

Situational Morality

- Context is everything
- Can't make blanket assertions about morality without taking circumstances into account
- Not as much a unified philosophy

Situational Morality:

Situation Ethics Joseph Fletcher, 1997-07-01 Igniting a firestorm of controversy upon its publication in 1966 Joseph Fletcher's Situation Ethics was hailed by many as a much needed reformation of morality and as an invitation to anarchy by others. Proposing an ethic of loving concern, Fletcher suggests that certain acts such as lying, premarital sex, adultery, or even murder might be morally right depending on the circumstances. Hotly debated on television, in magazines, and newspapers in churches and in the classroom, Fletcher's provocative thesis remains a powerful force in contemporary discussions of morality. The Library of Theological Ethics series focuses on what it means to think theologically and ethically. It presents a selection of important and otherwise unavailable texts in easily accessible form. Volumes in this series will enable sustained dialogue with predecessors through reflection on classic works in the field.

Situational Morality Robert W. Gleason, 1968
The Ethos of the Hong Kong Chinese Zhaojia Liu, Hsin-chi Kuan, 1988
Situationism and the New Morality Robert L. Cunningham, 1970
Handbook of Moral Behavior and Development William M. Kurtines, Jacob Gewirtz, Jacob L. Lamb, 2014-02-04 The publication of this unique three volume set represents the culmination of years of work by a large number of scholars, researchers, and professionals in the field of moral development. The literature on moral behavior and development has grown to the point where it is no longer possible to capture the state of the art in a single volume. This comprehensive multi volume Handbook marks an important transition because it provides evidence that the field has emerged as an area of scholarly activity in its own right. Spanning many professional domains, there is a striking variety of issues and topics surveyed: anthropology, biology, economics, education, philosophy, psychology, psychiatry, sociology, social work, and more. By bringing together work on diverse topics, the editors have fostered a mutually beneficial exchange, not only between alternative approaches and perspectives, but also between applied and pure research interests. The Theory volume presents current and ongoing theoretical advances, focusing on new developments or substantive refinements and revisions to existing theoretical frameworks. The Research volume summarizes and interprets the findings of specific theory driven research programs, reviews research in areas that have generated substantial empirical findings, describes recent developments in research methodology, techniques, and reports research on new and emerging issues. The Application volume describes a diverse array of intervention projects, educational, clinical, organizational, and the like. Each chapter includes a summary report of results and findings, conceptual developments, and emerging issues or topics. Since the contributors to this publication are active theorists, researchers, and practitioners, it may serve to define directions that will shape the emerging literature in the field.

Moral Discernment in the Christian Life James M. Gustafson, Theodoor Adriaan Boer, Paul E. Capetz, 2007-01-01 James M. Gustafson has been a leading and formative figure in the field of Christian ethics over the past fifty years. His many contributions to theological ethics have helped to define and shape ethical thinking by Christians who reflect on great moral issues. Gustafson's work must be dealt with by all students in this discipline, and his perceptive insights

have given clarity and guidance to the process of moral discernment The essays collected here are ones that have had a significant impact on discussions and debates over recent decades The Library of Theological Ethics series focuses on what it means to think theologically and ethically It presents a selection of important and otherwise unavailable texts in easily accessible form Volumes in this series will enable sustained dialogue with predecessors though reflection on classic works in the field

Popular Morality in the Early Roman Empire Teresa Morgan, 2007-08-09 Morality is one of the fundamental structures of any society enabling complex groups to form negotiate their internal differences and persist through time In the first book length study of Roman popular morality Dr Morgan argues that we can recover much of the moral thinking of people across the Empire Her study draws on proverbs fables exemplary stories and gnomic quotations to explore how morality worked as a system for Roman society as a whole and in individual lives She examines the range of ideas and practices and their relative importance as well as questions of authority and the relationship with high philosophy and the ethical vocabulary of documents and inscriptions The Roman Empire incorporated numerous overlapping groups whose ideas varied according to social status geography gender and many other factors Nevertheless it could and did hold together as an ethical community which was a significant factor in its socio political success

Ethics in Criminal Justice Sam S. Souryal, John T. Whitehead, 2019-09-17 Introducing the fundamentals of ethical theory Ethics in Criminal Justice In Search of the Truth Seventh Edition exposes the reader to the ways and means of making moral judgments by exploring the teachings of the great philosophers sources of criminal justice ethics and ethical issues in the criminal justice system It is presented from two perspectives a thematic perspective that addresses ethical principles common to all components of the discipline and an area specific perspective that addresses the state of ethics in criminal justice in the fields of policing corrections and probation and parole The seventh edition features discussion of current critical issues in criminal justice accusations of racism police shootings stop and frisk policy marijuana laws mass incarceration life sentences prison privatization the swift and certain deterrence model of probation excessive probation fees and the Good Lives Model in corrections The seventh edition also offers completely revised coverage of capital punishment and the rehabilitation debate and a discussion of how juvenile justice often fails to live up to its ideals Finally the book features new case studies of recent ethical dilemmas in criminal justice to enhance students understanding of real life ethics decision making Suitable for advanced undergraduates or graduate students in criminal justice programs in the US and globally this text offers a classical view of ethical decision making and is well grounded in specific case examples

