Pedagogical Reckoning: Decolonizing and Degendering the Art Historical Canon in the Classroom and Museum Sooran Choi, Gillian Greenhill Hannum, 2025-09-02 *Pedagogical Reckoning* *Decolonizing and Degendering the Art Historical Canon in the Classroom and Museum* brings together leading voices in art history museum studies and pedagogy to confront the Eurocentric and patriarchal foundations of traditional art historical education This timely anthology provides a range of actionable strategies for reshaping curricula exhibitions and research through the lenses of decoloniality gender justice and global inclusion Edited by Sooran Choi and Gillian Greenhill Hannum the volume includes contributions from scholars artists and educators across institutional contexts from large research universities to community colleges and art schools Its chapters span three key areas inclusive classroom pedagogy critical museum and curatorial practice and decolonial research methodologies Essays explore intersectional frameworks informed by postcolonial theory feminist critique queer studies and

ethnic studies while also providing practical tools such as sample assignments case studies and curatorial models Uniquely this anthology integrates scholarly analysis with pedagogical reflection offering readers both conceptual frameworks and concrete applications It builds on recent literature such as *Teaching South and Southeast Asian Art* and *Expanding the Parameters of Feminist Activism* while extending the conversation through its focus on classroom agency community responsive teaching and institutional reckoning Ideal for art history instructors museum professionals and students in anthropology cultural studies and education *Pedagogical Reckoning* serves as both a critical resource and a methodological guide It is suitable for classroom adoption professional development and curriculum planning and will appeal to anyone committed to transforming the way we teach curate and write about art

A Psychoanalytic and Socio-Cultural Exploration of a Continent Anna Zajenkovska, Uri Levin, 2019-10-11 This important book gathers a set of influential international contributors with psychoanalytic and group analytic knowledge to provide a wide ranging critical analysis of the present state of Europe Europe is facing huge challenges waves of immigrants are reshaping its identity and testing its tolerance Brexit is a destabilizing factor and its outcomes are not yet clear economic crises continue to threaten the resurgence of nationalism is threatening an open borders one continent ideology This book tackles some of these challenges Divided into two parts the first analyses the current social political cultural and economic trends in Europe using psychoanalytic and group analytic concepts while the second concentrates on existing applications of psychoanalytic and group analytic concepts to help manage national and international change in individual countries as well as on the continent as a whole including groups for German Ukrainian and Russian participants groups organised in Serbia in order to overcome the recent traumatic past and the Sandwich model developed to enhance communication in situations of conflict trauma and blocked communication When we feel threatened we cling to our in group and its members We want to think the same and be the same as our neighbors but this group illusion of homogeneity conceals the fact that we are different While homogeneity offers stability it is diversity that offers freedom This book will be of great interest to researchers on the present state of Europe from across a range of different disciplines from psychoanalysis to politics sociology economics and international relations

Western Music and Its Others Georgina Born, David Hesmondhalgh, 2000-10-15 *Western Music and Its Others* will be taken as an important book signalling a new turn within the field It takes the best features of traditional rigorous scholarship and brings these to bear upon contemporary more speculative questions The level of theoretical sophistication is high The studies within it are polemical and timely and of lasting scholarly value Will Straw co editor of *Theory Rules Art as Theory Theory and Art* The great value of this collection lies in the wealth of questions that it raises questions that together crystallize the recent concerns of musicology with force and clarity But it also lies in the authors resistance to the easy postmodernist answers that threaten to turn new musicology prematurely grey The editors comprehensive intellectually adventurous introduction exemplifies the sort of eager yet properly skeptical receptivity to

scholarly innovation that fosters lasting disciplinary reform It alone is worth the price of the book Richard Taruskin author of *Stravinsky and the Russian Traditions A Biography of the Works Through Mavra* When cultural studies methods first appeared in musicology 15 years ago they triggered a storm of polemics that sometimes overshadowed the important issues being raised As the canon wars recede however scholars are finding it possible to focus on the concerns that led them to cultural criticism in the first place the study of music and its political meanings *Western Music and Its Others* brings together leading musicologists ethnomusicologists and specialists in film and popular music to explore the ways European and North American musicians have drawn on or identified themselves in tension with the musical practices of Others In a series of essays ranging from examination of the Orientalist tropes of early 20th century Modernists to the tangled claims for ownership in today's World Music the authors in this collection greatly advance both our knowledge of specific case studies and our intellectual awareness of the complexity and urgency of these problems A timely intervention that should help push music studies to the next level Susan McClary author of *Conventional Wisdom The Content of Musical Form* 2000 This collection provides a sophisticated model for using theory to interrogate music and music to interrogate theory The essays both take up and challenge the dominance of notions of representation in cultural theory as they explore the relevance of the concepts of hybridity and otherness for contemporary art music Sophisticated theory erudite scholarship and a very real appreciation for the specificities of music make this a powerful and important addition to our understanding of both culture and music Lawrence Grossberg author of *Dancing in Spite of Myself* *Maritime Exploration in the Age of Discovery, 1415-1800* Ronald S. Love, 2006-09-30 Despite earlier naval expeditions undertaken for reasons of diplomacy or trade it wasn't until the early 1400s that European maritime explorers established sea routes through most of the globe's inhabited regions uniting a divided earth into a single system of navigation From the early Portuguese and Spanish quests for gold and glory to later scientific explorations of land and culture this new understanding of the world's geography created global trade built empires defined taste and alliances of power and began the journey toward the cultural political and economic globalization in which we live today Ronald Love's engaging narrative chapters guide the reader from Marco Polo's exploration of the Mongol empire to Ferdinand Magellan's circumnavigation of the globe the search for a Northern Passage Henry Hudson's voyage to Greenland the discovery of Tahiti the perils of scurvy mutiny and warring empires and the eventual extension of Western influence into almost every corner of the globe Biographies and primary documents round out the work

Christianity and Religious Plurality Wilbert R. Shenk, Richard J. Plantinga, 2016-10-11 Over the past two centuries the Christian faith has spread to all continents Although more global than ever Christians are religious minorities in most societies Religious freedom is hardly universal In the past fifty years millions of people have been uprooted from their traditional homelands in Asia Africa and Latin America Some have emigrated to Western Europe and North America The West has become the scene of cultural linguistic and religious variety on a scale unimagined in 1900 Today the full range of

faiths and religious practices from all continents are present in Europe and North America Christians are challenged to come to terms with this changed situation These developments have intensified religious plurality Christians all over the world are being urged to understand and engage with this new situation This volume highlights this new reality and specifies some sources for engagement not least among them the Judeo Christian scriptures fundamental to all Christianities that emerged out of religious plural contexts On the basis of their faith in the Triune God disclosed in this text all followers of Jesus Christ must interact with these opportunities in today's radically context sensitive world
