Slave Soldiers Islam The Genesis Of A Military System:

Slave Soldiers and Islam Daniel Pipes,1981 **Slave Soldiers and Islam** Daniel Pipes,1981 De islamiske religiøse idealer medførte at muslimerne ikke gerne engagerede sig i krig eller regeringsanliggender hvorfor de gennem tiderne systematisk skaffede sig udenlandske slaver som blev uddannet og anvendt som professionelle soldater første gang omkring 815-820 f.eks. er det berømte tyrkiske janitscharkorps der bestod af osmanniske elitesoldater skabt i det sene 1300 tal af kristne krigsfanger **Egypt and the Eastern Mediterranean World** Jelle Bruning, Janneke H. M. de Jong, Petra M. Sijpesteijn, 2022-12-15 During the period 500-1000 CE Egypt was successively part of the Byzantine Persian and Islamic empires All kinds of events developments and processes occurred that would greatly affect its history and that of the eastern Mediterranean in general This is the first volume to map Egypt's position in the Mediterranean during this period Drawing on a wide range of disciplines the individual chapters detail its connections with imperial and scholarly centres its role in cross regional trade networks and its participation in Mediterranean and Near Eastern cultural developments including their impact on its own literary and material production With unparalleled detail the book tracks the mechanisms and structures through which Egypt connected politically economically and culturally to the world surrounding it Islam's Black Slaves Ronald Segal, 2002-02-09 Traces the history of the Islamic slave trade from its inception in the seventh century through its history in China India Iran Turkey Egypt Libya and Spain **Travellers, Intellectuals, and the World Beyond Medieval Europe** James Muldoon, 2017-05-15 As the articles reprinted in this volume demonstrate medieval men and women were curious about the world around them They wanted to hear about distant lands and the various peoples who inhabited them Travellers tales factual such as that of Marco Polo and fictional such as Chaucer's famous pilgrimage entertained audiences across Europe Colorful mappaemundi placed in churches illustrated these other lands and peoples for those who could not read Medieval travel literature was not only entertaining however it was also informative generating proto ethnological information about the world beyond Latin Christendom that provided useful guidance for those such as merchants and missionaries who intended to travel abroad Merchants learned about safe travel routes to foreign lands about dangers to be avoided on the roads and at sea about cultural practices that might interfere with their attempts at trade and about products that would be suitable for foreign markets Churchmen read the reports of missionaries to understand the beliefs of Muslims and other non believers in order to debate with them and to learn their languages These articles illustrate how travellers reports in turn shaped the European response to the world beyond Europe and are set in context in the editor's introduction **The Mercenary Mediterranean** Hussein Fancy, 2016-03-22 Sometime in April 1285 five Muslim horsemen crossed from the Islamic kingdom of Granada into the realms of the Christian Crown of Aragon to meet with the king of Aragon who showered them with gifts including sumptuous cloth and decorative saddles for agreeing to enter the Crown's service They were not the first or only Muslim soldiers to do so Over the course of the thirteenth and fourteenth centuries the Christian

kings of Aragon recruited thousands of foreign Muslim soldiers to serve in their armies and as members of their royal courts Based on extensive research in Arabic Latin and Romance sources *The Mercenary Mediterranean* explores this little known and misunderstood history Far from marking the triumph of toleration Hussein Fancy argues the alliance of Christian kings and Muslim soldiers depended on and reproduced ideas of religious difference Their shared history represents a unique opportunity to reconsider the relation of medieval religion to politics and to demonstrate how modern assumptions about this relationship have impeded our understanding of both past and present **The Pursuit of Power** William H.

McNeill,2024-05-31 Remind s us that all humankind has a shared past and particularly with regard to its choice of weapons and warfare a shared stake in the future Stuart Rochester *The Washington Post Book World* In this magnificent synthesis of military technological and social history William H McNeill explores a whole millennium of human upheaval and traces the path by which we have arrived at the frightening dilemmas that now confront us McNeill moves with equal mastery from the crossbow banned by the Church in 1139 as too lethal for Christians to use against one another to the nuclear missile from the sociological consequences of drill in the seventeenth century to the emergence of the military industrial complex in the twentieth His central argument is that a commercial transformation of world society in the eleventh century caused military activity to respond increasingly to market forces as well as to the commands of rulers Only in our own time suggests McNeill are command economies replacing the market control of large scale human effort *The Pursuit of Power* does not solve the problems of the present but its discoveries hypotheses and sheer breadth of learning do offer a perspective on our current fears and as McNeill hopes a ground for wiser action Mr McNeill s comprehensiveness and sensitivity do for the reader what Henry James said that Turgenev s conversation did for him they suggest all sorts of valuable things This narrative of rationality applied to irrational purposes and of ingenuity cannibalizing itself is a work of clarity which delineates mysteries The greatest of them to my mind is why human beings have never learned to cherish their own species Naomi Bliven *The*

