Laura Carter

Sir Arthur Bryant And National History In Twentieth Century Britain:

Sir Arthur Bryant and National History in Twentieth-Century Britain Julia Stapleton, 2005-04-19 Sir Arthur Bryant and National History in Twentieth Century Britain is a significant new study of the work of the popular historian and journalist Sir Arthur Bryant 1899 1985 Since his death scholarly interest in Bryant has focused on his Nazi sympathies in the late 1930s Julia Stapleton broadens our understanding of the man and the writer Stapleton illuminates Bryant's romantic ideal of his nation She explores the historian's success in writing for a broad middlebrow audience aided by his firsthand experience of two world wars and she traces the decline of Bryant's authority beginning in the 1960s as the discipline of history diversified and new ties were forged between professional historians and popular readerships Stapleton suggests that Bryant prefigured and sustained a form of nationalism that remained nascent within the British population though not always its elites deep into the twentieth century as the Falklands episode and the recent resurgence of English national identity well illustrate Twenty years after his death when history has scaled new heights of popularity a study of the historian whose work made perhaps the largest public impact in twentieth century Britain could not be more timely History, Historians, and Conservatism in Britain and America Reba Soffer, 2009 Reba Soffer examines the subject's motives and origins of conservative historians who were also successful public intellectuals Providing a comprehensive account of the content context and consequences of conservative ideas Soffer explains their dominance in Britain and marginalization in America until the Reagan ascendancy **The Language of Progressive Politics in Modern Britain** Emily Robinson, 2017-02-09 This book traces the word progressive through modern British history from the Enlightenment to Brexit It explores the shifting meanings of this term and the contradictory political projects to which it has been attached It also places this political language in its cultural context asking how it relates to ideas about progressive social development progressive business and progressive rock music Progressive is often associated with a centre left political tradition but this book shows that this was only ever one use of the term and one that was heavily contested even from its inception The power of the term progressive is that it appears to anticipate the future This can be politically and culturally valuable but it is also dangerous The suggestion that there is only one way forward has led to fear and doubt anger and apathy even amongst those who would like to consider themselves progressive people **Empire and history writing in Britain c.1750-2012** Joanna de Groot, 2016-05-16 This wide ranging and accessible book examines the effects of British imperial involvements on history writing in Britain since 1750 It provides a chronological account of the development of history writing in its social political and cultural contexts and an analysis of the structural links between those involvements and the dominant concerns of that writing The author looks at the impact of imperial and global expansion on the treatment of government of social structures and changes and of national and ethnic identity in scholarly and popular works in school histories and in famous history books In a clear and student friendly way the book argues that involvement in empire played a transformative and central

role within history writing as whole reframing its basic assumptions and language and sustaining a significant imperial influence across generations of writers and diverse types of historical text *The English National Character* Peter Mandler, 2006-01-01 De geschiedenis van opvattingen over het nationale karakter van de Engelsen in de afgelopen twee eeuwen **Blue Jerusalem** Kit Kowol, 2024-08-28 The untold story of how Winston Churchill and the Conservative Party envisioned Britain's post war future We think we know all there is to know about Britain's Second World War We don't This radical re interpretation of British history and British Conservatism between 1939 and 1945 reveals the bold at times utopian plans British Conservatives drew up for Britain and the post war world From proposals for world government to a more united Empire via dreams of a new Christian elite and a move back to the land Blue Jerusalem reveals how Conservatives were every bit as imaginative and courageous as their Labour and left wing opponents in their wartime plans for a post war world Bringing these alternative visions of Britain's post war future back to life Blue Jerusalem restores politics to the centre of the story of Britain's war It demonstrates how everything from the weapons Britain fought with to the theatres in which the fighting took place and the allies Britain chose were the product of political decisions about the different futures Conservatives wanted to make Rejecting notions of a people's war that continue to cloud how we think of World War II it explores how the Tories used their control of the home and battle front to fight a deeply Conservative war and build the martial imperial and Christian nation of which many of a conservative disposition had long dreamed A study of political thinking as well as political manoeuvre Blue Jerusalem goes beyond an examination of the usual suspects such as Winston Churchill and Neville Chamberlain to reveal a hitherto lost world of British Conservatism and a set of forgotten futures that continue to shape our world **Histories of Everyday Life** Laura Carter, 2021-07-22 Histories of Everyday Life is a study of the production and consumption of popular social history in mid twentieth century Britain It explores how non academic historians many of them women developed a new breed of social history after the First World War identified as the history of everyday life The history of everyday life was a pedagogical construct based on the perceived educational needs of the new mass democracy that emerged after 1918 It was popularized to ordinary people in educational settings through books in classrooms and museums and on BBC radio After tracing its development and dissemination between the 1920s and the 1960s this book argues that history of everyday life declined in the 1970s not because academics invented an alternative new social history but because bottom up social change rendered this form of popular social history untenable in the changing context of mass education Histories of Everyday Life ultimately uses the subject of history to demonstrate how profoundly the advent of mass education shaped popular culture in Britain after 1918 arguing that we should see the twentieth century as Britain's educational century A Crooked Line Geoff Eley, 2008-12-18 Eley brilliantly probes transformations in the historians craft over the past four decades I found A Crooked Line engrossing insightful and inspiring Lizabeth Cohen author of A Consumers Republic A Crooked Line brilliantly captures the most significant shifts in the landscape of historical

