commerce with far reaching effects on their communities Feeding Globalization reshapes our understanding of Indian Ocean and global history by insisting historians should pay attention to the role that food played in supporting other exchanges

**North America's Indian Trade in European Commerce and Imagination, 1580-1850** George Colpitts, 2013-11-29  
In North America's Indian Trade in European Commerce and Imagination Colpitts offers new perspectives on Europe's contact with America by examining the ideas, debates, and questions arising in the trading that linked newcomers with Native people. European capitalization of the Indian Trade beginning in the 16th century forced newcomers to confront the meaning and legitimacy of traditional gift economies and assess the vice and virtue of the commerce they pursued in the New World. Making use of French and English colonization texts, published narratives, and state colonial papers, the author explores how European capital investments, credit, profits, and commercial linkages elaborated and complicated understandings of North American people in the period of colonization.

**The Caddo Chiefdoms** David La Vere, 1998-01-01 For centuries the Caddos occupied the southern prairies and woodlands across portions of Louisiana, Texas, Oklahoma, and Arkansas. Organized into powerful chiefdoms during the Mississippian period, Caddo society was highly ceremonial, revolving around priest chiefs, trade in exotic items, and the periodic construction of mounds. Their distinctive heritage helped the Caddos to adapt after the European invasion and to remain the dominant political and economic power in the region. New ideas, peoples, and commodities were incorporated into their cultural framework. The Caddos persisted and for a time even thrived despite continual raids by the Osages and Choctaws, decimation by diseases, and escalating pressures from the French and Spanish. The Caddo Chiefdoms offers the most complete accounting available of early Caddo culture and history. Weaving together French and Spanish archival sources, Caddo oral history, and archaeological evidence, David La Vere presents a fascinating look at the political, social, economic, and religious forces that molded Caddo culture over time. Special attention is given to the relationship between kinship and trade and to the political impulses driving the successive rise and decline of Caddo chiefdoms. Distinguished by thorough scholarship and an interpretive vision that is both theoretically astute and culturally sensitive, this study enhances our understanding of a remarkable southeastern Native people.
