The Nature Structure And Function Of The Church In William Of Ockham:

The nature, structure, and function of the Church in William of Ockham John Joseph Ryan,1979 *The Nature, Structure, and Function of the Church in William of Ockham* John Joseph Ryan,1979 [The Nature, Structure and Function of the Church in William of Ockham](#) John Julian Ryan,1979 **Conciliarism and Church Law in the Fifteenth Century** Thomas E. Morrissey,2024-10-28 Crises are never the best of times and the era of the Great Western Schism 1378 1417 easily qualifies as one of the worst of times As a professor of canon law at the University of Padua and later cardinal and as a major theorist in the conciliarist movement Franciscus Zabarella 1360 1417 tried to do what a good legal mind does find and explicate a viable and legal solution to the crises of his time a solution that would stand up in his own era and for the generations that followed In this volume Thomas Morrissey looks at what he said wrote and did and places him and his thought in the context of the late medieval and early modern era how he reflected that world and how he influenced it Particular studies elucidate what he wrote on the authority and on the duty of the people in power what they could do and should do as well as what they should not do They also show how he explored the area of early constitution law and human rights in civil and religious society and that his work leads down the road to our modern constitutional democratic societies The volume includes two previously unpublished studies on the situation in Padua c 1400 and on a sermon from 1407 together with an introduction contextualizing the articles **A Reader in Ecclesiology** Bryan P. Stone,2016-03-16 This Reader presents a diverse and ecumenical cross section of ecclesiological statements from across the twenty centuries of the church s existence It builds on the foundations of early Christian writings illustrates significant medieval reformation and modern developments and provides a representative look at the robust attention to ecclesiology that characterizes the contemporary period This collection of readings offers an impressive overview of the multiple ways Christians have understood the church to be both the body of Christ and at the same time an imperfect social and historical institution constantly subject to change and reflective of the cultures in which it is found This comprehensive survey of historical ecclesiologies is helpful in pointing readers to the remarkable number of images and metaphors that Christians have relied upon in describing the church and to the various tensions that have characterized reflection on the church as both united and diverse community and institution visible and invisible triumphant and militant global and local one and many Students clergy and all interested in Christianity and the church will find this collection an invaluable resource [Church and Crown in the Fourteenth Century](#) H.S. Offler,A.I. Doyle,2018-10-24 This title was first published in 2000 This second volume of studies by the late Professor Offler looks first at the interaction of the temporal and spiritual powers in Germany Italy France and England especially in the earlier 14th century A second focus is on the political works of William of Ockham the editions of which represented a major part of Offler s work Particular articles include an examination of the government of late medieval Germany and the publication of two sermons by Pope Clement VI The final piece hitherto unpublished provides an

edition and study of the Latin version of the victory sermon of Thomas Bradwardine delivered in late 1346 before Edward III and the English army at the siege of Calais The introduction by L E Scales discusses the present state of Offler s scholarship and is followed by a complete bibliography of his publications Oxford Studies in Medieval Philosophy Peter King,Martin Pickavé,2025-02-28 Oxford Studies in Medieval Philosophy showcases the best scholarly research in this flourishing field The series covers all aspects of medieval philosophy including the Latin Arabic and Hebrew traditions and runs from the end of antiquity into the Renaissance It publishes new work by leading scholars in the field and combines historical scholarship with philosophical acuteness The papers will address a wide range of topics from political philosophy to ethics and logic to metaphysics OSMF is an essential resource for anyone working in the area **Christian Community in History Volume 1**

Roger D. Haight,2004-09-16 Drawing upon the methodology developed in his Dynamics of Theology 1990 and exemplified in Jesus Symbol of God 1999 Roger Haight in this magisterial work achieves what he calls an historical ecclesiology or ecclesiology from below In contrast to traditional ecclesiology from above which is abstract idealist and ahistorical ecclesiology from below is concrete realist and historically conscious In this first of two volumes Haight charts the history of the church s self understandings from the origins of the church in the Jesus movement to the late Middle Ages In volume 2 Haight develops a comparative ecclesiology based on the history and diverse theologies of the worldwide Christian movement from the Reformation to the present While the ultimate focus of the work falls on the structure of the church and its theological self understanding it tries to be faithful to the historical social and political reality of the church in each period

Philosophical Writings William (of Ockham),William of Ockham,1990-01-01 This volume contains selections of Ockham s philosophical writings which give a balanced introductory view of his work in logic metaphysics and ethics This edition includes textual markings referring readers to appendices containing changes in the Latin text and alterations found in the English translation that have been made necessary by the critical edition of Ockham s work published after Boehner prepared the original text The updated bibliography includes the most important scholarship produced since publication of the original edition Christian Community in History Volume 1 Roger Haight,2004-09-16 Drawing upon the methodology developed in his Dynamics of Theology 1990 and exemplified in Jesus Symbol of God 1999 Roger Haight in this magisterial work achieves what he calls an historical ecclesiology or ecclesiology from below In contrast to traditional ecclesiology from above which is abstract idealist and ahistorical ecclesiology from below is concrete realist and historically conscious In this first of two volumes Haight charts the history of the church s self understandings from the origins of the church in the Jesus movement to the late Middle Ages In volume 2 Haight develops a comparative ecclesiology based on the history and diverse theologies of the worldwide Christian movement from the Reformation to the present While the ultimate focus of the work falls on the structure of the church and its theological self understanding it tries to be faithful to the historical social and political reality of the church in each period
