The Nature Of Man:

The Nature of Man Erich Fromm, Ramón Xirau, 1968 Verzameling teksten van filosofen A Treatise on the Nature of Man Thomas Woodward, 2023-02-18 Reprint of the original first published in 1874 *The Nature of Man and God* Simon S. Godfrey, 2003 The search for understanding the meaning of the self and the nature of the Supreme Being has been the nub problem in history Although these concepts have been expounded in all ages by innumerable philosophers theologians and other writers the fact that they still remain nebulous indicates that more work is warranted in these perennial areas The Nature of Man and God deals with these two fundamental issues in a clear concise and down to earth manner As a psychologist the author has spent some thirty years investigating the issues in question The study of the self led him willy nilly to the reality of something that William James called a More or something that is popularly known as God The author found close affinity between the reality of the self and the reality of the Deity Owing to this affinity the author proposes that a more palpable way of knowing the Deity is to know one's own true self On the subject of the self the author distinguishes between two types a nominal self which is a mere echo of the early experiences of the individual and a transcendental self the latter can be realized only when human beings set themselves to unlearn what they have been taught on such matters rely on their inner resources and become their own gurus instead of following the instructions of self proclaimed authorities Regarding the Divine nature the author puts forth several challenging new theses In particular he enlarges on matters relating to ultimate concerns the human task freedom of will responsibility and theodicy explicating why there is evil and suffering in the world The book invites the reader to reach for a higher plain of humanness The topics covered are pivotal as the whole of humankind does indeed pivot around them It is the author's conviction that none of the current personal or international crises can be effectively resolved until humans first learn who they are and what genre of supratemporal intellect powers the scheme of things in the world The book should appeal to multiple audiences at a time when it seems nothing can disentangle the state of human affairs there is a crying need for this kind of book In particular it should prove of great interest to all those sincerely seeking to know themselves and their God the book also provides a workable tool for those seriously involved in improving the human lot or those weary of on going superficialities and trivialities of modern life

Humanity and the Nature of Man Ebsen William Amarteifio Bsc (Hons), 2013-06 This book is about the invaluable contribution of charities and humanitarians in our world the benevolence of the majority and the atrocities of a very small minority Mankind's difficulties often stem from natural disasters including terrible weather conditions creating human misery The tsunami and the famine in Ethiopia are typical examples The other difficulties that have beset humanity from time immemorial are man made like wars slavery and pogroms We also have dictatorships pariah states and police states which do not seek to serve their people and alienate the international community The people in these places become outcasts despite genuine and determined efforts by others to bring them into the fold In any society we see the destructive effects of

misunderstanding greed envy hatred and discrimination Senseless acts of individual barbarism also pose a problem Governments democratic or otherwise are installed with all the natural and human resources as well as the goodwill of the global community to serve and where necessary manage the difficulties of the people History and current affairs indicate that no government is capable of delivering utopia to its people even those unhampered by ideology political sensitivities self interest and retribution Mankind s difficulties are ever so complex Invariably the void left has to be managed for mankind to have a life worth living Nature abhors a vacuum so says the adage Political stalwarts like Abraham Lincoln and courageous clergymen William Wilberforce rise to the fore This pious hegemony is ably supported by charities humanitarians and ordinary individuals who have shown courage and compassion and the willingness to save and improve lives Charities continue to make the difference The courage and compassion of Lincoln Wilberforce Nightingale and Mother Teresa may be unsurpassed but Providence will continue to provide heroes and heroines for humanity The nature of man Erich Fromm,Ramón Xirau,1968 *The Nature and Destiny of Man* Reinhold Niebuhr,1996-01-01 Thought to be Niebuhr s most significant work as well as one of the few great 20th century works of theology by an American writer considers human nature from a Christian perspective *Man's Responsibility: the Nature and Extent of the Atonement and the Work of the Holy Spirit, in Reply to Mr. Howard Hinton and the Baptist Midland Association* J. A. Haldane,2025-08-10 Reprint of the original first published in 1842 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage

Ontopoietic Expansion in Human Self-Interpretation-in-Existence Anna-Teresa Tymieniecka,2012-12-06 The societal web of life is underpinned by one concept that of Self and Other which emerged earlier in this century The concept has received a new formulation within the field of the phenomenology of life and the human creative condition finding a foothold a point of reference that radiates novel seminal insights It is nothing other than the creative fulcrum of human functioning The self individualisation of the human being as revealed in the present collection is existentially and vitally intertwined with that of the Other Tymieniecka s seminal idea of the trans actional is explored in this collection of essays which reveals a variety of significant perspectives weaving the cycles of the human universe of existence in an essential oscillation between the Self and the Other In this oscillation we throw out our existential tentacles trying to gain a living space with respect to each other all the while engaging in a mutual creative prompting and attunement **Concerning the Nature of Man** John Allen,2001-02 Exploring the depths of human nature in the light of biblical teaching the author carves a straight path through the tangled undergrowth of Greek Gnosticism that has infiltrated the Church today Startling in its simplicity this book takes the reader to the core of the problem clearly outlining the issues at stake and dealing with them uncompromisingly Are children to blame for their parents sin Why does man sin Does a Christian have a dual nature Are we born bad Does our nature compel us to commit certain actions whether bad or good What is the relationship between a twentieth century Christian and Adam Does God see Jesus when He looks at the Church What is the truth regarding
