## Still No Problem Here:

**No Problem Here** Neil Davidson, Minna Liinpää, Maureen McBride, Satnam Virdee, 2018-03-15 Does Scotland have a problem with racism With its civic nationalism and welcoming attitude towards migrants and refugees Scotland is understood to be relatively free of structural and institutional racism As the contributors to this book show such generalisations fail to withstand serious investigation Their research into the historical record and contemporary reality tells a very different story Opening up a debate on a subject that has been shut down for too long No Problem Here gathers together the views of academics activists and anti racism campaigners who argue that it is vital that the issue of racism be brought into the centre of public discourse Scotland s role in maintaining and extending slavery across the British Empire is finally beginning to receive the attention it deserves Yet there is much more that needs to be said about racism in Scotland today **PSA 1974** Robert S. Cohen, C.A. Hooker, Alex C. Michalos, J. van Evra, 2012-12-06 For this book we have selected papers from symposia and contributed sessions at the fourth biennial meeting of the Philosophy of Science Association held at the University of Notre Dame on November 13 1974 The meeting was lively and well attended and we regret that there was no way to record here the many stimulating discussions after the papers and during the informal hours We also regret that we had insufficient space for all the contributed papers Even more some of the symposia were not available those on systems and decision theory c W Churchman P Suppes I Levi and on the Marxist philosophy of science M W Wartofsky R S Cohen E N Hiebert Unhappily several individual contributions to other symposia were likewise not available I Velikovsky in the session on his own work and the politics of science D Finkelstein in the session on quantum logic Memorial minutes were read for Alan Ross Anderson prepared by Nuel Belnap and for Imre Lakatos prepared by Paul Feyerabend They initiate this volume of philosophy of science in the mid seventies The Palgrave Handbook of Race and Ethnic Inequalities in Education P. Stevens, A. Dworkin, 2014-01-22 This comprehensive state of the art reference work provides the first systematic review to date of how sociologists have studied the relationship between race ethnicity and educational inequality over the last thirty years in eighteen different national contexts *'Twas Brillig* Sher Dawn, 2017-05-23 *'Twas Brillig* in an adult fantasy spin off of Alices Adventures in Wonderland and Through the Looking Glass After a knock on her head from a school fight Ceila Bidle finds she can pull the original Alice Liddle for whom the story was first written stories for her through her bedroom mirror Neither girl is happy with her own period of time Ceila becomes involved with a debate team meeting for the National Youth Challenge to revise the constitution of the United States Also Ceila and Alice are tutors at the wild palace of a magical red witch named Emma The girls decide to introduce democracy to Wonderland as they practice against both Victorian mores and class warfare in the United States The heads are gonna roll *Over the Falls* Rebecca Hodge, 2021-09-07 For fans of *The River at Night* Rebecca Hodge s next thrilling read explores how far one woman will go to find her sister Bryn Collins moved to the Eastern Tennessee mountains and never looked back when fourteen years ago her fianc Sawyer jilted her for

her despised sister Del Sawyer was later killed in a plane crash but Bryn has never been able to forgive her sister for what she did and instead chooses to spend her days in the idyllic beauty of the rugged landscape Although a life threatening accident ended her days navigating the perils of whitewater she still finds refuge kayaking in the local lakes But Bryn's placid life hits the skids when an unwelcome cast of characters reenters her life Del goes mysteriously missing leading her fourteen year old son Josh to Bryn's doorstep for help Then Carl a trouble making outcast the sisters knew years before is desperate to find Del because she owes him money pulling Bryn into the orbit of his schemes On the hunt for Del Bryn and Josh follow an ever elusive trail to Colorado and at the annual Mountain Games competition in Vail they finally confront the truth For Bryn all roads lead to the river and on vicious Colorado whitewater she is forced to muster every ounce of courage and strength she has to piece her family back together again

*The Consciousness Paradox* Rocco J. Gennaro, 2012 A defense of a version of the higher order thought HOT theory of consciousness with special attention to such topics as concepts and animal consciousness Consciousness is arguably the most important area within contemporary philosophy of mind and perhaps the most puzzling aspect of the world Despite an explosion of research from philosophers psychologists and scientists attempts to explain consciousness in neurophysiological or even cognitive terms are often met with great resistance In *The Consciousness Paradox* Rocco Gennaro aims to solve an underlying paradox namely how it is possible to hold a number of seemingly inconsistent views including higher order thought HOT theory conceptualism infant and animal consciousness concept acquisition and what he calls the HOT brain thesis He defends and further develops a metapsychological reductive representational theory of consciousness and applies it to several importantly related problems Gennaro proposes a version of the HOT theory of consciousness that he calls the wide intrinsicity view and shows why it is superior to various alternatives such as self representationalism and first order representationalism HOT theory says that what makes a mental state conscious is that a suitable higher order thought is directed at that mental state Thus Gennaro argues for an overall philosophical theory of consciousness while applying it to other significant issues not usually addressed in the philosophical literature on consciousness Most cognitive science and empirical works on such topics as concepts and animal consciousness do not address central philosophical theories of consciousness Gennaro's integration of empirical and philosophical concerns will make his argument of interest to both philosophers and nonphilosophers
