The Bureaucratic Leviathan A Study In The Sociology Of Communism:

The Bureaucratic Leviathan Maria Hirszowicz,1980 Karl W. Ryavec,2005 This unique study provides an original nitty gritty view of the true nature and operation of Russia s state bureaucracy from the imperial period to the present including the Putin presidency The only book length exploration of the problems and deficiencies of Russian bureaucracy since tsarist times this detailed work sheds important new light on Russian public administration an often overlooked but key barrier to Russian normalization and democratization *Heart of Europe* Norman Davies,2001-05-31 Begins with the period since 1945 and travels back in time to highlight themes and traditions that have influenced present attitudes Analyses the issues arising from the fall of the Eastern Bloc and looks at Poland s future within a political climate of democracy and free market *Soviet Communists in Power* R. Sakwa,1988-06-21 **The Political Economy of Independent Ukraine** H. van Zon,2000-11-30 The Political Economy of Independent Ukraine analyses the reasons for the abysmal economic performance of Ukraine during the 1990s The main thesis is that economic development was blocked by a set of parasitic mechanisms at all levels of the economy that prevented the development of value added economic activities These parasitic mechanisms already developed under Soviet rule beating the system by redistributing goods and services while disregarding formal rules became a widespread practice **Stalinism in Poland, 1944-56** A. Kemp-Welch,1999-12-31 Between the Nazi occupation and the anti communist revolution of 1956 Poland underwent twelve years of Stalinist rule Using recently opened archives historians and social scientists from four countries give the first analysis of the rise and fall of this system The book is organised in three parts Construction external and domestic Conflicts above all communists against the Church and peasantry and Collapse during 1956 An Epilogue reviews the whole period in the light of contemporary political debates *Political Trials in Poland 1981-1986* Andrzej Swidlicki,2024-04-01 First published in 1988 Political Trials in Poland 1981 1986 describes the major political trials which took place in Poland between 1981 and 1986 Based on extensive original research using both official and unofficial information from Poland and interviews with Solidarity activists it shows how the trials constituted an attempt by the Jaruzelski regime to break the back of the independent Solidarity movement by judicial and penal measures It discusses how the authorities abused the law and how the law itself leaves much to be desired and it charts the different human rights that were violated in each case It considers the implications of the abuse of law in this way for the rule of law and the image of the state in communist countries This book will be of interest to students of history and political science *Musical Solidarities* Andrea F. Bohlman,2020 Musical Solidarities Political Action and Music in Late Twentieth Century Poland is a music history of Solidarity the social movement opposing state socialism in 1980s Poland The story unfolds along crucial sites of political action under state socialism underground radio networks the sanctuaries of the Polish Roman Catholic Church labor strikes and student demonstrations and commemorative performances Through innovative close listenings of archival recordings author Andrea F Bohlman uncovers creative sonic practices in bootleg

cassettes televised state propaganda and the unofficial uncensored print culture of the opposition She argues that sound both unified and splintered the Polish opposition keeping the contingent formations of political dissent in dynamic tension By revealing the diverse repertoires singer songwriter verses religious hymns large scale symphonies experimental music and popular song that played a role across the decade she challenges paradigmatic visions of a late twentieth century global protest culture that place song and communitas at the helm of social and political change Musical Solidarities brings together perspectives from historical musicology ethnomusicology and sound studies to demonstrate the value of sound for thinking politics Unfurling the rich soundscapes of political action at demonstrations church services meetings and in detention it offers a nuanced portrait of this pivotal decade of European and global history

Development Betrayed

Richard B Norgaard, 2006-05-18 Modernity promised control over nature through science material abundance through technology and effective government through rational social organization Instead of leading to this promised land it has brought us to the brink of environmental and cultural disaster Why has there been this gap between modernity's aspirations and its achievements Development Betrayed offers a powerful answer to this question Development with its unshakeable commitment to the idea of progress is rooted in modernism and has been betrayed by each of its major tenets Attempts to control nature have led to the brink of environmental catastrophe Western technologies have proved inappropriate for the needs of the South and governments are unable to respond effectively to the crises that have resulted Offering a thorough and lively critiques of the ideas behind development Richard Norgaard also offers an alternative co evolutionary paradigm in which development is portrayed as a co evolution between cultural and ecological systems Rather than a future with all peoples merging to one best way of knowing and doing things he envisions a future of a patchwork quilt of cultures with real possibilities for harmony
