*Critical Realism, Environmental Learning and Social-Ecological Change* Leigh Price, Heila Lotz-Sistka, 2015-12-14 Southern Africa where most of these book chapters originate has been identified as one of regions of the world most at risk of the consequences of environmental degradation and climate change At the same time it is still seeking ways to overcome the century long ravages of colonial and apartheid impositions of structural and epistemic violence Research deliberations and applied research case studies in environmental education and activism from this region provide an emerging contextualized engagement that is related to a wider internationally articulated quest to achieve social ecological justice resilience and sustainability through educational interventions This book introduces a decade of mainly southern African critical realist environmental education research and thinking that asks the question How can we facilitate learning processes that will lead to the flourishing of the Earth's people and ecosystems in more socially just ways The environmental education research topics represented in this book are wide ranging However they all exhibit the common theme of social justice and wanting to create change towards a better future All the authors have used critical realist or critical realist influenced research methodologies Offering contributions from a small but growing community of researchers working with critical realism in the global South this book will be of interest to students scholars and practitioners in the areas of environmental education sustainability development and the philosophy of critical realism in general

**Utopia** George Kateb, 2017-09-29 Amid the twentieth century's seemingly overwhelming problems some thinkers dared to envisage a world order governed by utopian proposals that would eliminate or at least alleviate the evils of society and secure positive advantages for all human beings Others found this utopian optimism a hopeless fantasy and predicted a utopian order only repressiveness boredom and the impoverishment of human experience The unique gathering of articles in *Utopia* vividly demonstrates the tension existing between utopian ideas and their proponents and the severe criticism of their adversaries Among utopia's enthusiastic supporters B F Skinner outlines the educational practices needed to sustain his

concept of utopia while Margaret Mead sets forth a bold defense of utopian vision in her article Towards More Vivid Utopias In active opposition to modern utopian idealism Ralf Dahrendorf the prominent German sociologist and politician compares utopia with a cemetery and criticizes its fixed and uneventful life and J L Talmon predicts that since utopianism postulates absolute social cohesion there is no escape from dictatorship in the utopian design Still another alternative is offered by Zbigniew Brzezinski who bases his futurist ideology on the trends of technology in the advanced countries of the world especially the United States He sees in the conscious application of technical scientific rationality by an intellectual elite the method by which the promises of modern knowledge can be made good Underscoring the fact that the utopian tradition can make us look at the real world with new eyes George Kateb the editor of Utopia clarifies the terms of this long standing debate and offers a thorough analysis of the strong utopian impetus to save the world from as much of its confusion and disorder as possible The work is an argument neither for utopian or anti utopian visions Rather it shows the possibilities of political norms in advancing the human condition in open societies Cumulated Index Medicus ,1972 *Tell Me a Story* Anthony Tate Fulton,Christopher B. Field,Michael MacBride,2017-09-25 Stories have great power This book attempts to harness that power to help students grow and develop as writers It argues that stories and narratives can be utilized in the composition classroom specifically first year composition FYC to break down barriers Throughout a given semester stories and narratives can help students in composition courses to overcome academic personal and creative barriers establishing a space for developing as writers and thinkers Providing theoretical approaches practical methods and implications for using stories in FYC this book explores the versatility of stories as teaching tools **Psychology of Women** Florence L. Denmark,Michele A. placing value on all women including women of color women with disabilities and lesbian bisexual and transgender women

Henri Lefebvre, Boredom, and Everyday Life Patrick Gamsby, 2022-09-23 Henri Lefebvre *Boredom and Everyday Life* culls together the scattered fragments of Henri Lefebvre's 1901-1991 unrealized sociology of boredom. In assembling these fragments sprinkled through Lefebvre's vast oeuvre, Patrick Gamsby constructs the core elements of Lefebvre's latent theory of boredom. Themes of time, modernity, everyday space, urban, suburban, and mass culture, culture industry, industry culture are explored throughout the book, unveiling a concealed dialectical movement at work with the experience of boredom. In analyzing the dialectic of boredom, Gamsby argues that Lefebvre's project of a critique of everyday life is key for making sense of the linkages between boredom and everyday life in the modern world.
