The Capital That Couldnt Stay Put:

The Capital that Couldn't Stay Put June Oxford, 1983 Sacramento's Capitol Park John E. Allen, 2013 Construction on the California State Capitol began during the Civil War using stone brick and iron showing confidence in the future The capitol building showed that California had come a long way from the days of its transient chaotic roots born of the Gold Rush Once the capitol was located in Sacramento in 1854 there was still no guarantee that the city would remain its permanent home When it was completed in 1873 it was the largest structure of its day west of the Mississippi River Its presence has continued to not only dominate the Sacramento landscape for a century and a half but has also come to shape the very outlook and future of Sacramento and of California itself The state capitol and its majestic dome have become the iconic symbol of the city *Sacramento and the Catholic Church* Steven Avella, 2008-08-22 This work examines the interplay between the city of Sacramento and the Catholic Church since the 1850s Avella uses Sacramento as a case study of the role of religious denominations in the development of the American West In Sacramento as in other western urban areas churches brought civility and various cultural amenities and they helped to create an atmosphere of stability so important to creating a viable urban community At the same time churches often had to shape themselves to the secularizing tendencies of western cities while trying to remain faithful to their core values and practices Besides the numerous institutions that the Church sponsored it brought together a wide spectrum of the city's diverse ethnic populations and offered them several routes to assimilation Catholic Sacramentans have always played an active role in government and in the city's economy and Catholic institutions provided a matrix for the creation of new communities as the city spread into neighboring suburbs At the same time the Church was forced to adapt itself to the needs and demands of its various ethnic constituents particularly the flood of Spanish speaking newcomers in the late twentieth century American Capitals Christian Montès, 2014-01-10 State capitals are an indelible part of the American psyche spatial representations of state power and national identity Learning them by heart is a rite of passage in grade school a pedagogical exercise that emphasizes the importance of committing place names to memory But geographers have yet to analyze state capitals in any depth In *American Capitals* Christian Montès takes us on a well researched journey across America from Augusta to Sacramento Albany to Baton Rouge shedding light along the way on the historical circumstances that led to their appointment their success or failure and their evolution over time While all state capitals have a number of characteristics in common as symbols of the state as embodiments of political power and decision making as public spaces with private interests Montès does not interpret them through a single lens in large part because of the differences in their spatial and historical evolutionary patterns Some have remained small while others have evolved into bustling metropolises and Montès explores the dynamics of change and growth All but eleven state capitals were established in the nineteenth century thirty five before 1861 but rather astonishingly only eight of the fifty states have maintained their original capitals Despite their revered status as the most monumental and historical cities in

America capitals come from surprisingly humble beginnings often plagued by instability conflict hostility and corruption Mont s reminds us of the period in which they came about an era of pioneer and idealized territorial vision coupled with a still evolving American citizenry and democracy Religions and Missionaries Around the Pacific, 1500-1900 Tanya Storch,2006 This volume takes an interdisciplinary approach to the study of religious cultural exchanges around the Pacific in the period 1500 1900 relating these to economic and political developments and to the expansion of communication across the area It brings together twenty two pieces from diaries of religious exiles and missionary field observations to studies from a variety of academic disciplines so enabling a multitude of voices to be heard The articles are grouped in sections dealing with the Islamic period the Iberian Catholic period the Jewish diaspora the Russian Orthodox church the epoch of Protestant culture and finally Asian immigrant religions in the West a substantial introduction contextualizes these chapters in terms of both historical and contemporary approaches ***Rooted in Barbarous Soil*** Kevin Starr,Richard J.
