**Managing and Working in Project Society** Rolf A. Lundin, Niklas Arvidsson, Tim Brady, Eskil Ekstedt, Christophe Midler, Jörg Sydow, 2015-07-02 In this book leading authorities on project organizing explore the growing deployment of projects and other types of temporary organizations with a focus on the challenges created by projectification. The way projects are coordinated and handled influences the success of innovation and change within organizations and is critical for strategic development in our societies yet it is often at odds with the institutions of traditional industrial society. Drawing on both theoretical perspectives and real world cases this book sheds light on the transformation toward a project society and explores the effects opportunities and conflicts it has created.
