Sothebys Bidding For Class:

Sotheby's Robert Lacey,1999-03-01 This volume explores the history of Sotheby's auction house tracing its beginnings back to 1744 It was in the latter half of the 19th century when economic instability forced the aristocrats to sell off many of their treasures that Sotheby's began to lay the foundations of the modern art market The Sotheby's Christie's rivalry intensified in the early 1900s and they have been battling it out ever since over the likes of Cezanne Picasso Van Gogh and Monet Lacey takes the reader through the unprecedented boom of the 1980s when Van Gogh's *Irises* went for 53.9 million and examines the catastrophic effects of an inflation still being felt today *Data Journeys in the Sciences* Sabina

Leonelli,Niccolò Tempini,2020-06-29 This groundbreaking open access volume analyses and compares data practices across several fields through the analysis of specific cases of data journeys It brings together leading scholars in the philosophy history and social studies of science to achieve two goals tracking the travel of data across different spaces times and domains of research practice and documenting how such journeys affect the use of data as evidence and the knowledge being produced The volume captures the opportunities challenges and concerns involved in making data move from the sites in which they are originally produced to sites where they can be integrated with other data analysed and re used for a variety of purposes The in depth study of data journeys provides the necessary ground to examine disciplinary geographical and historical differences and similarities in data management processing and interpretation thus identifying the key conditions of possibility for the widespread data sharing associated with Big and Open Data The chapters are ordered in sections that broadly correspond to different stages of the journeys of data from their generation to the legitimisation of their use for specific purposes Additionally the preface to the volume provides a variety of alternative roadmaps aimed to serve the different interests and entry points of readers and the introduction provides a substantive overview of what data journeys can teach about the methods and epistemology of research The Crabb Enigma Jacqui Welham,2010 Commander Buster

Crabb a British naval frogman disappeared whilst undertaking an underwater spying mission involving the Soviet cruiser *Ordzhonikidze* in 1956 Just over a year after he disappeared a body washed up headless and handless near Portsmouth The establishment took charge of the body and at an inquest declared it to be Crabb However vital evidence was omitted and key witnesses not called It's now known that it was not Crabb who was buried in Portsmouth The problem for the establishment was that Crabb worked for the then head of the Royal Navy Lord Mountbatten At the time US government security agencies had alleged that Mountbatten was doing unofficial business with the Soviet Union This UK officials believed was a valid reason for Crabb's story to be held secret until 2056 an unprecedented 100 years The FBI and CIA state that it is in the interests of US National Security not to make available any documentation or information and applications to the KGB by the authors remain unanswered However for thirty years Admiral Gennadiy Zakharov trained Spetsnaz troops in Naval sabotage and states that Crabb was in the Eastern Bloc at that time Sir Percy Sillitoe former head of MI5 also states that the

department had a file that proved Crabb was in the Soviet Union The story also involves the British ruling class and Royalty It is a tale of illegal activities art and currency smuggling Nazi looted gold and treasure homosexual blackmail threats and mysterious deaths The authors and witnesses have been subjected to government surveillance mail interception and telephone tapping both by the UK authorities and INTERPOL Following publication of the authors previous book Frogman Spy attempts were made to kill both a researcher and a vital witness This is the murky world of what the establishment does not want you to know

Theft and the Case of the Stolen Turners Sandy Nairne, 2011-09-15 In 1994 two important paintings by J M W Turner then valued at twenty four million pounds were stolen from a German public gallery while on loan from Tate Britain In this vivid personal account Sandy Nairne who was then Director of Programmes at the Tate and became centrally involved in the pursuit of the paintings and the negotiations for their return retells this complex 8 year cloak and dagger story which finally concluded in 2002 with the pictures returning to public display at the Tate In addition to this thrilling narrative Nairne unravels stories of other high value art thefts puzzling what motivates a thief to steal a well known work of art that cannot be sold even on the black market Nairne also examines the role of art theft within the larger underworld of international looting and illicit deals among art and antique collectors The art heist of course is a popular theme of crime novels and films and

The Contemporary Art Gallery David Carrier, Darren Jones, 2016-09-23 Everyone who looks at contemporary art is familiar with galleries But visual features of these mysterious temples tend to be taken for granted The basic purpose of this book is to enliven the reader's latent

knowledge of galleries including architectural motifs the intended impression that is conveyed to the visitor and human interactions within them The contemporary art world system includes artists studios art galleries homes of collectors and public art museums To comprehend art one needs to understand these settings and how it travels through them The contemporary art gallery is a store where luxury goods are sold What distinguishes it from stores selling other luxuries upscale clothing jewelry and posh cars is the nature of the merchandise While much has been written about the art this book uncovers the secretive culture of the galleries themselves The gallery is the public site where art is first seen anyone can come and look for free This store a commercial site is where aesthetic judgments are made Art's value is determined in this marketplace by the consensus formed by public opinion professional reviewers and sales The gallery then is the nexus of the enigmatic billion dollar art world and it is that space that is dissected here The first chapter briefly describes the beginnings of the present contemporary art gallery The second presents the experience of gallery going presenting summary accounts of visits to some contemporary galleries The third expands and extends that analysis with detailed close up descriptions and comparative evaluations of many diverse contemporary galleries in order to identify the challenges provided by these marvelous places Then the fourth chapter indicates why in the near future due to the proliferation of myriad art fairs and online platforms extant today such galleries might disappear altogether

The Faustian Bargain Jonathan

Petropoulos, 2000-03-30 Nazi art looting has been the subject of enormous international attention in recent years and the topic of two history bestsellers Hector Feliciano's *The Lost Museum* and Lynn Nicholas's *The Rape of Europa* But such books leave us wondering What made thoughtful educated artistic men and women decide to put their talents in the service of a brutal and inhuman regime This question is the starting point for *The Faustian Bargain* Jonathan Petropoulos's study of the key figures in the art world of Nazi Germany Petropoulos follows the careers of these prominent individuals who like Faust that German archetype chose to pursue artistic ends through collaboration with diabolical forces Readers meet Ernst Buchner the distinguished museum director and expert on Old Master paintings who repatriated the Van Eyck brother's Ghent altarpiece to Germany and Karl Haberstock an art dealer who filled German museums with works bought virtually at gunpoint from Jewish collectors Robert Scholz the leading art critic in the Third Reich became an officer in the chief art looting unit in France and Kajetan Muhlmann a leading art historian was probably the single most prolific art plunderer in the war and arguably in history Finally there is Arno Breker a gifted artist who exchanged his modernist style for monumental realism and became Hitler's favorite sculptor If it is striking that these educated men became part of the Nazi machine it is more remarkable that most of them rehabilitated their careers and lived comfortably after the war Petropoulos has discovered a network of these rehabilitated experts that flourished in the postwar period and he argues that this is a key to the tens of thousands of looted artworks that are still missing today Based on previously unreleased information and recently declassified documents *The Faustian Bargain* is a gripping read about the art world during this period and a
