Allegorical Form and Theory in Hildegard of Bingen's Books of Visions Dinah Wouters,2022-12-05 This book analyses how the three books of visions by Hildegard of Bingen use the allegorical vision as a form of knowledge It describes how the visionary's use of allegory and allegorical exegesis is linked to theories of cognition interpretation and prophecy It argues that the form of the allegorical vision is not just the product of a medieval symbolic mentality but specific to Hildegard's position and the major transformations taking place in the prescholastic intellectual milieu such as the changing use of Scripture or the shift from traditional hermeneutics to cognitive language philosophy The book shows that Hildegard uses traditional forms of knowledge prophecy the vision monastic theology allegorical hermeneutics in startlingly innovative ways by combining them and by revising them for her own time

Medieval Visions of Heaven and Hell Eileen Gardiner,2018-12-07 First Published in 1993 The present volume covers the currently identified Christian visions of heaven and hell excluding Dante's Divine Comedy from western Europe during the Middle Ages from the late sixth through the fourteenth century

The Oxford Handbook of Mystical Theology Edward Howells,Mark A. McIntosh,2020-02-25 The Oxford Handbook of Mystical Theology provides a guide to the mystical element of Christianity as a theological phenomenon It differs not only from psychological and anthropological studies of

mysticism but from other theological studies such as more practical or pastorally oriented works that examine the patterns of spiritual progress and offer counsel for deeper understanding and spiritual development. It also differs from more explicitly historical studies tracing the theological and philosophical contexts and ideas of various key figures and schools as well as from literary studies of the linguistic tropes and expressive forms in mystical texts. None of these perspectives is absent but the method here is more deliberately theological, working from within the fundamental interests of Christian mystical writers to the articulation of those interests in distinctively theological forms in order finally to permit a critical theological engagement with them for today. Divided into four parts, the first section introduces the approach to mystical theology and offers a historical overview. Part two attends to the concrete context of sources and practices of mystical theology. Part three moves to the fundamental conceptualities of mystical thought. The final section ends with the central contributions of mystical teaching to theology and metaphysics. Students and scholars with a variety of interests will find different pathways through the Handbook.

Illuminations of Hildegard of Bingen Matthew Fox, 2002-12-01. An introduction to the life and work of Hildegard. Reveals the life and teachings of one of the greatest female artists and intellectuals of the Western Mystical Tradition. Contains 24 full color illustrations by Hildegard of Bingen. Includes commentary by Matthew Fox, author of *Original Blessing*. 250,000 sold. Hildegard of Bingen, 1098-1179, was an extraordinary woman living in the Rhineland valley during most of the twelfth century. Besides being the abbess of a large and influential Benedictine abbey, she was a prominent preacher, healer, scientist, and artist. She also was a composer and theologian, writing nine books on theology, medicine, science, and physiology, as well as 70 poems and an opera. At the age of 42, she began to have visions; these were captured as 36 illuminations, 24 of which are recorded in this book along with her commentaries on them. She also wrote a text describing these visions, entitled *Scivias: Know the Ways*, now published as *Hildegard of Bingen's Mystical Visions*. Author Matthew Fox has stated: "If Hildegard had been a man, she would be well known as one of the greatest artists and intellectuals the world has ever seen. It is a credit to the power of the women's movement and our times that this towering genius of Western thought is being rediscovered in her full grandeur and autonomy. Virtually unknown for more than 800 years in Western history, Hildegard was featured as one of the women in Judy Chicago's *Dinner Party* in the early 1980s and published for the first time in English by Bear Company in 1982. In addition to her mystical teachings, Hildegard's music has been performed and recorded for a new and growing audience."

Medieval Mystical Women in the West John Arblaster, Rob Faesen, 2024-07-18. This book explores the rich and varied mystical writings by and about medieval and a few early modern women across Western Europe. Women had a profound and lasting impact on the development of medieval and early modern spiritual and mystical literature, both through their own writing and as a result of the hagiographical texts that they inspired. Bringing together contributions by both established and emerging scholars, the volume provides a valuable overview of medieval mystical women, with a special focus on the Low Countries and Italy, regions that produced a disproportionately

high number of female mystics The figures discussed range from Hildegard of Bingen Hadewijch Mechthild of Magdeburg Marguerite Porete Angela of Foligno Julian of Norwich and Beatrice of Nazareth to lesser known women such as Agnes Blannbekin Christina of Hane and Maria Maddalena de Pazzi The chapters address topics such as the body pain desire ecstasy stigmata annihilation virtue visions the tension between exterior and interior experience and the nature of mystical union itself

Representations of the Feminine in the Middle Ages Bonnie Wheeler,1993 For the most part the women portrayed have speak to us through intermediaries Hildegard of Bingen Christine de Pisan and Ann Hutchinson s recusant nuns may present themselves in their own words though even here there are veils of concealment dissimulation assumption and presumption to be removed but Chaucer s women Chretien s patrons Milton s Eve the conflation of saints which comprises Wilgefortis Ste Foy and the imperious Theodora are presented in the words works and social milieux of men Where they are ostensibly given their own voices it is by male authors

The Power of a Woman's Voice in Medieval and Early Modern Literatures Albrecht Classen,2012-02-13 The study takes the received view among scholars that women in the Middle Ages were faced with sustained misogyny and that their voices were seldom heard in public and subjects it to a critical analysis The ten chapters deal with various aspects of the question and the voices of a variety of authors both female and male are heard The study opens with an enquiry into violence against women including in texts by male writers Hartmann von Aue Gottfried von Stra burg Wolfram von Eschenbach which indeed describe instances of violence but adopt an extremely critical stance towards them It then proceeds to show how women were able to develop an independent identity in various genres and could present themselves as authorities in the public eye Mystic texts by Hildegard of Bingen Marie de France and Margery Kempe the medieval conduct poem known as Die Winsbeckin the Devout Books of Sisters composed in convents in South West Germany but also quasi historical documents such as the memoirs of Helene Kottaner or Anna Weckerin s cookery book demonstrate that far more women were in the public gaze than had hitherto been assumed and that they possessed the self confidence to establish their positions with their intellectual and their literary achievements