scholarship that have occurred in the last four decades Part personal history part insightful analysis of key methodological and theoretical historiographical tendencies since the late 1960s always thoughtful and provocative Eley's book shows us why history matters to him and why it should also matter to us Robert Moeller University of California Irvine Part genealogy part diagnosis part memoir Eley's account of the histories of social and cultural history is a tour de force Antoinette Burton Professor of History and Catherine C and Bruce A Bastian Professor of Global and Transnational Studies University of Illinois Eley's reflections on the changing landscape of academic history in the last forty years will interest and benefit all students of the discipline Both a native informant and an analyst in this account Eley combines the two roles superbly to produce one of most engaging and compelling narratives of the recent history of History Dipesh Chakrabarty author of Provincializing Europe Using his own intellectual biography as a narrative device Geoff Eley tracks the evolution of historical understanding in our time from social history through the so called cultural turn and back again to a broad history of society A gifted writer Eley carefully winnows unique experiences from the universal and uses the interplay of the two to draw the reader toward an organic understanding of how historical thinking particularly the work of European historians has evolved under the influence of new ideas His work situates history within History and offers students scholars and general readers alike a richly detailed readable guide to the enduring value of historical ideas Geoff Eley is Professor of History at the University of Michigan

The Moral Economists Tim Rogan, 2019-03-19 A fresh look at how three important twentieth century British thinkers viewed capitalism through a moral rather than material lens What's wrong with capitalism Answers to that question today focus on material inequality Led by economists and conducted in utilitarian terms the critique of capitalism in the twenty first century is primarily concerned with disparities in income and wealth It was not always so The Moral Economists reconstructs another critical tradition developed across the twentieth century in Britain in which material deprivation was less important than moral or spiritual desolation Tim Rogan focuses on three of the twentieth century's most influential critics of capitalism R H Tawney Karl Polanyi and E P Thompson Making arguments about the relationships between economics and ethics in modernity their works commanded wide readerships shaped research agendas and influenced public opinion Rejecting the social philosophy of laissez faire but fearing authoritarianism these writers sought out forms of social solidarity closer than individualism admitted but freer than collectivism allowed They discovered such solidarities while teaching economics history and literature to workers in the north of England and elsewhere They wrote histories of capitalism to make these solidarities articulate They used makeshift languages of tradition and custom to describe them until Thompson patented the idea of the moral economy Their program began as a way of theorizing everything economics left out but in challenging utilitarian orthodoxy in economics from the outside they anticipated the work of later innovators inside economics Examining the moral cornerstones of a twentieth century critique of capitalism The Moral Economists explains why this critique fell into disuse and how it might be reformulated for the twenty first century

Cold War Culture Jim

Smyth,2016-04-04 Britain in the 1950s had a distinctive political and intellectual climate It was the age of Keynesianism of welfare state consensus incipient consumerism and to its detractors the so called Angry Young Men and the emergent New Left a new age of complacency While Prime Minister Harold Macmillan famously remarked that most of our people have never had it so good the playwright John Osborne lamented that there aren't any good brave causes left Philosophers political scientists economists and historians embraced the supposed end of ideology and fetishized value free technique and analysis This turn is best understood in the context of the cultural Cold War in which ideology served as shorthand for Marxist but it also drew on the rich resources and traditions of English empiricism and a Burkean scepticism about abstract theory in general Ironically cultural critics and historians such as Raymond Williams and E P Thompson showed at this time that the thick catalogue of English moral aesthetic and social critique could also be put to altogether different purposes Jim Smyth here shows that despite being allergic to McCarthy style vulgarity British intellectuals in the 1950s operated within powerful Cold War paradigms all the same

Death and Survival in Urban Britain Bill Luckin,2015-05-19 The narratives of disease hygiene developments in medicine and the growth of urban environments are fundamental to the discipline of modern history Here the eminent urban historian Bill Luckin re introduces a body of work which published together for the first time along with new material and contextualizing notes marks the beginning of this important strand of historiography Luckin charts the spread of cholera fever and the everyday but frequently deadly infections that afflicted the inhabitants of London and its new manufacturing districts between the 1830s and the end of the nineteenth century A second part Pollution and the Ills of Urban Industrialism concentrates on the water and smoke problems and the ways in which they came to be perceived defined and finally brought under a degree of control *Death and Survival in Urban Britain* explores the layered and interacting narratives within the framework of the urban revolution that transformed British society between 1800 and 1950

