Couples at Work Emily Christopher, 2025-06-23 This

book offers a unique look into how couples manage paid employment housework and childcare The author explores how employment structures policies and practices intersect with individual attitudes to either reinforce or challenge gender inequalities in the domestic sphere through the doing and undoing of gender The book introduces a new typology of fathering as a key mechanism through which policies affect domestic divisions of labour demonstrating how this typology shapes the tasks men undertake and the impact of this on women s ability to act on their preferences about how to combine paid work and home By examining couples negotiations of housework and childcare the book highlights the disparity between men s and women s reports on household duties revealing distinct gendered differences in how these tasks are conceptualized and measured

Working Women and State Policies in Taiwan Fen-ling Chen, 2000-09-29 This book concentrates on exploring the changing relationship between the state and working women in Taiwan by incorporating social economic political and ideological factors into the historical analysis It traces the history of state policies on women s employment the impact of family and gender ideology on women s employment women s roles in capitalist development and the influence of women s movements on policy making in Taiwan Finally it analyses the Taiwanese welfare regime in a gender critical way

Mother-headed Families and Why They Have Increased Ailsa Burns, Cath Scott, Catherine Scott, 2013-06-17 The last two decades have seen a dramatic growth in the proportion of families headed by women Most of these families are poor and include dependent children causing the development of a large underprivileged class across the western world This book explores the causes and implications of this development Because the increase in mother headed families is an international trend an international perspective has been adopted The discussion centers on selected countries where certain trends are most visible Among the western nations particular attention is given to the United States Sweden and the former U S S R because of their high prevalence of mother headed families and trends in some countries with a middling prevalence are also discussed Japan is included because of its combination of advanced industrialization with a non western tradition and a low incidence of mother headed families Accordingly the book considers broad supranational influences and proposes some explanations that draw on material from history anthropology sociology psychology women s studies economics literature and religious studies The authors present definitive information on the incidence of mother headed families across historical epochs and culture groups This includes an exploration of the conditions under which such families have been many or few

and have been treated well or poorly by their communities They also offer some theoretical explanations for the increasing frequency of this family form and consider whether these interpretations fit the facts that have been gathered Finally there is a detailed discussion revealing what these explanations may imply for the future that is whether the number of mother headed families is likely to increase stabilize or decrease
