United States. Congress. House Un-American Activities Committee, 1957 **Senators on the Campaign Trail** Richard F. Fenno, 1998-02-01 This is a book about the politics of representative democracy written from the perspective of the politicians who make it work Typically political scientists study campaigns from the perspective of the voter and for the purpose of explaining election outcomes But campaigns also need to be studied from the perspective of the candidate for the purpose of understanding representation Richard F Fenno Jr traveled with ten U S senators as they campaigned in their home states using what he calls the drop in drop out tag along hang around method of research to present a developmental picture of their activities His focus here is on three such activities pursuing a career campaigning for office and building constituency connections Taken together the three constitute the political underpinnings of representative democracy Fenno describes the achievement the testing and the maintenance of representational relationships He examines challengers and incumbents winners and losers and motivations strategies and behaviors and he reports on differences similarities and patterns among them In studying the candidates varied careers campaigns and connections in stages and sequences and in depth and in allowing us to hear them reflect on these experiences Fenno has been able to offer rare insights into campaigns and elections insights very different from conventional ones that concentrate on the behavior of voters In its focus on the process of representative democracy *Senators on the Campaign Trail* offers a rich rounded developmental view of some high level individuals who work at the business of representation For scholars the book suggests some qualitative confirmation and added stimulation in forging generalizations about politicians For citizens the book argues for replacing the conventional blanket condemnation of our politicians so prevalent today with more discriminating judgments about what they do and why and to what purpose they do it *2020 the Campaign Chronicles* JD Foster, 2021-02-17 The 2020 campaign began with the 2016 election of Donald J Trump and effectively rendered a verdict on his presidency The Democratic Party sifted through a small army of worthies to defeat Trump and in former Vice President Joe Biden they found their champion Biden claimed the nomination following a phoenix like rise propelled by a miraculous South Carolina primary victory Backed by the party establishment and the mainstream media Biden's weak campaign proved sufficient by a handful of votes in a handful of states and leaving Biden with little mandate other than to avoid being like Trump The story of the 2020 election is in part a story of America and the Trump presidency a stormy marriage of highs and lows shaped by contrived investigations into Russian government interference a failed impeachment a welcomed intolerance for sexual harassment the exposure of deep racial divisions highlighted by widespread and often violent rioting accompanied by a re examination of the role of the police a strong economy until crushed by the coronavirus pandemic and then the pandemic tragedy itself The Trump presidency's four years astounded for better or for worse depending on point of view This book chronicles the 2020 election and thus the events that shaped the election over the course of four years written contemporaneously to capture the flavor of the moment praising and criticizing Trump and his many antagonists in equal measure Those enamored of the former president will find

succor and outrage as will those who delighted in his defeat Those seeking to understand what happened will find the reading interesting infuriating and perhaps in places illuminating **History of the Campaign in France** Александр Иванович Михайловский-Данилевский,1839 Looks at Russia s efforts in the French Campaign against Napoleon s forces during 1814 **The Sicily Campaign** William F. Buckingham,Dudley Giles,2025-05-15 The joint Allied invasion of Sicily the first successful attempt to occupy enemy territory and the precursor for both the invasion of Italy and the later Normandy campaign
