Capture in the Book of Judges Katherine Southwood, 2017-03-24 This

A History of African Motherhood Rhiannon Stephens, 2015-08-06 This history of African motherhood over the longue dure demonstrates that it was ideologically and practically central to social economic cultural and political life The book explores how people in the North Nyanzan societies of Uganda used an ideology of motherhood to shape their communities More than biology motherhood created essential social and political connections that cut across patrilineal and cultural linguistic divides The importance of motherhood as an ideology and a social institution meant that in chiefdoms and kingdoms queen mothers were powerful officials who legitimated the power of kings This was the case in Buganda the many kingdoms of Busoga and the polities of Bugwere By taking a long term perspective from c 700 to 1900 CE and using an interdisciplinary approach drawing on historical linguistics comparative ethnography and oral traditions and literature as well as archival sources this book shows the durability mutability and complexity of ideologies of motherhood in this region

A Millennium of Family Change Wally Secombe, 1992 How do changes in family form relate to changes in society as a whole In a work which combines theoretical rigour with historical scope Wally Secombe provides a powerful study of the changing structure of families from the Middle Ages to the beginning of the Industrial Revolution Responding to feminist critiques of sex blind historical materialism Secombe argues that family forms must be seen to be at the heart of modes of production He takes issue with the mainstream consensus in family history which argues that capitalism did not fundamentally alter the structure of the nuclear family and makes a controversial intervention in the long standing debate over European marriage patterns and their relation to industrialization Drawing on an astonishing range of studies in family history historical demography and economic history A Millennium of Family Change provides an integrated overview of the long transition from feudalism to capitalism illuminating the far reaching changes in familial relations from peasant subsistence to the making of the modern working class
