Step Bez Granits:

Anton Chekhov Through the Eyes of Russian Thinkers Olga Tabachnikova, 2012-10-01 The collection is comprised of twelve scholarly essays written by leading Chekhov specialists from around the world each analysing an interpretation of Chekhov by one of three Russian thinkers of the Silver Age of Russian culture Vasilii Rozanov Dmitrii Merezhkovskii and Lev Shestov It thus examines the hitherto under researched relationship between the origins and the results of the cultural phase that came to be known as the Silver Age and focuses specifically on the complex connections between Chekhov's legacy and the Russian culture of that period

The Heart of Reality Vladimir Sergeyevich Soloviev, 2020-09-15 Vladimir S Soloviev 1853-1900 moral philosopher social and literary critic theologian and poet is considered one of Russia's greatest philosophers But Soloviev is relatively unknown in the West despite his close association with Fyodor Dostoevsky who modeled one of his most famous literary characters Alyosha Karamazov on Soloviev In *The Heart of Reality* Vladimir Wozniuk offers lucid translations a substantive introduction and careful annotations that make many of Soloviev's writings accessible for the first time to an English speaking audience Soloviev worked tirelessly in the name of the mystical body of the Universal Church The vast bulk of his writings can be construed as promoting in one way or another the cause of ecumenism His essays also display the influence of Platonic and German Idealism and strands of Thomistic thinking Wozniuk demonstrates the consistency of Soloviev's biblically based thought on the subjects of aesthetics love and ethics while at the same time clarifying Soloviev's concept of *vseedinstvo* the unity of spiritual and material especially as applied to literature Containing many previously untranslated essays *The Heart of Reality* situates Soloviev more clearly in the mainstream of Western religious philosophy and Christian thought
