The Care Of Old Buildings Today A Practical Guide:

The Care of Old Buildings Today Donald William Insall, 1972 **Guidelines for Rehabilitating Old Buildings**
United States. Department of Housing and Urban Development, United States. Office of Archeology and Historic
Preservation, 1977 **The care of old buildings today** Donald W. Insall, 1973 **Maintaining Historic Buildings**, 1990

Northwold Manor Reborn Warwick Rodwell, 2024-08-15 Presents a fascinating superbly illustrated account by one of the UK's leading architectural historians of the history dereliction and restoration of a complex originally Tudor manor house Northwold Manor is a multi period listed building grade II about which almost nothing was known Uninhabited since 1955 it had fallen into a state of extreme dereliction and was beyond economic repair when the author purchased the property in 2014 He and his wife Diane Gibbs embarked on a major restoration that ran for nine years The restoration was carried out as a quasi archaeological operation revealing that the building complex had Tudor origins followed by the construction of a Stuart house with Georgian improvements and a new entertaining suite added in 1814 The Manor with its fine drawing room ballroom and orangery was the grandest house in Northwold and research into the families that occupied it revealed unexpected connections to the French Bourbon Court From the 17th to the 20th century the Carters were the principal owners and a local branch of the family included Howard Carter discoverer of Tutankhamen's tomb This account begins with a topographical study of Northwold and its three medieval manors followed by an exploration of the decline of the Carter family in the late 19th century That triggered the break up of the Northwold Estate in 1919 Passing through several ownerships the Manor was earmarked for demolition in 1961 reprieved it became a furniture store in the 1970s and every room was solidly packed As the roofs failed and water poured in ceilings and floors collapsed carrying with them the stacks of rotting furniture By the late 1990s walls and gables were collapsing too and the local authority attempted to intervene A long struggle to save the Manor ensued finally ending with compulsory purchase in 2013 Although manor houses occur in most English parishes they have received surprisingly little archaeological study Every year hundreds are restored or altered but rarely accompanied by detailed recording or scholarly research and popular television programs reveal the shameful level of destruction that takes place in the name of restoration This is a book like no other the holistic approach to the rehabilitation of Northwold's derelict manor house involving history archaeology architecture and genealogy demonstrates how much can be learned about a building that had never before been studied The project has received several awards

Specifications for Building Conservation Rory Cullen, Rick Meier, 2017-09-19 In Specifications for Building Conservation the National Trust draws on a range of case studies and specifications to provide a much needed guide to specification writing for building conservation Although traditional building accounts for approximately a quarter of all buildings in the UK the old skills and understanding required for their care and maintenance have been increasingly eroded over the last century As the largest heritage charity in Europe the National Trust has a first class reputation for high

standards of conservation and care and in this three volume set the Trust brings together a remarkable pool of expertise to guide conservation professionals and students through the process of successful specification writing This first book focusses on the materials used for the external fabric detailing successful approaches employed by the National Trust at some of their most culturally significant sites A range of studies have been carefully selected for their interest diversity and practicality showcasing projects from stonework repairs on the magnificent Grade I listed Hardwick Hall to the re thatching of the traditional cottages of the Holnicote Estate Complete with a practical Conservation Management Plan checklist this book will enable practitioners to develop their skills allowing them to make informed decisions when working on a range of project types This is the first practical guide to specification writing for building conservation and the advice provided by the National Trust experts will be of interest to any practitioners and students involved in building conservation both in the UK and beyond Profits generated from the sale of this publication will go to the National Trust Building Apprenticeship Scheme This provides placements for traditional skills at National Trust properties

Conservation of Historic Buildings Bernard Feilden, 2007-06-07 Since its publication in 1982 Sir Bernard Feilden's Conservation of Historic Buildings has become the standard text for architects and others involved in the conservation of historic structures Leading practitioners around the world have praised the book as being the most significant single volume on the subject to be published This third edition revises and updates a classic book including completely new sections on conservation of Modern Movement buildings and non destructive investigation The result of the lifetime's experience of one of the world's leading architectural conservators the book comprehensively surveys the fundamental principles of conservation in their application to historic buildings and provides the basic information needed by architects engineers and surveyors for the solution of problems of architectural conservation in almost every climatic region of the world This edition is organized into three complementary parts in the first the structure of buildings is dealt with in detail the second focuses attention on the causes of decay and the materials they affect and the third considers the practical role of the architect involved in conservation and rehabilitation As well as being essential reading for architects and others concerned with conservation many lay people with various kinds of responsibility for historic buildings will find this clearly written jargon free work a fruitful source of guidance and information

Rehabilitation of Historic Buildings Frederic Ellsworth Kleye, 1980 **The Care of Old Buildings Today** Donald William Insall, 1972 **Rehabilitation Guidelines 1982**, 1983
