Harvey Wallbangers and Tam O Shaners takes a colourful look at the phenomenon that is the eponym and for the first time gathers together the stories of the people behind the words that have passed into our everyday vocabulary This entertaining and informative book is packed with eponyms from across the worlds of literature history medicine religion politics science nature and cuisine And there are more of them out there than you might think From a Harvey Wallbanger to a Wellington Boot from a Catherine Wheel to a Caesar Salad there s something for everyone

Unequal Neighbors Kristen Hill Maher,David Carruthers,2021-04-02 San Diego and Tijuana are the site of a national border enforcement spectacle but they are also neighboring cities with deeply intertwined histories cultures and economies In Unequal Neighbors Kristen Hill Maher and David Carruthers shift attention from the national border to a local one examining the role of place stigma in reinforcing actual and imagined inequalities between these cities While the details of the book are particular to this corner of the world the kinds of processes it documents offer a window into the making of unequal neighbors more broadly The dynamics at the Tijuana border present a framework for understanding how inequalities that manifest in cultural practices produce asymmetric borders between places

Agents and Structures in Cross-Border Governance Bruno Dupeyron,Andrea Noferini,Tony Payan,2023-11-01 In North America and Europe cross border governance arrangements have provided formal and informal frameworks to support cross border cooperation Analysing how these frameworks have emerged the ways in which they have become institutionalized and the processes by which they change is fundamental Moreover these frameworks are increasingly challenged by border securitization thus limiting or jeopardizing decades of cross border cooperative governance and coordinated public policies Agents and Structures in Cross Border Governance offers a series of case studies that explore these complex dynamics To understand a range of cross border governance frameworks this collection addresses such topics as infrastructure development and management resource sharing regional politics economics security human rights the environment culture and community The book explains how cross border governance schemes have sought to mitigate some of the negative consequences of border security policies allowing readers to discern how concrete national power struggles between federal national and subnational governments unfold in border areas In a world increasingly impacted by climate change and more recently the COVID 19 pandemic Agents and Structures in Cross Border Governance sheds light on the ongoing complexity of cross border governance and offers lessons to help mitigate these challenges
