Smart French:

Christopher Smart's English Lyrics Rosalind Powell, 2016-05-23 In the first full length study of Christopher Smart's translations and the place and function of translation in Smart's poetry Rosalind Powell proposes a new approach to understanding the relationship between Smart's poetics and his practice Drawing on translation theory from the early modern period to the present day this book addresses Smart's translations of Horace Phaedrus and the Psalms alongside the better known religious works such as Jubilate Agno and A Song to David Five recurrent threads run throughout Powell's study the effect of translation on the identity of a narrative voice in a rewritten text the techniques that are used to present translated texts to a new literary cultural and linguistic readership performance and reading contexts the translation of great works as an attempt to achieve literary permanence and finally the authorial influence of Smart himself in terms of the overt religiosity and nationalism that he champions in his writing In exploring Smart's major translation projects and revisiting his original poems Powell offers insights into classical reception and translation theory attitudes towards censorship expressions of nationalism in the period developments in liturgy and hymnody and the composition of children's books and school texts in the early modern era Her detailed analysis of Smart's translating poetics places them within a new contemporary context and locality to uncover the poet's works as a coherent project of Englishing

A Line in the Sand: The Anglo-French Struggle for the Middle East, 1914-1948 James Barr, 2012-01-09 Uses recently declassified French and British government documents to describe how the two countries secretly divided the Middle East

during World War I and the effect these mandates had on local Arabs and Jews

The French Genealogy of The Beat Generation Vronique Lane, 2017-10-19 The first critical study of the key role that modern French literature played in the formation and development of the oeuvres of the major American Beat writers in the mid 20th century

Syria and Lebanon Under the French Mandate Idir Ouahes, 2018-07-30 French rule over Syria and Lebanon was premised on a vision of a special French protectorate established through centuries of cultural activity archaeological educational and charitable Initial French methods of organising and supervising cultural activity sought to embrace this vision and to implement it in the exploitation of antiquities the management and promotion of cultural heritage the organisation of education and the control of public opinion among the literate classes However an examination of the first five years of the League of Nations assigned mandate 1920 1925 reveals that French expectations of a protectorate were quickly dashed by widespread resistance to their cultural policies not simply among Arabists but also among minority groups initially expected to be loyal to the French The violence of imposing the mandate de facto starting with a landing of French troops in the Lebanese and Syrian coast in 1919 and followed by extension to the Syrian interior in 1920 was met by consistent violent revolt Examining the role of cultural institutions reveals less violent yet similarly consistent contestation of the French mandate The political discourses emerging after World War I fostered expectations of European tutelages that prepared local peoples for autonomy and independence Yet even among the most Francophile of stakeholders the unfolding of the first years of French rule brought forth entirely different events and methods In this book Idir Ouahes provides an in depth analysis of the shifts in discourses attitudes and activities unfolding in French and locally organised institutions such as schools museums and newspapers revealing how local resistance put pressure on cultural activity in the early years of the French mandate

Constructions in French Myriam Bouveret, Dominique Legallois, 2012-12-19 The book *Constructions in French* is the first collected volume to focus on French syntax from a constructionist perspective It has been written with two kinds of readers in mind for readers interested in the relationship between the French linguistic tradition and cognitive linguistics and for readers who would like to examine how constructional analysis can be applied to a variety of French language phenomena The eleven papers illustrate the insights generated by combining lexicalist and constructionist approaches focusing on syntax as a dynamic system and using corpus data from a variety of speech genres The contributions provide new findings about French usage trends in linguistics and in psycholinguistics including insights into new nonstandard and poorly studied constructions

Battle for the Castle Andrea Orzoff, 2009-07-21 After World War I diplomats and leaders at the Paris Peace Talks redrew the map of Europe carving up ancient empires and transforming Europe's eastern half into new nation states Drawing heavily on the past the leaders of these young countries crafted national mythologies and deployed them at home and abroad Domestically myths were a tool for legitimating the new state with fractious electorates In Great Power capitals they were used to curry favor and to compete with the mythologies and propaganda of other insecure postwar

states The new postwar state of Czechoslovakia forged a reputation as Europe's democratic outpost in the East an island of enlightened tolerance amid an increasingly fascist Central and Eastern Europe In *Battle for the Castle* Andrea Orzoff traces the myth of Czechoslovakia as an ideal democracy The architects of the myth were two academics who had fled Austria Hungary in the Great War's early years Tomáš Garrigue Masaryk who became Czechoslovakia's first president and Edvard Beneš its longtime foreign minister and later president propagated the idea of the Czechs as a tolerant prosperous and cosmopolitan people devoted to European ideals and Czechoslovakia as a Western ally capable of containing both German aggression and Bolshevik radicalism Deeply distrustful of Czech political parties and Parliamentary leaders Beneš and Masaryk created an informal political organization known as the Hrad or Castle This powerful coalition of intellectuals journalists businessmen religious leaders and Great War veterans struggled with Parliamentary leaders to set the country's political agenda and advance the myth Abroad the Castle wielded the national myth to claim the attention and defense of the West against its increasingly hungry neighbors When Hitler occupied the country the mythic Czechoslovakia gained power as its leaders went into wartime exile Once Czechoslovakia regained its independence after 1945 the Castle myth reappeared After the Communist coup of 1948 many Castle politicians went into exile in America where they wrote the Castle myth of an idealized Czechoslovakia into academic and political discourse *Battle for the Castle* demonstrates how this founding myth became enshrined in Czechoslovak and European history It powerfully articulates the centrality of propaganda and the mass media to interwar European cultural diplomacy and politics and the tense combative atmosphere of European international relations from the beginning of the First World War well past the end of the Second

Ladies' Home Journal Edward William Bok, 1913

The Secret Anglo-French War in the Middle East Meir Zamir, 2014-11-27 The role of intelligence in colonialism and decolonization is a rapidly expanding field of study The premise of *The Secret Anglo-French War in the Middle East* is that intelligence statecraft is the missing dimension in the established historiography of the Middle East during and after World War II Arguing that intelligence especially covert political action and clandestine diplomacy played a key role in Britain's Middle East policy this book examines new archival sources in order to demonstrate that despite World War II and the Cold War the traditional rivalry between Britain and France in the Middle East continued unabated assuming the form of a little known secret war This shadow war strongly influenced decolonization of the region as each Power sought to undermine the other Britain exploited France's defeat to evict it from its mandated territories in Syria and Lebanon and incorporate them in its own sphere of influence whilst France's successful use of intelligence enabled it to undermine Britain's position in Palestine Egypt Saudi Arabia and Iraq Shedding new light on the clandestine Franco-Zionist collaboration against Britain in the Middle East and the role of the British secret services in the 1948 Arab-Jewish war in Palestine this book which presents close to 400 secret Syrian and British documents obtained by the French intelligence is essential reading for scholars with an interest in the political history of the region inter-Arab and international relations and
