The Smart Internet Mark Chignell, James Cordy, Joanna Ng, Yelena Yesha, 2010-10-31 I love the idea of a Smart Internet that lets users improve many parts of their lives pulling together data and services from around the internet This won t happen with large unwieldy programming requirements it will happen because we re moving towards integrated simple tasks that users can do on an every day basis With services available on the cloud with analytics available with data that has meaning to the user and not just to some protocol parser with all of these users at all levels will be able to do a better job The users may be small and large enterprises local governments individuals etc All of this means that as the world is becoming more intelligent instrumented and more interconnected we ll be headed towards smarter health care smarter cities and smarter lives

Gennaro A Cuomo IBM Software Group Vice President and IBM Fellow WebSphere Chief Technology Officer Congratulations

to the team on the publication of this first volume of the IBM CAS Research book series. This is a significant milestone for IBM CAS Research. This series not only captures the innovations resulting from the collaboration across IBM technical leaders, IBM CAS faculty members as well as our network of distinguished academic partners, it also lays the foundation for ongoing commercialization of future research initiatives.

China Smart Larry Herzberg, 2019-05-21. Essential essays on all things Chinese that inform and entertain travelers, students and anyone working or living in China. How is China organized politically? What are the issues that young people face in today's China? What is China doing about its problem with pollution? Is the Chinese internet like our internet? What's China's role in the world today? And how much do you know about China's great woman emperor or the Chinese explorer whose voyages may have inspired the legend of Sinbad the Sailor? What are the major Chinese holidays, their superstitions regarding numbers and the true nature of the Chinese written language? In nearly 60 brief essays, long-time China expert Larry Herzberg tackles important facts and myths about China, its history, people and culture as well as its contemporary society. Anyone dipping into this book will emerge that much smarter about China, whether visiting, conducting business, studying the language or simply being fascinated by one of the world's greatest and most influential civilizations.

Smart Trajectories Azedine Boulmakoul, Lamia Karim, Bharat Bhushan, 2022-12-30. This book highlights the developments, discoveries and practical and advanced experiences related to responsive distributed computing and how it can support the deployment of trajectory-based applications in smart systems. **Smart Trajectories: Metamodeling Reactive Architecture for Analytics and Smart Applications** deals with the representation and manipulation of smart trajectories in various applications and scenarios. Presented in three parts, the book first discusses the foundation and principles for spatial information systems, complex event processing and building a reactive architecture. Next, the book discusses modeling and architecture in relation to smart trajectory metamodeling, mining and big trajectory data and clustering trajectories. The final section discusses advanced applications and trends in the field, including congestion, trajectory analytics and real-time Big Data analytics in cloud ecosystems. Metamodeling distributed architectures, reactive programming, Big Data analytics, NoSQL databases, connected objects and edge fog cloud computing form the basis of the concepts and applications discussed. The book also presents a number of case studies to demonstrate smart trajectories related to spatiotemporal events such as traffic congestion and pedestrian accidents. This book is intended for graduate students in computer engineering, spatial databases, complex event processing, distributed systems and geographical information systems, GIS. The book will also be useful for practicing traffic engineers, city managers and environmental engineers interested in monitoring and security analysis.

Smart Card Research and Advanced Applications Gilles Grimaud (ed), 2008-08-25. This book constitutes the refereed proceedings of the 8th International Conference on Smart Card Research and Advanced Applications (CARDIS 2008) held in London, UK, in September 2008.
