**Medieval English Nunneries C. 1275 to 1535** Eileen Power, 1922      **Medieval English Nunneries c. 1275 to 1535** Eileen Power, 2019-11-21 Eileen Power's *Medieval English Nunneries c. 1275 to 1535* offers a groundbreaking exploration of the socio-economic and spiritual lives of English nuns during a transformative period in medieval history. Power meticulously examines a wealth of primary sources, blending rigorous historical analysis with vivid narrative flair to illuminate the complex roles that nunneries played in their communities. Through her discerning lens, she captures the tensions between monastic life and the encroaching influences of the Reformation, situating the nuns not merely as passive agents but as active participants in contextual power dynamics, particularly in the face of an evolving England. Eileen Power, a pioneer in the field of women's history and medieval studies, draws on her extensive academic background and personal passion for uncovering women's stories often overlooked in traditional historiography. Her commitment to enriching the understanding of medieval women is evident in her relentless pursuit of archival research and her efforts to weave these narratives into the broader historical tapestry of the era. Power's scholarship often reflects her progressive views on women's agency, providing context to her focus on nunneries as vibrant social structures rather than mere religious refuges. This book is essential for historians, scholars, and readers interested in medieval studies, women's history, and religious life. Power's eloquent prose and meticulous research make her findings accessible, encouraging readers to reconsider the roles of women in history. *Medieval English Nunneries* is not just a scholarly resource; it is a compelling narrative that invites readers to engage with the past in profound and meaningful ways. **Patronage in The Middle Ages** Karl Julius Holznecht, 2019-03-07 Published in 1966, the present study attempts in its fashion to supply a connected account of this somewhat neglected phase of medieval literary life and to look carefully in earlier ages for the origins of medieval patronage. As one may suppose, a patron might be approached and the modes in which his favour might be extended were exhausted at a very early period, so that patronage of letters cannot be said to show much development or progress.      Female Studies, 1971 Vols 1-3 contain college syllabi and reading lists.      The Creation of Feminist Consciousness Gerda Lerner, 1993 In its emphasis on the force of ideas, the struggle of women for inclusion in the concept of the Divine, the repeated attempts by women to form supportive networks, and its analysis of the preconditions for