Roman Law and the Idea of Europe Kaius Tuori,Heta Björklund,2018-12-27 This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com It is funded by the European Research Council Roman law is widely considered to be the foundation of European legal culture and an inherent source of unity within European law *Roman Law and the Idea of Europe* explores the emergence of this idea of Roman law as an idealized shared heritage tracing its origins among exiled German scholars in Britain during the Nazi regime The book follows the spread and influence of these ideas in Europe after the war as part of the larger enthusiasm for European unity It argues that the rise of the importance of Roman law was a reaction against the crisis of jurisprudence in the face of Nazi ideas of racial and ultranationalistic law leading to the establishment of the idea of Europe founded on shared legal principles With contributions from leading academics in the field as well as established younger scholars this volume will be of immense interests to anyone studying intellectual history legal history political history and Roman law in the context of Europe

Narrating the Nation Stefan Berger,Linas Eriksonas,Andrew Mycock,2008 A sustained and systematic study of the

construction erosion and reconstruction of national histories across a wide variety of states is highly topical and extremely relevant in the context of the accelerating processes of Europeanization and globalization. However, as demonstrated in this volume, histories have not of course only been written by professional historians. Drawing on studies from a number of different European nation states, the contributors to this volume present a systematic exploration of the representation of the national paradigm. In doing so, they contextualize the European experience in a more global framework by providing comparative perspectives on the national histories in the Far East and North America. As such, they expose the complex variables and diverse actors that lie behind the narration of a nation.

The Nostalgic Imagination Stefan Collini, 2019

This unusual book explores the historical assumptions at work in the style of literary criticism that came to dominate English studies in the twentieth century. Stefan Collini shows how the work of critics renowned for their close attention to the words on the page was in practice bound up with claims about the nature and direction of historical change, the interpretation of the national past, and the scholarship of earlier historians. Among the major figures examined in detail are T. S. Eliot, F. R. Leavis, William Empson, and Raymond Williams, while there are also original discussions of such figures as Basil Willey, L. C. Knights, Q. D. Leavis, and Richard Hoggart. *The Nostalgic Imagination* argues that in the period between Eliot's *The Sacred Wood* and Williams's *The Long Revolution*, the writings of such critics came to occupy the cultural space left by academic history's retreat into specialized, archive-bound monographs. Their work challenged the assumptions of the Whig interpretation of English history and entailed a revision of the traditional relations between literary history and general history. Combining close textual analysis with wide-ranging intellectual history, this volume both revises the standard story of the history of literary criticism and illuminates a central feature of the cultural history of twentieth-century Britain.

The Politics of English Nationhood Michael Kenny, 2014-03-13. Winner of the Political Studies Association WJM MacKenzie Prize for best book of 2014. *The Politics of English Nationhood* supplies the first comprehensive overview of the evidence, research, and major arguments relating to the revival of Englishness, exploring its varied and often overlooked political ramifications and dimensions. It examines the difficulties which the major political parties have encountered in dealing with the English question against the backdrop of the diminishing hold of established ideas of British government and national identity in the final years of the last century. And it explores a range of factors, including insecurities generated by economic change, Euroscepticism, and a growing sense of cultural anxiety, which helped make the renewal of Englishness appealing and imperative prior to the introduction of devolution by the first Blair government, a policy which also gave this process a further impetus. The book therefore provides a powerful challenge to the two established orthodoxies in this area. These either maintain that the English are dispositionally unable to assert their own nationhood outside the framework of the British state, or point to the supposed resurgence of a resentful and reactive sense of English nationalism. This volume instead demonstrates that a renewed, resonant, and internally divided sense of English nationhood is apparent across the lines of class

geography age and ethnicity And it identifies several distinct strands of national identity that have emerged in this period contrasting the appearance of populist and resentful forms of English nationalism with an embedded and deeply rooted sense of conservative Englishness and attempts to reconstruct a more liberal and civic idea of a multicultural England This volume also includes a wide ranging analysis of the culturally rooted revival of Englishness drawing out the political dimensions and implications of this re emerging form of national consciousness

