The book illustrates ongoing research results, projects, surveying works and industrial experiences that describe significant advances in all of the related areas.

Digital Transformation and Internationalization Strategies in Organizations Yildiz, Orkun, 2021-10-15. Competitive strategies and higher education industry collaboration policies are playing an important role in fostering the reputation and international rankings of higher education institutions. The positive impact of these policies may best be observed in economic and social outputs of many countries such as the USA, Singapore, South Korea, EU countries and Turkey. However, the number of academic publications that specifically concentrate on the impact of these policies on higher education institutions and authorities remains relatively limited. **Digital Transformation and Internationalization Strategies in Organizations** covers a wide range of issues and topics including employment systems, quality management systems, international ranking systems in higher education, education and language policies in higher education and business models employed in techno parks. This book helps higher education institutions manage their manpower and become cognizant of the factors that may exert a drastic impact on their success. It is ideal for managers, executives, IT consultants, researchers, practitioners, academics, professors and undergraduate and postgraduate students.

Black Enterprise, 1999-08. BLACK ENTERPRISE is the ultimate source for wealth creation for African American professionals, entrepreneurs and corporate executives. Every month BLACK ENTERPRISE delivers timely useful information on careers, small business and personal finance.
