*Smart Growth for Tennessee Towns and Counties* Mary R. English, Jean H. Peretz, Melissa J. Manderschied, 1999 Downtown America Alison Isenberg, 2009-05-15 Downtown America was once the vibrant urban center romanticized in the Petula Clark song a place where the lights were brighter where people went to spend their money and forget their worries But in the second half of the twentieth century downtown became a shadow of its former self succumbing to economic competition and commercial decline And the death of Main Streets across the country came to be seen as sadly inexorable like the passing of an aged loved one Downtown America cuts beneath the archetypal story of downtown's rise and fall and offers a dynamic new story of urban development in the United States Moving beyond conventional narratives Alison Isenberg shows that downtown's trajectory was not dictated by inevitable free market forces or natural life and death cycles Instead it was the product of human actors the contested creation of retailers developers government leaders architects and planners as well as political activists consumers civic clubs real estate appraisers even postcard artists Throughout the twentieth century conflicts over downtown's mundane conditions what it should look like and who should walk its streets pointed to fundamental disagreements over American values Isenberg reveals how the innovative efforts of these participants infused Main Street with its resonant symbolism while still accounting for pervasive uncertainty and fears of decline Readers of this work will find anything but a story of inevitability Even some of the downtown's darkest moments the Great Depression's collapse in land values the rioting and looting of the 1960s or abandonment and vacancy during the 1970s illuminate how core cultural values have animated and intertwined

with economic investment to reinvent the physical form and social experiences of urban commerce Downtown America its empty stores revitalized marketplaces and romanticized past will never look quite the same again A book that does away with our most clichéd approaches to urban studies Downtown America will appeal to readers interested in the history of the United States and the mythology surrounding its most cherished institutions A Choice Outstanding Academic Title Winner of the 2005 Ellis W Hawley Prize from the Organization of American Historians Winner of the 2005 Lewis Mumford Prize for Best Book in American Planning History Winner of the 2005 Historic Preservation Book Price from the University of Maryland Center for Historic Preservation Named 2005 Honor Book from the New Jersey Council for the Humanities

**Second-Order Preservation** Erica Avrami, 2024-12-17 An urgent appeal to rethink the heritage enterprise A critical reassessment of historic preservation policies in the United States Second Order Preservation brings needed attention to the hierarchical underpinnings and effects of established preservation frameworks Questioning the criteria by which value is ascribed to historic buildings and neighborhoods Erica Avrami works to elucidate and transform how and which claims to place become codified in and reinforced through public policy As she eschews dominant case study approaches that center the individual object of preservation such as a discrete building or site Avrami develops the concept of second order preservation as a means of integrating broader considerations around social justice equitable land use planning and environmental sustainability Ranging from municipal to state to national and international levels of governance her critique of the origins and evolution of heritage policy reveals how this conventional emphasis on the object has contributed to policy tensions and systemic exclusion Stressing the need to reform current preservation practices to serve more diverse publics Avrami encourages a turn to an approach that substantively considers contexts and implications of preservation in the scheme of climate and justice Second Order Preservation maintains the interrelation between theory and practice serving as both a critical reflection and a provocation aimed at advancing a more just set of urban policy agendas [Monthly Catalog of United States Government Publications](#), 1989