Contesting History Jeremy Black,2014-03-13 *Contesting History* is an authoritative guide to the positive and negative applications of the past in the public arena and what this signifies for the meaning of history more widely Using a global non Western model Jeremy Black examines the employment of history by the state the media the national collective memory and others and considers its fundamental significance in how we understand the past Moving from public life pre 1400 to the struggle of ideologies in the 20th century and contemporary efforts to find meaning in historical narratives Jeremy Black incorporates a great deal of original material on governmental social and commercial influences on the public use of history This includes a host of in depth case studies from different periods of history around the world and coverage of public history in a wider range of media including TV and film Readers are guided through this material by an expansive introduction section headings chapter conclusions and a selected further reading list Written with eminent clarity and breadth of knowledge *Contesting History* is a key text for all students of public history and anyone keen to know more about the nature of history as a discipline and concept

Britain, France and Europe, 1945-1975 Anthony Adamthwaite,2020-05-28 *Britain France and Europe 1945 1975* takes a fresh look at the international trajectories of Europe s premier democracies The side lining of Britain and France in the Cold War era argues Adamthwaite was preventable A Franco British Europe came within a whisker of realization Condemning President Charles de Gaulle as an intransigent gatekeeper created a convenient alibi for self inflicted missteps UK bids for European Community membership ignored the elephant in the room the need for partnership in a superpower age A marriage powering the Community could have repositioned Western Europe as partner not client of the United States Although perceived as a failing power France outperformed Britain seizing the initiative in European construction and winning primacy in western Europe As well as exploring sharply contrasting national experiences in the aftermath of war the author analyses the reasons for French success The analysis evaluates key influences the mental maps of decision makers leadership styles the post 1945 international system policy making machinery the democratic deficit in British and French politics and public opinion Drawing on American British and French official records together with private papers and interviews this enlightening study highlights the importance of contingency and individual actors and will be of great interest to scholars of modern European history

The Impact of History? Pedro Ramos Pinto,Bertrand Taithe,2015-03-24 Driven by the increasing importance of discussions around impact and its meaning and implications for history *The Impact of History* brings together established and new voices to raise relevant questions issues and controversies for debate The chapters are articulated around the

themes of public history the politics of history the role of history in the shaping of learning and the situation of history in the changing world of education While this subject is driven differently by the research bodies and councils of different countries similar debates about the value and place of the academy in society are taking place in the UK the USA and Europe as well as in other parts of the world Chapters cover diverse areas of history from this perspective including public history national histories new technologies and the natural sciences campaigning histories the impact agenda This collection is a political and intellectual intervention at a time when scholars and readers of history are being asked to explain why history matters and it seeks to intervene in the debates on impact on education and on the role of the past in the shaping of our future Bringing together leading authors from a wide range of fields The Impact of History is an accessible and engaging yet polemical and thought provoking overview of the role of history in contemporary society *Neo-Tories* Bernhard Dietz, 2018-05-31 The danger to British democracy in the interwar period came from a different source to that which has thus far been assumed It came from a network of radical conservatives who challenged the political system and sought to replace it with an authoritarian corporate state In this book Bernhard Dietz provides the first systematic analysis of this network and its members which are called Neo Tories With strong links to the European right yet a minority back home this group of British conservatives are all the more fascinating today because it is on their ultimate failure that the success of British democracy rested **British Catholics and Fascism** T. Villis, 2013-02-18 Drawing substantially on the thoughts and words of Catholic writers and cultural commentators Villis sheds new light on religious identity and political extremism in early twentieth century Britain The book constitutes a comprehensive study of the way in which British Catholic communities reacted to fascism both at home and abroad

Sir Arthur Bryant And National History In Twentieth Century Britain Book Review: Unveiling the Magic of Language

Sir Arthur Bryant And National History In Twentieth Century Britain Introduction

In the digital age, access to information has become easier than ever before. The ability to download Sir Arthur Bryant And National History In Twentieth Century Britain has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Sir Arthur Bryant And National History In Twentieth Century Britain has opened up a world of possibilities. Downloading Sir Arthur Bryant And National History In Twentieth Century Britain provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Sir Arthur Bryant And National History In Twentieth Century Britain has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Sir Arthur Bryant And National History In Twentieth Century Britain. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Sir Arthur Bryant And National History In Twentieth Century Britain. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Sir Arthur Bryant And National History In Twentieth Century Britain, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware.

or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Sir Arthur Bryant And National History In Twentieth Century Britain has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Sir Arthur Bryant And National History In Twentieth Century Britain Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Sir Arthur Bryant And National History In Twentieth Century Britain is one of the best book in our library for free trial. We provide copy of Sir Arthur Bryant And National History In Twentieth Century Britain in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Sir Arthur Bryant And National History In Twentieth Century Britain. Where to download Sir Arthur Bryant And National History In Twentieth Century Britain online for free? Are you looking for Sir Arthur Bryant And National History In Twentieth Century Britain PDF? This is definitely going to save you time and cash in something you should think about.