Politically Correct Moral Autonomy: Christianity Besieged! Stirring the Melting Pot to a Boil Ferd Wagner, 2022-06-15 On what basis should we accept or reject political or social

philosophies that insist human nature human wisdom and human cooperation have the potential to resolve our issues and problems if we buy into the morality espoused by liberal politics and liberal resolutions Should we side with progressives who see most people as good free to self determine their own standards and will do the right thing if given the opportunity Or with the right political and social contracts proposed by the correct party who see the morality of the liberal government as our correct way of achieving peace and prosperity Should Christians have a place at the table The challenge here and in all such debates is what constitutes acceptable moral standards and practices that accurately represent the will of the majority without denying the legal social and moral rights of the minority Then the question becomes how to correctly implement those standards Here each side should be challenged to present evidence and facts that either refute or prove the posited solutions or reforms can be validated by an acceptable objective authority or unbiased source At this point the debate demands proof or corroboration that the authorities being identified are trustworthy and beyond reproach Is the authority a person institution document or charismatic leader and speaker What evidence or past experiences corroborate their integrity and wisdom in dealing with the issue at hand If you combine or spread the authority from the four different entities listed above are you more likely to get subjective solutions based on human nature and human experience or divine solutions based on Christian theology and practice One standard will insist that merit integrity honor and personal accountability is the better way to create more ethical and harmonious relationships while the other looks more towards fairness inclusion and equality as the keys to harmony and prosperity Here is where the rubber hits the road Can any human political party or institution claim superiority over all other authorities If so which one In our system of government a president and in most situations his political party rules the roost for four years Often they dramatically change the moral and ethical atmosphere refuting the direction of the preceding administration Our checks and balances are primarily politically manipulated by the party in power and frequently are more rigged than balanced Should our system be predicated on scriptural truth whose default is ethical accountability across the board or continue down the path where what is politically pragmatic and pluralistic enough to maintain control and power is the default Political correctness cannot please all the people all the time Nothing can Which groups then should get priority the ethical accountable sacrificial individuals and organizations or the self serving you owe me I deserve it groups who feel entitled to special privileges or rights Meritocracy or hypocrisy God s ethics or man s identity politics morality

Moral Education and Development Doret J. de

Ruyter, Siebren Miedema, 2012-01-01 Worries about the moral standard of younger generations are of all ages The older generation tends to believe that the moral education of young people deserves special attention because their moral development does not reach the level adults hope for This observation does not mean that the older generation is necessarily wrong but what it indisputably does show is that they attach high importance to morality and moral education But what characterises a moral person What influences people to behave morally What should moral education involve Which interdisciplinary contributions are relevant to improving moral education These questions continuously deserve the attention of academics students and professional educators This book is divided into four parts The first part focuses on interdisciplinary empirical research about the reasons why people act morally and the consequences for moral education The primarily philosophical chapters of the second part address the question what it means to be a moral person and the implication of this elucidation for moral education The third part contains five chapters that deal with moral aspects of sex education and civic education The fourth part consists of one chapter that looks at the moral education of students who will work in a pedagogical or educational environment arguing that one's moral development requires a lifetime commitment This book is written for a wide academic audience The collection of chapters will be of interest to pedagogues educational scientists moral philosophers and moral psychologists and to both newcomers and experts in the field

Moral Imagination and Management Decision-making Patricia Hogue Werhane, 1999 Why do good people do ethically questionable things Why do reputable businesses ignore the harmful consequences of their actions These questions continue to challenge philosophers legal scholars and corporate leaders In this pathbreaking book Patricia Werhane sets forth a model that explains ethical failings in business and shows how to transcend them Deleterious corporate actions are often attributed to simple greed and regulations have traditionally been enacted to counter them But Werhane argues that most corporate managers are not without moral sensibilities nor are they motivated primarily by greed or self interest Indeed companies themselves often attempt to improve ethical behavior most American companies today have values statements and ethics training is widespread but applying moral principles to practical decision making has not been entirely successful What is missing according to Werhane is a highly developed moral imagination that enables managers and the companies they run to be aware of evaluate and change the mental models that often constrict business behavior The development of moral imagination is not identified merely with increased sensitivity to the existence of ethical issues in business It includes awareness of the mind sets that govern managerial and corporate decision making the development of reasoning skills to evaluate and moderate these mind sets and creativity to ponder viable alternative solutions to what appear to be insoluble economic dilemmas Unique in its sophisticated application of ethical reasoning to real day to day business problems this book points the way to the exemplary moral leadership that will enable companies to flourish in the complex global economies of the twenty first century
