Japp,2002-09-30 Although much scholarly and critical attention has been paid to the relationship between rhetoric and environmental issues media and environmental issues and politics and environmental issues no book has yet focused on the relationship between popular culture and environmental issues This collection of essays provides a rigorous and multifaceted rhetorical and critical perspective on the ways in which the language and imagery of nature is incorporated strategically into various popular culture texts ranging from greeting cards to advertisements to supermarket tabloids As a distinguished group of scholars reveals our notions about the environment and environmentalism are both reflected in and shaped by our popular culture in fascinating ways never previously examined in an academic context The consumptive vision of nature presented in these texts represents a wholly American view one promoting leisure and comfort and nature as the place to experience them This good life attitude toward the environment often serves to commodify it to render it little more than space in which to pursue conventional notions of the American dream As such the volume represents a bold and striking vision both of popular culture and of popular notions of an environment that can be either protected or just simply consumed

Spiritual Awareness Larry E. Maugel, 2021-11-17 Excited about life Or do the events of each day flow into an unending sea of gray Are the sunny days too few and the cloudy days ever threatening Is there a spring to your step and a twinkle of teasing in your eyes Does a smile grace your lips and hope shape your vision The search for a better life an abundant life seems to be humanity's ever constant quest *Spiritual Awareness* introduces one to the joy of discovery It is a discovery of the spiritual currents that flow within the present moments of the here and now Amidst life's ebb and flow like the rising and falling tide they are currents that form dynamic movements of spiritual realities For the skeptic it provides a vision of a reality that can be experienced beyond the crust of conventional culture For the searcher it reveals the mystery of beauty and wonder that lead to spiritual dimensions of worship For those who suffer it reveals the reality of a healing grace as spiritual insight reshapes the pain and suffering consecrates it and offers it as a humble sacrifice unto the Lord in so doing discovering God's great mercy and comfort for the soul *Spiritual Awareness* is an effort to combat the dullness and superficiality of our age It seeks to probe more deeply into the mysteries that lie within the events of the common place by becoming increasingly aware of the presence and availability of the spiritual life This awareness leads to an authentic life worth living only because it is steeped deeply in the greatest of all realities This is true awakening All profits are intended to be given to charitable causes

Müller,2016-09-01 Since the end of World War II Germans have struggled with the legacy of the Wehrmacht the unified armed forces mobilized by Adolf Hitler in 1935 to ensure the domination of the Third Reich in perpetuity Historians have vigorously debated whether the Wehrmacht s atrocities represented a break with the past or a continuation of Germany s military traditions Now available for the first time in English this meticulously researched yet accessible overview by eminent historian Rolf Dieter Müller provides the most comprehensive analysis of the organization to date illuminating its role in a complex horrific era Müller examines the Wehrmacht s leadership principles organization equipment and training as well as the front line experiences of soldiers airmen Waffen SS foreign legionnaires and volunteers He skillfully demonstrates how state directed propaganda and terror influenced the extent to which the militarized Volksgemeinschaft national community was transformed under the pressure of total mobilization Finally he evaluates the army s conduct of the war from blitzkrieg to the final surrender and charges of war crimes Brief acts of resistance such as an officers rebellion of conscience in July 1944 embody the repressed principled humanity of Germany s soldiers but ultimately Müller concludes the Wehrmacht became the steel guarantor of the criminal Nazi regime
