**The Myth and Madness of Ophelia** Carol Solomon, Mead Art Museum (Amherst College), 2001 The Myth and Madness of Ophelia explores the visual representation of one of Shakespeare's most intriguing and popular heroines from her earliest appearance in 18th century illustrated editions of Hamlet to the present Artists represented here include Benjamin West Eugène Delacroix Julia Margaret Cameron Edward Steichen Gwen John Alfred Hitchcock and Louise Bourgeois **Icons of Beauty** Lindsay J. Bosch, Debra N. Mancoff, 2009-12-22 What gives beauty such fascinating power Why is beauty so easy to recognize but so hard to define Across cultures and continents and over the centuries the standards of beauty have changed but the desire to portray beauty to praise beauty and to possess beauty has never diminished Icons of Beauty offers an enthralling overview of the most revered icons of female beauty in world art from pre history to the present From images of Eve to Cindy Sherman's self portraits from Cleopatra to Madonna from ancient goddesses to modern celebrities this interdisciplinary set offers fresh insight as to how we can use perceptions of beauty to learn about world cultures both past and present Each chapter looks at an individual work of art to pose a question about the power of beauty What makes beauty modern What is the influence of celebrities How do women portray their own beauty in a different manner than men In depth profiles of the icons reveal how specific ideas about beauty were developed and expressed offering a full analysis of their history cultural significance and lasting influence In addition to renowned works of art Icons of Beauty also looks at icons in literature film politics and contemporary entertainment Interdisciplinary and multicultural in its approach chapters inside this set also feature sidebars on provocative topics and issues such as foot binding and body adornment myths and practices opinions and interpretations and even related films songs and even comic book characters Generously illustrated this rich set encompasses history politics society women's studies and art history making it an indispensable resource for high school and college students as well as general readers **Masculinity and Marian Efficacy in Shakespeare's England** Ruben Espinosa, 2016-05-06 Masculinity and Marian Efficacy in Shakespeare's England offers a new approach to evaluating the psychological loss of the Virgin Mary in post Reformation England by illustrating how in the wake of Mary's demotion re inscriptions of her roles and meanings only proliferated seizing hold of national imagination and resulting in new configurations of masculinity The author surveys the early modern cultural and literary response to Mary's marginalization and argues that Shakespeare employs both Roman Catholic and post Reformation views of Marian strength not only to scrutinize cultural perceptions of masculinity but also to offer his audience new avenues of exploring both religious and gendered subjectivity By deploying Mary's symbolic valence to infuse certain characters and dramatic situations with feminine potency Espinosa analyzes how Shakespeare draws attention to the Virgin Mary as an alternative to an otherwise unilaterally masculine outlook on salvation and gendered identity formation **Inhabited by Stories** Nancy A. Barta-Smith, Danette DiMarco, 2012-11-30 Intertextuality has signaled change appropriation adaptation and derivation It has

focused readers on irresolvable questions of influence and origination progressive or regressive movement across continents periods and media Inhabited by Stories Critical Essays on Tales Retold takes a different approach What would a model of literary study look like that steps out of time's river and embraces not only the presence and proximity of the world to the senses but also of the past and the future to the present here and now When stories inhabit us imagination and memory extend our ability to see and feel Phenomenological experience is lived not just thought Such a perspective suggests that the past and future inhabit the present increase the depth of sensory perception itself and enrich the range of our affective and ethical responses Grounded in the lived experience of reading this perspective offers an alternative to an idea of intertextuality as simply following lines of influence and appropriation It focuses on the expansion of experience created by telling and retelling stories Ironically for literary theorists and critics perhaps the highest form of both praise and critique is a tale retold since such retellings attest to literature's instructive power and its perennial regeneration

*The Shakespearean International Yearbook* Tom Bishop, Alexa Huang, 2016-10-26 Shakespearean performances regularly take place at both historic sites and locations with complex resonances such as Shakespeare's Globe Theatre in London and the royal castle of Hamlet Elsinore in Denmark The present issue of the Shakespeare International Yearbook examines the impact of specificities such as festivals and performance sites on our understanding of Shakespeare and globalization Contributions survey the present state of Shakespeare studies and address issues that are fundamental to our interpretive encounter with Shakespeare's work and his time across the whole spectrum of his literary output

**the Photography of Performance** Sally Barnden,2020 Examines both theatrical and staged art photographs demonstrating their role in fixing and unfixing Shakespearean authority      **Word and Self Estranged in English Texts, 1550-1660** L.E. Semler,2016-12-05 The essays in *Word and Self Estranged in English Texts 1550-1660* consider diverse historical contexts for writing about strangeness. They draw on current practices of reading to present contrasts and analogies within and between various social understandings. In so doing they reveal an interplay of thematic and stylistic modes that tells us a great deal about how and why certain aspects of life and thinking were estranged in sixteenth and seventeenth century thinking. The collection's unique strength is that it makes specific bridges between contemporary perspectives and early modern connotations of strangeness and inhibition. The subjects of these essays are strange to our ways of thinking because of their obvious distance from us in time and culture. And yet curiously far from being entirely alien to these texts, some of the most modern thinking about paradigms, texts, concepts connects with the early modern in unexpected ways. Milton meets the contemporary competent reader, Wittgenstein meets Robert Cawdrey, Shakespeare embraces the teenager, and Marvell matches wits with French mathematician René Thom. Additionally, the early modern texts posit their own others or sites of estrangement: Moorishness, Persian art, even the human body with which they perform their own astonishing maneuvers of estrangement and alignment. In reading Renaissance works from our own time and inviting them to reflect upon our own time, *Word and Self Estranged in English Texts 1550-1660* offers a vital reinterpretation of early modern texts.      A

*Shakespearean Reading of Pirandello's Henry IV* Manuel Macías Borrego,2025-03-27 This book offers an innovative comparative analysis of Shakespeare's *Hamlet* and Pirandello's *Henry IV*, structured in four chapters that explore the intertextual relationship between these two masterpieces. Beginning with an introduction that lays the groundwork, the text moves to a section titled *Preliminary Considerations*, which defines the study's focus and establishes the critical methodology. The core of the book, the central chapter entitled *Comparative Study*, delves deeply into the shared and contrasting elements between the two tragedies, presenting an original and cumulative interpretation that connects key concepts like original sin, farce, simulacrum, and simulation. The theoretical approach, carefully developed and organized into thematic blocks, unfolds with analytical rigor to offer a Shakespearean reading of *Henry IV*. This study is an essential reference for those seeking to understand the complex interrelations between these two great texts and their relevance in contemporary literature and criticism.
