Small Business Management and Entrepreneurship in Hong Kong Ali F. Farhoomand, 2005-01-01 The case studies are topically diverse and span a range of managerial functions and sectors This casebook is an anthology of 28 cases from the series The cases are written with a strong management perspective to offer a practical and interesting look at how successful entrepreneur managers in Hong Kong systematically generate innovations in the shape of successful new products services processes and technologies when faced with various organizational and environmental challenges They constitute a comprehensive self contained course of study each case can also be considered on its own *Chinese Entrepreneurship* Fu-Lai Tony Yu, Diana Kwan, 2015-07-24 After more than 30 years of reformations in agriculture manufacturing and trade and industry China's economy has grown to become the second largest in the world This book examines the contributions of dynamic entrepreneurs to the economic development of mainland China and Hong Kong an analysis that is largely lacking in existing studies China's economic stronghold This book adopts theories of entrepreneurship and market processes as major analytical frameworks to conclude that entrepreneurship is the true engine of growth in mainland China and Hong Kong Chinese Entrepreneurship focuses on the knowledge drivers and systemic challenges of these businesses to examine how entrepreneurs under uncertainty identify and pursue profit opportunities and how their efforts have enhanced China's economic dynamics This book offers vital insight to students teachers and researchers of Chinese business and economics along with Chinese culture and expanding economies *Asian Models Of Entrepreneurship - From The Indian Union And Nepal To The Japanese Archipelago: Context, Policy And Practice (2nd Edition)* Leo-paul Dana, 2014-06-13 In this book Leo Paul Dana makes it clear that much can be learnt about the nature of entrepreneurial activity when we delve into the unique characteristics of different nations of South Asia South east Asia and East Asia Through in depth analyses and comprehensive reviews of many Asian countries the profound differences both among and within countries of the region become vividly apparent Dana juxtaposes the explosion in entrepreneurial growth within China against the struggles to build an entrepreneurial community in Japan or the enlightened public policy leadership in Singapore against the crisis driven developments in Korea The range of factors identified within each of the 15 countries examined by Dana is not an example of random influences on the entrepreneurial process because they can be construed in more systematic and logical ways Thus the book uncovers the Chinese model of gradual transition the Royal Cambodian model and the Doi Moi model among many others The reader is challenged to grasp these different models and identify their commonalities and differences **Iranian Entrepreneurship** Shahamak Rezaei, Leo-Paul Dana, Veland Ramadani, 2017-05-14 This book presents a comprehensive state of the art portrait of entrepreneurship and small business management issues in Iran and among the Iranian Diaspora The major contributions in this book address topics such as innovation female entrepreneurship social entrepreneurship migrant entrepreneurship corporate entrepreneurship institutional support of entrepreneurial initiatives and more This book is the