New Yorker *Slaves of Sultans* Alan Machado (Prabhu),2015-12-24 *Slaves of Sultans* is a vivid descent into the turbulent period when Eupropean States fought Indian rulers with arms and ideologies for India s riches and people *Studies on the Mongol Empire and Early Muslim India* Peter Jackson,2023-05-31 The first section of this volume brings together five studies on the Mongol empire The accent is on the ideology behind Mongol expansion on the dissolution of the empire into a number of rival khanates and on the relations between the Mongol regimes and their Christian subjects within and potential allies outside Three pieces in the second section relate to the early history of the Delhi Sultanate with particular reference to the role of its Turkish slave ghulam officers and guards while a fourth examines the collapse in 1206 15 of the Ghurid dynasty whose conquests in northern India had created the preconditions for the Sultanate s emergence The final three papers are concerned with Mongol pressure on Muslim India and the capacity of the Delhi Sultanate to withstand it **Slaves and Slavery in Africa** John Ralph Willis,2014-06-03 This Volume One of a series on slaves and slavery in Muslim Africa First

published in 1985 it looks at Islam and the ideology of enslavement Slaves of African origin formed a vital thread in the living lines of economic production in the Near and Middle East and formed the cord of economic activity in Islamic Africa itself Slaves sustained the salt pits and date palms of desert societies they worked the spice plantations of the East African littoral became the porters and placemen in the trans Saharan trade and they constituted the entourage the veritable wealth and currency of the notables of Islamic societies **Democracy's Slaves** Paulin Ismard,2017-01-09 Challenging the modern belief that democracy and bondage are incompatible Paulin Ismard directs our attention to ancient Athens where the functioning of civic government depended on skilled knowledgeable experts who were literally public servants slaves owned by the city state rather than by private citizens **Routledge Revivals: Medieval Islamic Civilization (2006)** Josef Meri,2018-01-12 Islamic civilization flourished in the Middle Ages across a vast geographical area that spans today s Middle and Near East First published in 2006 Medieval Islamic Civilization examines the socio cultural history of the regions where Islam took hold between the 7th and 16th centuries This important two volume work contains over 700 alphabetically arranged entries contributed and signed by international scholars and experts in fields such as Arabic languages Arabic literature architecture history of science Islamic arts Islamic studies Middle Eastern studies Near Eastern studies politics religion Semitic studies theology and more Entries also explore the importance of interfaith relations and the permeation of persons ideas and objects across geographical and intellectual boundaries between Europe and the Islamic world This reference work provides an exhaustive and vivid portrait of Islamic civilization and brings together in one authoritative text all aspects of Islamic civilization during the Middle Ages Accessible to scholars students and non specialists this resource will be of great use in research and understanding of the roots of today s Islamic society as well as the rich and vivid culture of medieval Islamic civilization **Slavery from Roman Times to the Early Transatlantic Trade** William D. A Cumulative Bibliography of Medieval Military History and Technology Kelly DeVries,2001-11-01 There is perhaps no other more lively area for study in medieval history than medieval military history with its attendant and complementary field the history of medieval military technology In the past twenty years it seems that more major scholarly inroads have been made in this field than in any other historical genre of medieval studies or chronological period of military history What this has meant is that it is now more difficult to keep up with all of the trends and sources in the field than ever before Hence the need for a reference work which covers what has previously been written and which in turn can assist the scholar both the more experienced academic and the beginner to improve his or her work in medieval military history or the history of medieval military technology Utilizing library catalogues bibliographies and footnotes this bibliography has compiled the most complete list of secondary references to works in medieval military history and the history of military technology It keeps fairly strictly to a geography which centers on conventional medieval boundaries Europe Byzantium and the Middle East However the chronology does differ from the conventional medieval dates Because of its influence on the

early Middle Ages references to Late Antiquity especially to the military history and technology of the third and fourth century Roman Empire have been included For the opposite reason the influence of the Middle Ages on the sixteenth and early seventeenth centuries references to military history and technology up to 1648 have been included as well This is especially important in the study of the Ottoman Turkish Wars and Arms and Armor where the end of the fifteenth century as a chronological terminus makes little sense

Daily Life in the Medieval Islamic World James E. Lindsay, 2005-06-30 From the time of its birth in Mecca in the 7th century C E Islam and the Islamic world rapidly expanded outward extending to Spain and West Africa in the west and to Central Asia and the Indian Subcontinent in the east An examination of the daily life in these Islamic regions provides insight into a civilized powerful and economically stable culture where large metropolitan centers such as Damascus Baghdad and Cairo thrived in many areas including intellectual and scientific inquiry In contrast with medieval Europe there is little common knowledge in the West of the culture and history of this vibrant world as different from our own in terms of the political religious and social values it possessed as it is similar in terms of the underlying human situation that supports such values This book provides an intimate look into the daily life of the medieval Islamic world and is thus an invaluable resource for students and general readers alike interested in understanding this world so different and yet so connected to our own Chapters include discussions of the major themes of medieval Islamic history Arabia the world of Islamic origins warfare and politics the major cities of Damascus Baghdad and Cairo religious rituals and worship and a section on curious and entertaining information Author James E Lindsay further provides a focused look at the daily lives of urban Muslims during this time period and of their interactions with Jews Christians and other Muslims Timelines tables including a calendar conversion to align the Islamic lunar and the Christian solar dates and a dynastic table highlighting the major genealogies of the ancient ruling families a bibliography and a glossary of important dates and technical terms are also provided to assist the reader

