Human by Design Gregg Braden, 2017-10-10 Human by Design invites you on a journey beyond Darwin's theory of evolution beginning with the fact that we exist as we do even more empowered and more connected with ourselves and the world than scientists have believed possible In one of the great ironies of the modern world the science that was expected to solve life's mysteries has done just the opposite New discoveries have led to more unanswered questions created deeper mysteries and brought us to the brink of forbidden territory when it comes to explaining our origin and existence These discoveries reveal the following facts Fact 1 Our origin Modern humans appeared suddenly on earth approximately 200 000 years ago with the advanced brain nervous system and capabilities that set them apart from all other known forms of life already developed rather than having developed slowly and gradually over a long periods of time Fact 2 Missing physical evidence The relationships shown on the conventional tree of human evolution are speculative connections only While they are believed to exist a 150 year search has failed to produce the physical evidence that confirms the relationships shown on the evolutionary family tree Fact 3 New DNA evidence The comparison of DNA between ancient Neanderthals previously thought to be our ancestors and early humans tells us that we did not descend from the Neanderthals Fact 4 A rare DNA fusion Advanced genome analysis reveals that the DNA that sets us apart from other primates including in our advanced brain and nervous system is the result of an ancient and precise fusion of genes occurring in a way that suggests something beyond evolution made our humanness possible Fact 5 Our extraordinary abilities We are born with the capacity to self heal to self regulate longevity to activate an enhanced immune response and to experience deep intuition sympathy empathy and ultimately compassion and to do each of these on demand In this book New York Times best selling author and 2017 Templeton Award nominee Gregg Braden crosses the traditional boundaries of science and spirituality to answer the timeless question at the core of our existence Who are we and to reveal science based techniques that awaken our uniquely human experiences of deep intuition precognition advanced states of self healing and much more Beyond any reasonable doubt Human by Design reveals that we're not what we've been told and much more than we've ever imagined

The Science of Self-Empowerment Gregg Braden, 2019-03-05 New in paperback originally published as Human by Design At the cutting edge of science and spirituality New York Times best selling author Gregg Braden explains that evolution is not the whole story of humanity and offers a new understanding of our origins that can help us tap the extraordinary abilities we already have What would it mean to discover we're designed to live extraordinary lives of self healing longevity and deep intuition Is it possible that the advanced awareness achieved by monks nuns and mystics considered rare in the past is actually meant to be a normal part of our daily lives In this revelatory book now available for the first time in paperback five time New York Times best selling author and 2018 Templeton Award nominee Gregg Braden explains that we no longer need to ask these questions as What if Recent discoveries ranging from human evolution and genetics to the new science of neuro cardiology

the bridge between the brain and the heart have overturned 150 years of thinking when it comes to the way we think of ourselves our origin and our capabilities In this reader friendly journey of discovery Braden begins with the fact that we exist as we do even more empowered and more connected with ourselves and the world than scientists have believed in the past It is this undisputable fact that leads to even deeper mysteries How do we awaken the extraordinary abilities that come from such an awesome connection What role does our ancient and mysterious heritage play in our lives today Join Gregg as he crosses the traditional boundaries of science and spirituality to answer precisely these questions In doing so he reveals a specific tools techniques and practices to awaken our deep intuition on demand for self healing and longevity and 2 concrete solutions to the social issues that are destroying our families and dividing us as people including the bullying of young people hate crimes the growing epidemic of suicide religious extremism and more When new discoveries prove that the existing human story is no longer based in fact it is time to change the story This simple truth is at the heart of the book you are about to read Correct English , 1911
