Through Your Eyes Research and New Perspectives on Empathy is an insightful compilation of recent experimental studies and theoretical models about the concept of empathy and its implications in various aspects of social life. The book effectively captures the complexity of empathy as a multifaceted construct and presents complex ideas in a clear and accessible manner, making the theme approachable even for readers who may not be well versed in the subject. Through this book, readers will have the opportunity to understand the importance of empathy as a skill, the psychological mechanisms that drive empathetic behavior, and how to learn and improve empathetic ability through advanced technologies. Empathy is essential for societal well-being, and we hope this book serves as a springboard for future research as well as a valuable reference for the scientific community.

Counselling Skills for Social Work Lisa Miller, 2011-11-14. Praise for the first edition: The content of the book is excellent. The strength lies in its detailed application of ideas to practice. The use of the case material to illustrate application is excellent and works well. Helen Cosis Brown, University of Middlesex. This new edition of *Counselling Skills for Social Work* argues that good counselling skills are at the heart of effective social work practice. Building on the success of the first edition, this core textbook brings a range of therapeutic models with their theoretical underpinnings and skills directly into a social work context. By looking at how the underlying theory can be applied to professional practice, chapters identify the key skills which can be employed for the most effective social work intervention. Key features of the book include a practical skills-based approach, a focus on service user experiences, and a range of case studies drawn from a variety of real-life settings. A new chapter dedicated to counselling young people. Chapter content is linked to the most recent NOS and GSCC guidelines structuring training and practice. End of chapter Reflective Questions and Tips for Practice summarising the key theoretical concepts and their applications. Written in a lively and engaging style, this updated new edition will be an invaluable text for undergraduate students in social work. It will also be useful for qualified practitioners to enhance understanding of communication and the process of change through the medium of counselling skills.

Counselling Skills for Social Work Lisa Miller, 2005-12-15. Focusing on eight principle therapeutic models of counselling skills, this text illustrates how the underlying theories can be applied to professional social work practice.

Handbook of Cognitive-Behavior Group Therapy with Children and Adolescents Ray W. Christner, Christy A. Mulligan, 2007-05-07. This Handbook offers a much-needed resource of theoretical knowledge, evidence-based interventions, and practical guidelines for professionals providing group psychotherapy to youth clients. Written by leading professionals in the field of child and adolescent cognitive-behavioral therapy, this comprehensive volume offers readers a collection of innovative and well-established approaches for group interventions with youth in a variety of treatment settings. It addresses a wide range of issues not limited to assessment, group member selection, and specific protocols and strategies that readers can implement in their own practice. Integrating theoretical and practical aspects, leading experts offer their experience through case examples and vignettes, suggesting guidelines for overcoming inherent treatment obstacles. This Handbook provides not only a

framework for delivering effective group therapy but also highlights specific problem areas and it is an invaluable reference for professionals providing therapeutic intervention to children and adolescents

The Inter-Processual Self Kleio Akrivou, German Scalzo, José Víctor Orón Semper, 2019-01-17 How should we understand the self as well as personal relational and systemic growth This volume proposes a radical new way of answering this question It rests on a non representational theory of knowledge on how to approach and understand the self and action more broadly Although it has never been lost the Aristotelian emphasis on excellence in moral character and practical reason as preconditions for achieving happiness has gradually been degraded This book suggests that this has happened thanks to a split between knowledge and action that can be traced back to the origins of modernity Modern academic disciplines in general and psychology in particular are based on the idealisation of theoretical hypothetical and abstract reason suggesting that this morally neutral ideal must guide human action This volume systematically integrates those domains in a more profound and meaningful proposal relevant for current times and challenges Based on previous research bridging philosophy psychology and neuroscience the contributors here identify two alternative paradigms for conceiving of the self and human development the so called autonomous self AS and the inter processual self IPS The book considers the person as an ethical being and as the foundational cornerstone of a new theory of self action and knowing that achieves decisive distance from modern theory's limitations To keep on going dialogue on human development open the authors introduce a new theoretical model IPS which can be scientifically measured and tested they also suggest its further application in concrete practical realms thus touching on how the adoption of the IPS paradigm inspires a renewed view of human cognition education governance and business management