The Myth of the Andalusian Paradise Dario Fernandez-Morera, 2023-07-11 A finalist for World Magazine s Book of the Year Scholars journalists and even politicians uphold Muslim ruled medieval Spain al Andalus as a multicultural paradise a place where Muslims Christians and Jews lived in harmony There is only one problem with this widely accepted account it is a myth In this groundbreaking book Northwestern University scholar Dar o Fern ndez Morera tells the full story of Islamic Spain The Myth of the Andalusian Paradise shines light on hidden history by drawing on an abundance of primary sources that scholars have ignored as well as archaeological evidence only recently unearthed This supposed beacon of peaceful coexistence began of course with the Islamic Caliphate s conquest of Spain Far from a land of religious tolerance Islamic Spain was marked by religious and therefore cultural repression in all areas of life and the marginalization of Christians and other groups all this in the service of social control by autocratic rulers and a class of religious authorities The Myth of the Andalusian Paradise provides a desperately needed reassessment of medieval Spain As professors politicians and pundits continue to celebrate Islamic Spain

for its multiculturalism and diversity Fern ndez Morera sets the historical record straight showing that a politically useful myth is a myth nonetheless **Slaves of the Shah** Sussan Babaie, Kathryn Babayan, Ina Baghdiantz-MacCabe, Mussumeh Farhad, 2004-07-23 The Savafid dynasty represented in political cultural and economic terms the pinnacle of Iran s power and influence in its early modern history The evidence for this the creation of a nation state military expansion and success economic dynamism and the exquisite art and architecture of the period is well known What is less understood is the extent to which the Safavid success depended on and was a product of a class of elite originating from outside Iran the slaves of Caucasian descent and the Armenian merchants of New Julfa in the city of Isfahan It was these groups bolstered by Shah Abbas the Great 1589 1629 and his successors who became the pillars of Safavid political economic and cultural life This book describes how these elites following their conversion to Islam helped to form a new language of Savafid absolutism It documents their contributions financed by the Armenian trade in Safavid silk to the transformation of Isfahan s urban artistic and social landscape The insights provided here into the multi faceted roles of the Safavid royal household offer an original and comprehensive study of slave elites in imperial systems common to the political economies of the Malmuk Ottoman and Safavid courts as well as contributing to the earlier Abbasid Ghaznavid and Saljuq eras As such this book makes an original and important contribution to our understanding of the history of the Islamic world from the 16th to the 18th centuries and will prove invaluable for students and scholars of the period **World History of Warfare** Christon I. Archer, 2002-01-01 This book provides a wide ranging and comprehensive coverage of warfare across times and cultures Its main strengths are its ability to provide context for each period discussed comparison between developments in Europe Asia and the colonized world and critical and up to date bibliographies that allow the reader to pursue subjects in greater depth Jacket flap **The Cambridge History of War: Volume 2, War and the Medieval World** David A. Graff, 2020-10-01 Volume II of The Cambridge History of War covers what in Europe is commonly called the Middle Ages It includes all of the well known themes of European warfare from the migrations of the Germanic peoples and the Vikings through the Reconquista the Crusades and the age of chivalry to the development of state controlled gunpowder wielding armies and the urban militias of the later middle ages yet its scope is world wide ranging across Eurasia and the Americas to trace the interregional connections formed by the great Arab conquests and the expansion of Islam the migrations of horse nomads such as the Avars and the Turks the formation of the vast Mongol Empire and the spread of new technologies including gunpowder and the earliest firearms by land and sea *Turks and Khazars* Peter B. Golden, 2024-12-11 This second collection of studies by Peter Golden continues his explorations of the T rk Empire mid sixth to mid eighth centuries the stateless polities that appeared after its collapse and of the Khazar Qaghanate mid seventh century to ca 965 969 its imperial successor state in the western Eurasian steppes Building on earlier traditions the T rks created a paradigm for state building in the Eurasian steppes that persisted with variations into the early modern era Examined here are issues relating to the origins of and myths

associated with the rise of the Turks and the systems of governance in the Turk and subsequent Turkic polities of Eurasia. The institution of slavery and its role in Turkic nomadic societies receives significant attention. In addition, these essays document the cultural interactions between the Turkic nomads of pre-Chinggisid Eurasia and neighbouring settled societies such as the Kievan Rus, Georgia, and the Islamic world. Included here are studies dealing with the hitherto neglected role of Khazars in the Islamic ghulām slave soldier system. Special attention is paid to the unique traditions of sacral rulership among the Khazars and an examination of their conversion to Judaism set within a larger Eurasian context.
