Queens of Comedy explores how comediennes have redefined the roles of women in not only the entertainment business but society as a whole. Detailing both their public and private lives as well as their many and varied performances, Queen of Comedy examines the impact these women have had on the predominantly male oriented world of comedy. Performers like Carol Burnett, Joan Rivers and their more recent counterparts, comediennes Brett Butler and Roseanne, have helped to sift women's roles in comedy from object to subject. This book maps out this shift, providing an often brutally honest picture of women's lives in both the spotlight of comedy and this modern world.

Popular television drama Jonathan Bignell, Stephen Lacey, 2017-06-01. Popular television drama: critical perspectives is a collection of essays examining landmark programmes of the last forty years from Doctor Who to The Office and from The Demon Headmaster to Queer As Folk. Contributions from prominent academics focus on the full range of popular genres from sitcoms to science fiction, gothic horror and children's drama, and challenge received wisdom by reconsidering how British television drama can be analysed. Each section is preceded by an introduction in which the editors discuss how the essays address existing problems in the field and also suggest new directions for study. The book is split into three sections addressing the enduring appeal of popular genres, the notion of quality in television drama and analysing a range of programmes past and present. Popular television drama: critical perspectives will be of interest to students and researchers in many academic disciplines that study television drama. Its breadth and focus on popular programmes will also appeal to those interested in the shows themselves.

Alternative Scriptwriting Ken Dancyger, Jeff Rush, 2013. Alternative Scriptwriting 4E is an insightful and inspiring book on screenwriting concerned with challenging you to take creative risks with genre, tone, character and structure. Concerned with exploring alternative approaches beyond the traditional three act structure, Alternative Scriptwriting first defines conventional approach, suggests alternatives, then provides case studies. These contemporary examples and case studies demonstrate what works, what doesn't and why. Because the film industry as well as the public demand greater and greater creativity, one must go beyond the traditional three act, restorative and predictable plot to test your limits and break new creative ground. Rather than teaching writing in a tired formulaic manner, this book elevates the subject and provides inspiration to reach new creative heights. Alternative Scriptwriting 4E covers The melodrama and the thriller, Adaptations from contemporary literature, Writing non-fictional narratives for the feature, documentary, An in-depth exploration of point of view and perspective as expressive of the film writer's voice, Voice oriented genres: docudrama, the fable and experimental narrative, Non-linear storytelling, the narrative strategies that are necessary to make an open architecture story work, Considerations for writing for DV that speak to the flexibility and improvisation this medium allows.
