and Policing in Rural and Small-Town America Ralph A. Weisheit, David N. Falcone, L. Edward Wells, 2005-09-21 While most researchers see the urban setting as being the only laboratory for studying crime problems throughout the United States *Crime and Policing in Rural and Small Town America* directly challenges this notion with an authoritative look at crime and the criminal justice system in rural America today The assumption that rural crime is rare and comparable across various communities has led to incompatible theories and irrelevant practices In order to transform this misconception the Third Edition offers a clear outline of the definition of rural and provides a vital argument for why rural and small town crime should be studied more than it is The book also explores the individual nature of issues that emerge in these communities including illegal drug production domestic violence agricultural crimes rural poverty and gangs in addition to the training needs of rural police probation in rural areas and rural jails and prisons Responding to rural crime requires an awareness of its context and how justice is carried out as well as an appreciation of how features vary across rural areas Understanding the relationships among crime geography and culture in the rural setting can reveal useful ideas and implications for crime and justice in communities across the United States [Society and the Policeman's Role](#) Maureen E. Cain, 2015-07-24 The

role of the policeman in the community and attitudes towards the police are now matters of active public concern In this important and enlightening study first published in 1973 Maureen Cain gives an account of how the police operate in the United Kingdom Her book will be of great value to sociologists criminologists and policemen alike **Crime and Policing in Rural and Small-town America** Ralph A. Weisheit, 1995 [Community Policing in Indigenous Communities](#) Mahesh K. Nalla, Graeme R. Newman, 2013-03-04 Indigenous communities are typically those that challenge the laws of the nation states of which they have become often very reluctantly a part Around the world community policing has emerged in many of these regions as a product of their physical environments and cultures Through a series of case studies *Community Policing in Indigenous Communities* explores how these often deeply divided societies operate under the community policing paradigm

Drawing on the local expertise of policing practitioners and researchers across the globe the book explores several themes with regard to each region How community policing originated or evolved in the community and how it has changed over time The type of policing style used whether informal or formal and uniformed or non uniformed whether partnerships are developed with local community organizations or businesses and the extent of covert operations if any The role played by community policing in the region including the relative emphasis of calls for service the extent to which advice and help is offered to citizens whether local records are kept of citizen movement and locations and investigation and arrest procedures The community s special cultural or indigenous attributes that set it apart from other models of community policing Organizational attributes including status in the hierarchy of control within the regional or national organization of policing The positive and negative features of community policing as it is practiced in the community Its effectiveness in reducing and or preventing crime and disorder The book demonstrates that community policing cannot be imposed from above without grassroots input from local citizens It is a strategy not simply for policing with consent but for policing in contexts where there is often little if any consent It is an aspirational practice aimed to help police and communities within contested contexts to recognize that positive gains can be made enabling communities to live in relative safety **Criminal Justice**

2000: Measurement and analysis of crime and justice ,2000 *Citizens, Cops, and Power* Steve Herbert,2009-11-21 Politicians citizens and police agencies have long embraced community policing hoping to reduce crime and disorder by strengthening the ties between urban residents and the officers entrusted with their protection That strategy seems to make sense but in *Citizens Cops and Power* Steve Herbert reveals the reasons why it rarely if ever works Drawing on data he collected in diverse Seattle neighborhoods from interviews with residents observation of police officers and attendance at community police meetings Herbert identifies the many obstacles that make effective collaboration between city dwellers and the police so unlikely to succeed At the same time he shows that residents pragmatic ideas about the role of community differ dramatically from those held by social theorists Surprising and provocative *Citizens Cops and Power* provides a critical perspective not only on the future of community policing but on the nature of state society relations as well

Holding down the Fort Aaron Bielejewski, 2022-11-26 This Open Access book questions the relationship between institutionalized images and understandings of policing the monolithic ideas common to most if not all Western law enforcement agencies and contextual situative and local interactions where the human representatives of policing street level officers come into contact with residents The political and theoretical association of specific forms of Western policing with democratic society can be illustrated in the case of German integration narratives of reform and essentially forging new democratic police agencies in the new German states stand at odds with much of the experience and statements of officers who continued to serve following Re Unification Officers who present their works primarily in terms of their local responsibilities expectations and more specifically to their unique and individual relationship and connection to their communities downplay the relevance of high level policing policy Based on a two year ethnographic study of policing in a rural county in the German state of Brandenburg this book explores the local nature of policing both in terms of how police officers imagine their communities to be and with reference to broader societal expectations and assumptions of what police essentially are can effectively do and should effectively do
