The New History: Twenty-five Years After Crane Brinton,1936 **The New History** Alun Munslow,2017-05-03 The notion of history has always been one strenuously debated by both academics and the wider population This deeply provocative re thinking of our engagement with the past by one of the world s leading post modern historians takes that debate one step further Alun Munslow re assesses history in the light of post modernism and other intellectual challenges which have questioned the primacy of the modernist epistemology of empiricism In an original and stimulating vision of history that will intrigue all those seriously interested in the subject Munslow argues that history is not only about the sources but a literary construction Munslow concludes that history as a cultural narrative about the past can never tell us what the past really means This far reaching conclusion is based on the radical idea that the content of history is defined as much by the nature of the language used to represent and interpret that content as it is by research into the sources This suggests that history does not produce the most likely meaning of the past but rather can only generate alternative meanings The lead volume in a

major new series on historical thinking and practice this is an accessible yet absorbing study that breaks new ground in discussing the stage history is at now and perhaps most engagingly the direction it will take in the future The New History James Harvey Robinson, 2017-11-21 Excerpt from The New History Essays Illustrating the Modern Historical Outlook All of the essays in this volume with the exception of the fourth have been printed before as addresses or contributions to periodicals They have however not only been carefully revised but have been adjusted so as to give as much coherence as possible to the collection They all illustrate each in its particular way the conception of the new history developed in the first essay About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works The New History Peter H.
