Esser, 2012-12-06 The International Symposium on The Use of Space by Animals and Men sponsored by the Animal Behavior Society took place at the 135th Annual Meeting of the AAAS in Dallas Texas on December 29-31 1968 This book presents the text of all papers and edited discussions as well as the contributions made by several individuals who were unable to attend the Symposium The idea of holding the Symposium evolved following my presentation of a paper to the Animal Behavior Society in 1965 2 on the use of space by psychiatric patients Members in attendance at that session chaired by G Gottlieb shared his interest in my compilation of human data presented in a measurable spatial context This pleasant experience persuaded me that a discussion of space might be shared as a frame of reference which could open avenues of communication between behavioral scientists the design community and the decision makers in our society Seasonal Adaptations of Insects Maurice J. Tauber, Catherine A. Tauber, Shinzō Masaki, 1986 A comprehensive discussion of the broad range of insect responses to seasonality and a critical interpretation of the scientific literature
