Stories, Storytellers, and Storytelling Tom Vine, Sarah Richards, 2022-12-15 This book advances social scientific interest in a field long dominated by the humanities stories and storytelling Stories are a whole lot more than entertainment oral narratives novels films and immersive video games all form part of the sociocultural discourses which we are enmeshed in and use to co construct our beliefs about the world around us Young children use them to learn about the world beyond their immediate sensory experience and even in an era of interactive electronic media the bedtime story remains a cherished part of most children s daily routine Storytelling is thus the first abstract formal learning method we encounter as human beings It is also probably transcultural perhaps even an immanent part of the human condition Narratives are at heart sequences of events and presuppose and reinforce particular cause and effect relationships Inevitably they also construct unconscious biases prejudices and discriminatory attitudes Storying a term we use in this book to encompass stories storytellers and storytelling is complex and this book seeks to make sense of it

You Don't Know Jack Kevin D. Cordi, 2019-02-11 Jack and the Beanstalk Little Jack Horner and Jack the Giant Killer are all famous tales and rhymes featuring the same hero a character who often appears in legends fairy tales and nursery rhymes Unlike moralizing fairy tale heroes however Jack is typically depicted as foolish or lazy though he often emerges triumphant through cleverness and tricks With their roots traced back to England Jack tales are an important oral tradition in Appalachian folklore It was in his Appalachian upbringing that Kevin D Cordi was first introduced to Jack through oral storytelling traditions Cordi's love of storytelling eventually led him down a career path as a professional storyteller touring the US for the past twenty seven years In addition to his work as a storyteller Cordi worked a second job in an unrelated field a high school teacher and for many years he kept his two lives separate Everything changed when Cordi began telling stories in the classroom and realized he was connecting with his students in ways he had not previously Cordi concluded that storytelling storymaking and drama can be used as systems of learning instead of as just entertainment In *You Don't Know Jack A Storyteller Goes to School* Cordi describes the process of integrating storytelling into his classroom Using autoethnographic writing he reflects upon the use of storytelling and storymaking in order to promote inquiry and learning He argues that engaging with the stories of others discovering that one voice or identity should not be valued over the other and listening especially listening to stories of difference are of utmost importance to education and growth

In the Presence of Each Other Johanna C. Kuyvenhoven, 2009-05-23 There can be little doubt that pedagogical practices have increasingly become focused on reading and writing in childhood education In *In the Presence of Each Other* is a brilliant ethnography that examines the educational benefits of the use of oral storytelling in the classroom and the ways in which non print literacy enhances children's overall language and communication capacities Presenting a strong argument based on compelling evidence for the incorporation of oral practices in the classroom Johanna Kuyvenhoven follows a group of children in grades four and five as they forge an inclusive learning environment that respects linguistic social and ethnic diversity by sharing stories out loud She traces the positive effects that oral storytelling has on children's vocabularies writing skills as well as for problem solving abilities and empathetic responses that are essential to learning across the disciplines In *In the Presence of Each Other* is a ground breaking work not only for educators but also for anyone interested in the practice of
