The Cutting Edge Women In The Pit Strike:

The Cutting Edge Vicky Seddon,1986 *Burnout* Hannah Proctor,2024-04-09 Hannah Proctor takes that feeling we all have and names it again and again helping us to resee the past and present of revolutionary struggle A must read Hannah Zeavin Founding Editor Parapraxis How to maintain hope in the face of despair In the struggle for a better world setbacks are inevitable Defeat can feel overwhelming at times but it has to be endured How then do the people on the front line keep going To answer that question and to help readers roll with the punches Hannah Proctor draws on historical resources to find out how revolutionaries and activists of the past kept a grip on hope Burnout considers former Communards exiled to a penal colony in the South Pacific a young Bolshevik fleeing the city in despair an ex militant on the analyst s couch relating dreams of ruined landscapes a trade union organiser seeking advice from a spiritual healer and a group of feminists padding a room with mattresses to scream about the patriarchy Jettisoning therapy talk and its stranglehold on our language Proctor offers a different way forward neither denial nor despair Her cogent exploration of the ways militants make sense of their own burnout demonstrates that it is possible to mourn and organise at once and to do both without compromise

Feminist Ethics and the Politics of Love Feminist Review Collective,1998 Ethics and love are examined in different situations the contradictions of feminism in Imperial Japan the role of women in miners struggles in the UK and the contemporary politics of abortion in Ireland **Strikes in Politicisation** Jacqueline E. Briggs,2019-01-22 First published in 1998 this book through a combination of theoretical and empirical research tries to advance beyond the available literature to an understanding of the links between strike activity and the political process Although its primary focus is upon the long term impact of the 1984 85 Miners Strike it discusses other industrial settings and political disputes By linking the political socialisation process with strike activity in a refreshing and thought provoking manner this book provides an insight into why some people are more interested and involved in political activity in comparison with the population at large *Coal, Crisis, and Conflict* Jonathan Winterton,Ruth Winterton,1989 Analyses conditions in the coal mining sector which precipitated the strike Discusses the mobilisation organisation and maintenance of the strike the strike settlement and its aftermath *The Political Context of Collective Action* Ricca Edmondson,2003-12-16 The study of social and popular movements continues to attract great interest but little is known of political activity which takes place outside of traditional political structures This volume looks at informal political action which arises when conventional frameworks such as those provided by welfare states are in crisis or decline At such times the usual expectations about political action may not apply so what actually goes on Greatly expanding the scope for research into collective action this volume will be of great interest to students and researchers of politics and sociology interested in this important area *Labour and the left in the 1980s* Jonathan Davis,Rohan McWilliam,2017-12-11 This volume of essays constitutes the first history of Labour and left wing politics in the decade when Margaret Thatcher reshaped modern Britain Leading scholars explore aspects of left wing culture activities and

ideas at a time when social democracy was in crisis There are articles about political leadership economic alternatives gay rights the miners strike the Militant Tendency and the politics of race The book also situates the crisis of the left in international terms as the socialist world began to collapse Tony Blair s New Labour disavowed the 1980s left associating it with failure but this volume argues for a more complex approach Many of the causes it championed are now mainstream suggesting that the time has come to reassess 1980s progressive politics despite its undeniable electoral failures With this in mind the contributors offer ground breaking research and penetrating arguments about the strange death of Labour Britain

The South Wales Miners Ben Curtis,2013-05-15 A political history of the south Wales miners their industry and society in a tumultuous period of crisis and struggle **The Women and Men of 1926** Sue Bruley,2010 In *The Women and Men of 1926* Sue Bruley recounts the social history of the mining communities in south Wales during the 1926 lockout Relying on hitherto unpublished oral testimony as well as other archival material Bruley investigates how households coped with the lockout and assesses the impact that it had on gender relations Individual chapters consider topics such as school canteens miners lodges recreational activities picketing and politics **Women, Community, and the Hormel Strike of 1985-86** Neala Schleuning,1994-01-30 The strike by Local P 9 against the Hormel Co in 1985 86 marked a turning point in American labor history The central role played in the strike by the Austin United Support Group brought the issues of economic justice and community survival to the forefront of the labor movement agenda In response to isolation from their traditional communities these women created a vital and successful strike culture that was characterized by cooperation solidarity and a variety of institutions to meet the economic social and spiritual needs of the 1 500 striking families This work is important because it shows the strength of the women and their vision of economic justice how deeply committed they remain to their ideals and their struggle and how little the passage of time has diminished their anguish This work is important also as a portrait of a typical midwestern company town where community life is colored strongly by economics [Split at the Seams?](#) David P. Waddington,Maggie Wykes,C. Critcher,1991 Considers the aftermath of the 1984 85 miners strike It documents and analyzes the processes of social change within a pro strike an anti strike and a divided community It focuses on the impact on everyday life and the extent to which the strike shaped attitudes to authoritative institutions *Women in the Mines* Marat Moore,1996 *Women in the Mines* informs provokes and inspires from first page to last with gripping stories from coalfield women from 1914 to 1994 Early women miners describe handloading coal to help their families survive The 1970s generation talks openly about sexual harassment community attitudes pregnancy health and safety racism aging and unemployment The stories demonstrate the strength and resilience of women who accepted the challenge of nontraditional work and the changes in their lives brought by that decision **Women Resist Globalization** Sheila Rowbotham,Stephanie Linkogle,2001 Opening with an historical account of differing facets of women s action for emancipation this book goes on to look at more recent examples of diverse resistance women fighting for environmental and reproductive rights mobilizing

against poverty and racism fighting the inequalities imposed by structural adjustment programmes and campaigning for human rights **Miners on Strike** Andrew J. Richards,1996 The miners strike in Britain in 1984 85 was marked by internal division in contrast to those of 1972 and 1974 which brought the miners substantial material gains This book considers the outcomes of these strikes and their implications for current cohesiveness in organized labour *Sociological Abstracts* ,1992 **Birmingham and the Miners' Strike** Paul Mackney,1987 *Labor* ,2006 *Socialist History* ,1993 **The Long Death of British Labourism** Willie Thompson,1993 The author argues that the hierarchical and disciplined structure of organizations within the British labour movement prevented it from ever becoming a real threat to the Establishment He suggests it was its willingness to accommodate the status quo that led to its slow decline **British Book News** British Council,1986
