Krader, Cyril Levitt, 2010 *Noetics* is Lawrence Krader's magnum opus which he began while still an undergraduate philosophy major at the City College of New York in the 1930s. By examining the architectonics of some of the greatest thinkers in history—Aristotle, Plato, Descartes, Leibniz, Spinoza, Kant, Hegel, and Husserl—among others as works of art combining myth, speculation, and empirical science, Krader tackles one of the central problems of the philosophy of science: what is science and how does it relate to human thinking and knowing more generally. Building on his theories concerning the different orders of nature adumbrated in his *Labor and Value* (2003), he follows not only the lines of development of the three fields of science corresponding to three orders of nature: material, quantum, and human, but also examines the development of all three as human processes and products. Krader takes up the relations of thinking and knowing in conjunction with emotions, feelings, and judgment and examines the processes of abstraction as one of the key and unique features of human being and knowing. He proposes noetics as a science of thinking and knowing and establishes its relation to the natural sciences, the human sciences, and the arts. The breadth and depth of Krader's scholarship is stunning and evokes Spinoza's thought that all things excellent are as difficult as they are rare.

Art Elements Working with only positive and negative lines and shapes keeps the focus on the basics: composition, balance, and harmony. And using white and black gel ink and paint pens on black, tan, and gray papers allows you to experience drawing in a whole new way. Drawing in Black White is a clever drawing and design book that contains 36 inspiring exercises and a gallery of artwork. Follow the tips and draw on black, gray, and tan paper to learn how different colored papers can make simple images pop. You'll find lessons on drawing pattern, drawing with cut paper, and simple collage. Learn to see your drawings a new way by drawing in black and white. While confined to only two colors, black and white, this guide's techniques, materials, and tools are not nearly so limited. Readers with some experience drawing and painting are the best audience for this guide, but there is plenty here for beginners and advanced artists too. Library Journal. The goal of the book is to let you be familiar with black and white media to draw and have fun. It's a fun activity book for those who want to dabble with art.
