A Novel ... Translated by Naomi Walford Mika Waltari,Naomi WALFORD,1949 Hollywood's Egyptian Dreams. The Visual Language, Concepts and Costumes in Egyptian Monumental Films Marie Elisabeth Habicht,Michael E.

Habicht,2022-11-22 Monumental films strongly shape our image of the ancient world today Shortly after the emergence of cinematic art Ancient Egypt also became the subject of cinematic works As with the Roman film the decisive story plots and motifs were still being developed in the silent film era and have had a significant influence on subsequent generations of films The book examines the visual language plot concepts and costumes of the most expensive film genre An extensive list of films is analysed and related to contemporary findings on the dress and jewellery of Ancient Egypt *Ethnicity and Identity in Ancient Israel* Kenton L. Sparks,1998 From the introduction When we speak of ethnicity we bring into view a particular kind of sentiment about group identity wherein groups of individuals view themselves as being alike by virtue of their common ancestry It is something of a truism to point out that ethnicity has played an important role in the history of Judaism both in the postbiblical era and prior to it The reason for this interest is twofold First in virtually every discipline of the humanities there seems to be a general unhappiness with the superficial way that scholars have handled the issues of culture and identity More specifically with respect to ancient Israel recent biblical scholarly activity both literary and historical has raised serious doubts about the supposed origins and antiquity of Israelite ethnicity With this agenda in view Kent Sparks provides a summary of current studies in ethnicity and ethnic identity then moves to a discussion of Israel s ancient Near Eastern context and expressions of ethnic identity in the written remains from surrounding nations Turning next to ancient Israel itself he examines texts generally considered early in Israel s history for information relevant to Israel s ethnic identity Sparks then investigates the witness of the prophets and the historical materials relating to the Judean monarchy and the exilic period looking for expressions of ethnic sentiment His research will likely prove to be the foundation on which future study of the topic will be built **Tale of Sinuhe** Scriptural Research Institute,1901 The Tale of Sinuhe also called the Story of Sanhat is one of the most popular stories that has survived to the present from the Egyptian Middle Kingdom Dozens of fragments of copies have been found which is unusual and speaks volumes of how popular it was in the Middle Kingdom Egyptologists are divided on how much of it is fictional with some claiming it is a historical text while others claim it is

entirely fictional The copies that have been found are not identical with sections of text that were either added to the original or dropped from the original and therefore it was altered over time As a result the general view within Egyptology is that it likely started as a historical text that was embellished by later scribes Unfortunately the original author either did not see a reason to explain what had happened before Sinuhe s flight from Egypt or it was removed from the copies that have survived to the present Sinuhe makes a point of claiming that he was not deserting the army in Libya but later the king states that he knows that Sinuhe was not plotting against him when he fled Egypt This suggests that someone had conspired against Senusret I at the beginning of his reign however the events of this plot have not survived to the present It isn t clear if the details were removed out of respect for the king or if the author simply expected everyone to know what had happened The identity of Sinuhe is also somewhat unclear from the surviving texts however he appears to be a relative of the Queen who had grown up with the future king Senusret I He may have been the army commander sent to conquer the Libyans at the end of Amenemhat I s reign as he begins his story there however he could have simply been a lieutenant As a member of the nobility he was unlikely to be a common soldier Later in Syria he claimed to be a great hero defeating many enemies on behalf of the local king suggesting he was well trained in combat

Egyptian Legends and Folktales Omar Khalil, In ancient Egyptian mythology the creation of the world was a profound and mystical event explained through various narratives rooted in different regions These myths aimed to answer fundamental questions about existence the origins of the gods and humanity s place within the universe Among the most significant are the myths from Heliopolis Hermopolis and Memphis each offering a unique perspective on creation The Ennead of Heliopolis tells the story of creation centered around Atum the first god who emerged from the chaotic waters of Nun Atum often depicted as a self created deity brought forth the twin deities Shu god of air and Tefnut goddess of moisture by spitting or coughing them out These two then gave birth to Geb the earth god and Nut the sky goddess From their union came Osiris Isis Set and Nephthys forming the Ennead a group of nine deities This myth emphasizes the power of creation through divine will and the subsequent emergence of order from chaos In Hermopolis the Ogdoad myth presents a different version of creation Here eight primordial deities existed in male and female pairs representing elements like darkness water and chaos These pairs were Amun and Amaunet Heh and Hauhet Kek and Kauket and Nun and Naunet They resided in the watery abyss before merging their powers to create a primordial mound from which the sun god Ra emerged illuminating the world This story highlights the collaboration of fundamental forces to bring forth light and life

Canaanites, Chronologies, and Connections Susan L. Cohen,2018-07-17 The beginning of the Middle Bronze Age MB IIA in Canaan ca 1950 1740 B C E set the stage for many of the cultural political and economic institutions that shaped the ancient Near East Particular theoretical models for the analysis of complex societies are used in this study to examine textual pictorial and archaeological evidence relating to the nature and organization of MB IIA Canaan The written and pictorial evidence pertaining to Egyptian Canaanite contact indicates a fluid relationship that changed over time in response to changing social political and economic developments in both cultures As a result Egyptian policy toward Canaan was multifaceted including approaches ranging from the use of military force to magical rites The analysis of MB IIA site distribution indicates that Canaanite settlement first developed in areas on the coast most conducive to agricultural growth It then progressed according to a dendritic pattern of organization along the east west wadi systems into the interior in

response to a growing demand for resources and raw materials fueled in part by contact with Egypt and the international world of the eastern Mediterranean Chronological correlations between the Canaanite settlement systems and Middle Kingdom Egypt also indicate that the beginning of the MB IIA in Canaan dates well into the Middle Kingdom rather than being contemporary with its beginnings as previously understood Findings concerning the Canaanite Egyptian relationship Canaanite site distribution and chronological connections between these two regions all illustrate the development of Canaan from a society in the first stages of urbanization to a fully urbanized one setting the stage for the rise of the Hyksos to power in Egypt
