Chess Theory from Stamma to Steinitz, 1735-1894 Frank Hoffmeister, 2023-08-11 Most chess biographies present the games of famous players but not their writings Filling that gap this book begins with Syrian master and author of chess studies Philip Stamma and finishes with the first world champion William Steinitz The main novelties in opening middlegame and endgame theory in the 160 year period are examined and biographical sketches put the contributions of more than 30 masters into context The author presents many new insights for example regarding the origins of the Ponziani Opening the Dutch Defense and the Petroff Defense French star La Bourdonnais used other sources for almost every part of his *Nouveau Traite Morphy's* analysis of the Philidor Defense was faulty and Anderssen's play

included many positional ideas Harrwitz and Neumann published modern treatises long before Steinitz came out with his *Modern Chess Instructor* Many ending themes belong to less well known authors such as Cozio Chapais van Zuylen van Nyevelt Sarratt Kling and Horwitz Berger and Salvio *Eminent Victorian Chess Players* Tim Harding, 2014-12-03 This book portrays British chess life in the nineteenth century through biographical studies of ten players who shaped the modern game From Captain Evans inventor of the famous gambit to Isidor Gunsberg England's first challenger for the world championship personal narratives are blended with game annotations to reassess players achievements and character The author has combined deep reading in primary sources with genealogical research to reveal new facts and correct previous misunderstandings Major chapters on Howard Staunton and William Steinitz in particular highlight the tensions between Englishmen and immigrants amateurs and professionals The contrasting long careers of Henry Bird and Joseph Blackburne provide a thread of continuity The lives of several other important figures in Victorian chess are also presented More than 160 games with diagrams several annotated in detail and 50 photographs and line drawings are included Appendices provide career records for all ten there are extensive notes a bibliography and indexes *Louis Paulsen* Hans Renette, 2025-01-31 Louis Paulsen 1833 1891 was one of the 19th century's strongest chess players and a world record holder in blindfold chess He maintained an unbeaten record in matches created several opening systems and was an originator of the positional approach to the game This extensive biography the first in English explores Paulsen's life and career and includes 719 of his games presented here with both contemporary and modern comments **H.E. Bird** Hans Renette, 2016-08-26 No chess player of the 19th century had a longer more varied career than Henry Edward Bird 1829 1908 After pursuing a civil career for years his love for chess prevailed He belonged to the top level of British players for decades but he really shone at Simpson's Divan Bird's accessibility fierce attacking style and contempt for draws made him a people's favorite but his proud and touchy character led him into disputes with his colleagues A very strong and widely known player he fell into oblivion after his death This comprehensive first biography of Bird provides a detailed account of his personal life and a deeply researched coverage of his feats at the chess board Almost 1 200 games are included hundreds of them published here for the first time Nearly 450 games many of them thrilling all out fights are presented with a mix of contemporary and modern annotations **Neumann, Hirschfeld and Suhle** Hans Renette, Fabrizio Zavatarelli, 2024-12-15 Around 1860 a wave of talented youth intensified the Berlin chess scene Within a short time Berthold Suhle Philipp Hirschfeld and Gustav Neumann ranked among the best players in the world After a few years Suhle went on to become an authority in ancient Greek and Hirschfeld proved a successful businessman while remaining a sparring partner of Johannes Hermann Zukertort Neumann retained a fascination for the game and grew into one of the world's strongest players Despite their achievements little has been known about their lives and games Drawing on a range of sources the authors fill this gap providing games with both old and new analyses An introductory chapter on Berlin chess before 1860 and an appendix on Bernhard von Guretzky

Cornitz complete the book *Adolf Albin in America* Olimpiu G. Urcan, 2014-04-18 Adolf Albin a Romanian born chess master of German origins was renowned for his originality and his eccentric and dashing playing style aggressiveness and edgy character Through previously unpublished data tournament reports newspaper articles and consultation games this work covers Albin's brief but highly significant period spent in New York 1893-1895 with details on his life and chess career

The Immortal Game David Shenk, 2007-09-04 A fresh engaging look at how 32 carved pieces on a Chess board forever changed our understanding of war art science and the human brain Chess is the most enduring and universal game in history Here bestselling author David Shenk chronicles its intriguing saga from ancient Persia to medieval Europe to the dens of Benjamin Franklin and Norman Schwarzkopf Along the way he examines a single legendary game that took place in London in 1851 between two masters of the time and relays his own attempts to become as skilled as his Polish ancestor Samuel Rosenthal a nineteenth century champion With its blend of cultural history and Shenk's lively personal narrative *The Immortal Game* is a compelling guide for novices and aficionados alike **Time and Power** Christopher Clark, 2021-04-13 Inspired by the insights of Reinhart Koselleck and François Hartog two pioneers of the temporal turn in historiography Clark shows how Friedrich Wilhelm rejected the notion of continuity with the past believing instead that a sovereign must liberate the state from the entanglements of tradition to choose freely among different possible futures He demonstrates how Frederick the Great abandoned this paradigm for a neoclassical vision of history in which sovereign and state transcend time altogether and how Bismarck believed that the statesman's duty was to preserve the timeless permanence of the state amid the torrent of historical change Clark describes how Hitler did not seek to revolutionize history like Stalin and Mussolini but instead sought to evade history altogether emphasizing timeless racial archetypes and a prophetically foretold future
